Lost Universe:

The Lost Universe Gene Weltfish, 1977-01-01 A fascinating insight into the life and culture of the Pawnee people is achieved here by the author's presentation of carefully gathered information in the form of a narrative of one year in Pawnee village. The first few chapters lay the groundwork of kinship lines followed by a narration of the life of one person in the village. Customs, ceremonies, beliefs, and hard work become apparent as the author leads one through the intricacies of the activities. Although it presents a great deal of detailed anthropological material, the manner of presentation turns the book into a readable account. The book is based on years of first-hand study as well as scholarly research and is recommended as an in-depth study of Plains Indian life. Reprint Bulletin Book Reviews. Gene Weltfish is coauthor with Ruth Benedict of *The Races of Mankind*. She is also the author of *The Origins of Art* and other books. *The Lost Universe* Gene Weltfish, 1965

Knowing appreciation is key to cultured man. Enter this wonderful universe. **The Universal Vampire** Barbara Brodman, James E. Doan, 2013-03-08 Since the publication of John Polidori's *The Vampyre* in 1819, the vampire has been a mainstay of Western culture, appearing consistently in literature, art, music, notably opera, film, television, graphic novels, and popular culture in general. Even before its entrance into the realm of arts and letters in the early nineteenth century, the vampire was a feared creature of Eastern European folklore and legend, rising from the grave at night to consume its living loved ones and neighbors, often converting them at the same time into fellow vampires. A major question exists within vampire scholarship: to what extent is this creature a product of European cultural forms, or is the vampire indeed a universal, perhaps even archetypal figure? In this collection of sixteen original essays, the contributors shed light on this question. One essay traces the origins of the legend to the early medieval Norse draugr, an undead creature who reflects the underpinnings of *Dracula*, the latter first appearing as a vampire in Anglo-Irish Bram Stoker's 1897 novel *Dracula*. In addition to these investigations of the Western mythic literary and historic traditions, other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual, as well as the existence of similar vampiric traditions in Japanese, Russian, and Latin American art, theatre, literature, film, and other cultural productions. The female vampire looms large, beginning with the Sumerian goddess Lilith, including the nineteenth-century Carmilla, and moving to vampiresses in twentieth-century film, literature, and television series. Scientific explanations for vampires and werewolves constitute another section of the book, including eighteenth-century accounts of unearthing, decapitation, and cremation of suspected vampires in Eastern Europe. The vampire's beauty, attainment of immortality, and eternal youth are all suggested as reasons for its continued success in contemporary popular culture. **Marginality and 'Resistencia'** Miguel Rivas Venegas, Martina L. Weisz, 2024-12-30 This book promotes international and interdisciplinary reflections on narratives of exclusion, liminality, dissident power, and the forging of new identities during the last decades.

Storyworlds Across Media Marie-Laure Ryan, Jan-Noël Thon, 2014-07-01 The proliferation of media and their ever increasing role in our daily life has produced a strong sense that understanding media everything from oral storytelling literary narrative newspapers and comics to radio film TV and video games is key to understanding the dynamics of culture and society Storyworlds across Media explores how media old and new give birth to various types of storyworlds and provide different ways of experiencing them inviting readers to join an ongoing theoretical conversation focused on the question how can narratology achieve media consciousness The first part of the volume critically assesses the cross and transmedial validity of narratological concepts such as storyworld narrator representation of subjectivity and fictionality The second part deals with issues of multimodality and intermediality across media The third part explores the relation between media convergence and transmedial storyworlds examining emergent forms of storytelling based on multiple media platforms Taken together these essays build the foundation for a media conscious narratology that acknowledges both similarities and

Theory and Practice Stanley Diamond, 2011-07-20 No detailed description available for Theory and Practice *Monsters of Contact* Mark van de Logt, 2018-06-21 A murderous whirlwind an evil child abducting witch woman a masked cannibal terrifying scalped men a mysterious man slaying flint creature the oral tradition of the Caddoan Indians is alive with monsters Whereas Western historical methods and interpretations relegate such beings to the realms of myth and fantasy Mark van de Logt argues in *Monsters of Contact* that creatures found in the stories of the Caddos Wichitas Pawnees and Arikaras actually embody specific historical events and the negative effects of European contact invasion war death disease enslavement starvation and colonialism Van de Logt examines specific sites of historical interaction between American Indians and Europeans from the outbreaks and effect of smallpox epidemics on the Arikaras to the violence and enslavement Caddos faced at the hands of Hernando de Soto s expedition and Wichita encounters with Spanish missionaries and French traders in Texas In each case he explains how through Indian metaphor seemingly unrelated stories of supernatural beings and occurrences translate into

real people and events that figure prominently in western U S history The result is a peeling away of layers of cultural values that for those invested in Western historical traditions otherwise obscure the meaning of such tales and their monsters Although Western historical methods have become the standard in much of the world van de Logt demonstrates that indigenous forms of history are no less valuable and that oral traditions and myths can be useful sources of historical information A daring interpretation of Caddoan lore *Monsters of Contact* puts oral traditions at the center of historical inquiry and in so doing asks us to reconsider what makes a monster
