Pazmino, 2002-04-29 Principles and Practices of Christian Education shows teachers how they can use two important principles that stand behind all evangelical practices to make their education program stand out from all the others in its nurture of students First evangelical Christian education recognizes the need for conversion personal and corporate transformation that reconnects people to their Creator Second evangelical Christian education strives for connection making contact with people as unique individuals who live in a particular society and who need to know more about scripture In this book Christian education students learn that the work for which they prepare is a partnership with God to transform people Their central task is worship but through it and other activities they lead others to faith commitment and transformation of communities

Longenecker, 1984 This is a print on demand book and is therefore non returnable To answer the question of what role the New Testament should play in the formation and expression of Christian social morality today Richard Longenecker here proposes a developmental hermeneutic which distinguishes between declared principles and described practices in the New Testament writings With this distinction in mind he focuses on the three couplets of Galatians 3 28 neither Jew nor Greek slave nor free male nor female showing how these matters were treated in early Christian thought and explaining their meaning for us today In so doing Longenecker lays a hermeneutical foundation for the much larger discussion of Christian social ethics *Exalting Jesus in Colossians & Philemon* Dr. Daniel L.
