National Perspectives On The Nationalism:

Transregional versus National Perspectives on Contemporary Central European History Michal Vít, Magdalena M. Baran, 2017-09-26 This volume compares different regional perspectives on the national and democracy building aims of individual states It confronts discourses about national states to regional perspectives on the past as well as the current political and social landscape Why are we observing calls for national identity right now What are the roots of this development How can a Central European identity be shaped when national perspectives are prevalent The book s first part analyzes social and political processes that shaped nation states in the Central European region and shows divergent trends of individual states when it comes to defining a regional approach of the Visegrád Group Poland Czech Republic Slovakia Hungary V4 The second part focuses on key personalities of the 20th century history of individual V4 countries in the light of their perception in the neighbouring states and how they shaped national states as well as identities after the end of World War II Similar aims and approaches implemented by individual countries often led to anything but raising regional understanding The book s third part reflects upon activities of various initiatives aiming to approach this challenge from the perspective of civil society and Central Europe s young generation The collection brings together leading historians of Central Europe from the V4 countries It also offers external perspectives on historical developments in Central Europe from the perspective of the 21st century and on political cooperation as well as its roots Lastly it includes practitioners of Central European cooperation from both academia and civil society and their reflection on their countries political cooperation after 1989

National Perspectives on Russia Maxine David, Jackie Gower, Hiski Haukkala, 2013-06-03 This book presents a ground breaking comparative study of the bilateral relations of all 27 EU member states with Russia and an assessment of their impact on the EU s efforts to conduct a coherent and effective policy towards its most important neighbour While there has been a lot of research on European foreign policy there has been much less on the role that national foreign policies play in it Based on a common analytical framework this book offers a detailed analysis of national perspectives on Russia and how they interact with and affect policymaking at the EU level The authors provide deep insights into the relationship between individual states and Russia looking at a range of policy areas economics trade energy security culture and education They are not only interested in examining policy failure but also probing the possibilities of seeing national foreign policies and the bilateralism with third parties that they often entail as a potentially positive resource for the European Union As Russia is an example of a particularly hard case for EU foreign policy this book yields important insights concerning the possibilities as well as limits of developing a common EU policy in the future It will be of interest to students and scholars of European politics EU Studies Russian politics foreign policy studies and international politics

Chinese Perspectives on Globalization and Autonomy Tuo Cai, 2012-01-06 This book is a reflection of the discussion and debates on globalization and state autonomy in China These

debates dated back to early 1990s witnessed China's gradual involvement in globalization. Like other developing countries, China faced tremendous pressure when globalization intensified in the 1990s. As it turned out, China arduously made up its mind to embrace globalization, which reached its height when China was finally adopted as a member of the World Trade Organization in 2001. Thus, the articles in this book record the anxiety, concerns, uncertainty, and enthusiasm of Chinese scholars in the face of China's embracing of globalization. In other words, this book presents a unique Chinese perspective on globalization and state autonomy.

Transnational Perspectives on Artists' Lives Marleen Rensen, Christopher Wiley, 2020-10-06. This book demonstrates the significance of transnationality for studying and writing the lives of artists. While painters, musicians, and writers have long been cast as symbols of their associated nations, recent research is increasingly drawing attention to those aspects of their lives and works that resist or challenge the national framework. The volume showcases different ways of treating transnationality in life writing by and about artists, investigating how the transnational can offer intriguing new insights on artists who straddle different nations and cultures. It further explores ways of adopting transnational perspectives in artists' biographies in order to deal with experiences of cultural otherness or international influences and analyses cross-cultural representations of artists in biography and biofiction. Gathering together insights from biographers and scholars with expertise in literature, music, and the visual arts, *Transnational Perspectives on Artists' Lives* opens up rich avenues for researching transnationality in the cultural domain at large.

National Politics and Sexuality in Transregional Perspective Achim Rohde, Christina von Braun, Stefanie Schüler-Springorum, 2017-11-28. *National Politics and Sexuality in Transregional Perspective* explores how modern identity politics around the world are gendered and sexualized in multiple ways. Constructions of the imagined collective self often contain references to a heteronormative order, whereas relevant internal or external others are often felt to deviate from this order through their gendered or sexual practices. By contrast, some Western countries have witnessed the evolution of LGBTQI-friendly discourses by certain political actors in recent years, often in the context of the post-9/11 culture wars. This pathbreaking book focuses on perceptions of self and other in Europe, the Middle East, and North Africa from a gendered perspective. It deals with anti-LGBTQI as well as LGBTQI-friendly aspects of modern culture and politics in countries within these regions, focusing on the functions such discursive markers play in nationalist and racist imageries, in discourses legitimizing class differences from the nineteenth century to the present day, including globalized discourses in the context of 9/11 and its aftermath. It shows that discourses on sexuality and gendered performances in everyday life often undermine the stability of such binary constructions as they point to the multiplicity, ambivalence, and the indeterminate character of individual and collective identities under conditions of modernity. Addressing contemporary identity politics both in a wider historical context and within a transregional comparative framework thus helps to discern differences and similarities between different world regions and serves to dislocate essentialized notions of cultural differences based on gender and sex. This book will appeal to those with an interest
