On First Principles Origen, 2012-12-14 Being Koetschau's text of the *De Principiis* translated into English together with an introduction and notes by G W Butterworth Origen's *On First Principles* was the first attempt to formulate a coherent system of Christian philosophy and also the best expression of the theologian's general opinions The work is divided into four parts book one deals with God and creation book two with creation rational and irrational natures providence and redemption and book four with the interpretation of Holy Scripture Origen's views are based upon the authority of the Scriptures and Church tradition and grounded upon the tenets of Neoplatonism In *On First Principles* many maxims are given as to the nature of the Trinity the person of Christ and man's free will under the hand of Providence most of which are considered Orthodox teachings On the other hand the principles found in this work that engendered controversy and were later condemned by the Fifth Ecumenical Council in 553 are the preexistence and transmigration of souls and universal salvation at the consummation of the world This edition being Koetschau's English text translated from Rufinus' definitive Latin volume contains selected fragments of St Jerome's rendition and the meager remains of the original Greek texts in order to furnish a more comprehensive view of Origen's writings Also included are in depth introductions to Origen's life and works by the scholar G W Butterworth

Principles of Lutheran Theology Carl E. Braaten, 1985 First published in 1983 *Principles of Lutheran Theology* has guided students into theological reflection on the landmarks of Christian faith as understood in the Lutheran confessional heritage for a generation The book sets forth the main principles of classical Lutheran theology but with an eschatological accent Canon confession ecumenicity Christ centeredness sacrament law gospel and two kingdoms are all examined not only in terms of their original meaning and historical development but also in light of current reflections In this new edition Braaten takes stock of the research and reflection of the last twenty five years and also adds a chapter on the distinctive Archimedean Lutheran insight into the

Cognitive Principle of Christian Theology Fernando Luis Canale,2005 *The Christology of John Macquarrie* Vernon L. Purdy,2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e g Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie s thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie s theology especially his Christology The book also discusses Macquarrie s evaluation and criticisms of the Christology of other theologians e g Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie s understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie s reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism

The Anglican Imagination Robert Boak Slocum,2016-03-03 The variety and depth of Anglican theology is best engaged through personal encounter with its many sources the theologians and theological witnesses themselves Anglican theology is often worked out in personal terms that provide a synthesis between reflection on the truths of faith and the particular contexts of culture and life This book presents modern Anglican theology through a unique gallery This theological gallery includes a portrait or sketch of ten Anglican writers DuBose Farrer Stringfellow Brooks Kemper DeKoven McCord Adams Polkinghorne Gore and Macquarrie Theological description interpretation and application are included for each with the presentations differing as widely as the theologians and theological witnesses themselves Drawing together understandings and experiences of faith this will be an invaluable resource for students of Anglican theology and anyone who seeks to understand the distinctive perspectives and contributions of Anglicanism relative to living faith and daily life **The**

The Cognitive Principle of CHRISTIAN THEOLOGY

Fernando Canale, 2013-07-07 Where do Christians get the information about what they believe How do theologians know whether the doctrines they teach are made up of divine truth For centuries believers have assumed that the Bible consisting of the Old and New Testaments is the origin of Christian knowledge Over time other sources were added to Scripture such as philosophy science tradition and experience with the advent of modernity philosophy and science led many Christian theologians to the idea that the documents comprising Scripture came out of human thinking and tradition If the modern view was correct Christian theology had no cognitive foundation it was left groundless Is there unique truth in Christianity Do Christian doctrines describe real things to our minds Or are they the result of imagination flowing through the traditions into which we are born Is the modern view of the Bible's origin the final word on the matter Or are the views of the classical church and of contemporary evangelicals viable in postmodern times Should we think about the origin of Christian knowledge the revelation and inspiration of Scripture by constructing a new model to lead us beyond the limitations of present ideas In *The Cognitive Principle of Christian Theology A Postmodern View of Revelation Inspiration* Canale addresses not primarily the academic community but the thinking community of the church including administrators pastors theology students and lay persons interested in theological issues He guides them step by step to understand the classical modern and evangelical models of revelation and inspiration by analyzing the hermeneutical presuppositions from which they come The reader will see that each of these models fail in some way to integrate either what the Bible says about itself or the facts of what we find on the written page Then by using the same hermeneutical presuppositions biblical authors assumed when writing Scripture Canale develops an alternate model able to harmonize what Scripture teaches about itself with its actual characteristics as written work phenomena of Scripture The book ends by considering the consequences that the new historical cognitive model of revelation inspiration has for the interpretation of Scripture and its truthfulness

The Philosophy of Christology

Hue Woodson, 2022-01-31 Given the perpetual problem of the historical Jesus there remains an ongoing posing of the question to and a continuous seeking of the meaningfulness of Christology From the earliest reckoning with the relationship between Jesus of Nazareth and the Christ of faith what it means to do Christology today remains at the methodological center of the task and scope of every systematic theology Whether giving an account of Albert Schweitzer's bringing an end to the quest for the historical Jesus in 1906 or attending to Rudolf Bultmann's period of no quest culminating with his demythologization project in the 1940s how we still think of Christology as a matter of questions and concerns with meaning speaks to an unavoidable philosophizing of Christology In this way *The Philosophy of Christology* offers both a particular history of Christology in conjunction with a particular philosophy of Christology which assesses the theological contributions by a group of Bultmannians following Bultmann in the

Encyclopedia of Sacred Theology: Its Principles Abraham Kuyper, 2008-08-25 This is the English translation of Abraham Kuyper's magisterial volume on the principles of theology. This work had a profound influence on conservative twentieth-century Reformed theology but has been out of print since the late 19th century. In it, Kuyper covers the place of theology among the sciences, the method and history of theology, the effects of sin, the doctrine of inspiration, and much more. The introduction is by Prof. B. B. Warfield. This beautiful new edition has been carefully edited and prepared. It is the first unabridged version to be republished in over one hundred years.

The Theological Imperative to Authenticity Christy Capper, 2022-11-04 From a theological viewpoint, this book explores the junction between the philosophical/existential idea of the authentic self and its cultural appropriation. The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood. It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action. The author argues that this is not genuine authenticity. Instead, they consider that authenticity rests upon loyalty to something greater than oneself, and for Christians, this is the character of the God in whose image they are created and are being formed. This book is illuminating reading for students and scholars of theological anthropology, pastoral theology, ethics, and moral philosophy.
