

A woman with long brown hair, wearing a brown t-shirt and patterned pants, is sitting in a meditative pose on a large orange cushion on a rocky cliff edge. She is looking out over a vast, misty mountain landscape. The background is a mix of dark, rocky terrain and a bright, hazy sky. The text 'Gender Studies' is overlaid in the top right, 'NATURE VS CULTURE' is in the center, and 'Gender Development' is in the bottom right.

**Readings in Gender in Africa** Andrea Cornwall, International African Institute, 2005-02-14 Readings in Gender in Africa collects the most important critical and theoretical writings on how gender issues have transformed contemporary views of Africa Scholarship from North America Europe and Africa is represented in this comprehensive volume A synthetic introduction by Andrea Cornwall discusses efforts to include women in research about Africa The volume not only shows how gender relations have been constructed on the African continent but reflects the changes in approach and inquiry that have been brought about as scholars consider gender identities and difference in their work Specific themes covered here include the contestation and representation of gender femininity and masculinity livelihoods and lifeways gender and religion gender and culture and gender and governance Readers from across the landscape of African studies will find this an essential sourcebook Published in association with the International African Institute London [Gender in the Book of Ben Sira](#) Teresa Ann Ellis, 2013-10-30 Gender in the Book of Ben Sira is a semantic analysis and also an investigation of hermeneutical pathways for performing such an analysis A comparison of possible Greek and Hebrew gender taxonomies precedes the extensive delineation of the target category gender The delineation includes invisible influences in the Book of Ben Sira such as the author s choices of genre and his situation as a member of a colonized group within a Hellenistic empire When the Book of Ben Sira s genre constrained invectives against women and male fools are excluded the remaining expectations for women and for men are mostly equivalent in terms of a pious life lived according to Torah However Ben Sira says nothing about distinctions at the level of how living according to Torah would differ for the two groups His book presents an Edenic ideal of marriage through allusions to Genesis 1 to 4 and a substantial overlap of erotic discourse for the female figures of Wisdom and the intelligent wife creates tropes similar to those of the Song of Songs In addition Ben Sira s colonial status affects what he says and how he says it by writing in Hebrew he could craft the Greek genres of encomium and invective to carry multiple levels of meaning that subvert Hellenistic Greek claims to cultural superiority **Gender and Rural**

**Geography** Jo Little, 2017-09-29 Gender and Rural Geography explores the relationship between gender and rurality. Feminist theory, gender relations and sexuality have all become central concerns of geographical research and significant progress has been made in terms of our understanding of both the broad relationship between gender and geography and the more detailed differences in the lives of men and women over space. The development of feminist perspectives and the study of gender relations in geography has however been fairly uneven over the discipline. Both theoretical and empirical work on gender has tended to be concentrated within social and cultural geography. Moreover, it has been directed largely towards the urban sphere.

Seeing Nature Through Gender Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature. Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender. *Seeing Nature through Gender* here reintroduces gender as a meaningful category of analysis for environmental history, showing how women's actions, desires and choices have shaped the world and seeing men as gendered actors as well. In thirteen essays that show how gendered ideas have shaped the ways in which people have represented, experienced and consumed their world, Virginia Scharff and her coauthors explore interactions between gender and environment in history. Ranging from colonial borderlands to transnational boundaries, from mountaintop to marketplace, they focus on historical representations of humans and nature, on questions about consumption, on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes. They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies. Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly, often with dire consequences for other people and organisms. Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his account of an eighteenth century expedition, of how the ecology of fire in a changing built environment has reshaped firefighters' own gendered identities. Some are playful, as in a piece on the evolution of snow bunnies to shred bunnies. Others are dead serious, as in a chilling portrait of how endocrine disrupters are reinventing humans, animals and water systems from the cellular level out. Aiding and adding significantly to the enterprise of environmental history, *Seeing Nature through Gender* bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet.

**Women, Gender, Religion** E. Castelli, R. Rodman, 2001-01-01 This up to date and forward looking collection of essays on gender and religion fills a crucial gap. Interdisciplinary and multi traditional, this volume highlights the contributions that different disciplinary approaches make to feminist gender studies and religion. Designed for the classroom, the Reader simultaneously assesses the state of the field and raises questions for further inquiry and investigation.

**Feminism and Geography** Gillian Rose, 2013-11-18 Geography is a subject which throughout its history has been dominated by men men have undertaken the heroic explorations which form the mythology of its foundation men have written most of its texts and as many feminist geographers have remarked men s interests have structured what counts as legitimate geographical knowledge This book offers a sustained examination of the masculinism of contemporary geographical discourses Drawing on the work of feminist theories about the intersection of power knowledge and subjectivity different aspects of the discipline s masculinism are discussed in a series of essays which bring influential approaches in recent geography together with feminist accounts of the space of the everyday the notion of a sense of place and views of landscape In the final chapter the spatial imagery of a variety of feminists is examined in order to argue that the geographical imagination implicit in feminist discussions of the politics of location is one example of a geography which does not deny difference in the name of a universal masculinity

**Gender** Claire Colebrook, 2003-10-20 Why has Western thought been so persistent in its organisation of human bodies and other categories in terms of the binary opposition male and female Is gender nothing more than an ideology or does it have its basis in sexual difference This invaluable introductory guide offers a clear overview of the concept and problem of gender Claire Colebrook places the term in its historical contexts and traces its development from the Enlightenment to the present before moving on to the evolution of the concept of gender from within the various stances of feminist criticism and exploring recent developments in queer theory and post feminism Close analysis of key literary texts including Frankenstein Paradise Lost and A Midsummer Night s Dream shows how specific styles of literature enable reflection on gender

**Gender and Power** Mr. Rohit Manglik, 2023-01-23 In this book we will study about gender and power It examines the dynamics of power relations and how gender plays a critical role in social economic and political structures

**Space, Gender, Knowledge: Feminist Readings** Linda McDowell, Joanne Sharp, 2016-04-29 Space Gender Knowledge is an innovative and comprehensive introduction to the geographies of gender and the gendered nature of spatial relations It examines the major issues raised by women s movements and academic feminism and outlines the main shifts in feminist geographical work from the geography of women to the impact of post

structuralism In making their selection the editors have drawn on a wide range of interdisciplinary material ranging across spatial scales from the body to the globe The book presents influential arguments for the importance of the intersection between space and gender Looking both at geography and beyond the discipline it explores the gendered construction of space and the spatial construction of gender Divided into a number of conceptual sections each prefaced by an editorial introduction this reader includes extracts from both landmark texts and less well known works making it an indispensable introduction to this dynamic field of study Who's Afraid of Gender?
