Cronjé, 1973 Merchants to Multinationals Geoffrey Jones, 2002-03-07 Merchants to Multinationals examines the evolution of multinational trading companies from the eighteenth century to the present day During the Industrial Revolution British merchants established overseas branches which became major trade intermediaries and subsequently engaged in foreign direct investment Complex multinational business groups emerged controlling large investments in natural resources processing and services in Asia Latin America and Africa While theories of the firm predict the demise over time of merchant firms this book identifies the continued resilience of British trading companies despite the changing political and business environments of the twentieth century Like Japanese trading companies they re-invented themselves in successive generations The competences of the trading companies resided in their information gathering relationship building human resource and corporate governance systems This book provides a new dimension to the literature on international business through the focus on multinational service firms and its evolutionary approach based on confidential business records *Africa and the International System* Christopher S. Clapham, 1996-09-12 Paying for the state *The Rise and Decline of the Zairian State* Crawford Young, Thomas Edwin Turner, 1985 Zaire apparently strong and stable under President Mobutu in the early 1970s was bankrupt and discredited by the end of that decade beset by hyperinflation and mass corruption the populace forced into abject poverty Why and how in a new African state strategically located in Central Africa and rich in mineral resources did this happen How did the Zairian state become a parasitic predator upon its own people Understanding World Order and Structural Change H. Abrahamsson, 2015-12-22 Hans Abrahamsson assesses the current world order and structural change within an historical framework He analyzes the interaction of Pax American and the Bretton Woods system in the postwar period and its impact specifically on the development of Southern Africa The author also proposed an analytical model and a methodological framework for the study of the international political economy and its global and local implications Finally he addresses the circumstances behind the current opportunity for global change and the social forces and political action required in order to seize it Colonialism Melvin E. Page, 2003-09-16 The most exhaustive reference work available on this critical subject in world history focusing on the politics economy culture and society of both colonizers and colonized The history of the last 500 years is the history of imperialism writes editor Melvin Page In the Americas as a result of imperialist conquest disease famine and war nearly wiped out a population estimated in the tens of millions Africa was devastated by the slave trade an integral part of imperialism from the 1400s to the 1800s In Asia even though native populations survived
