Sternberg,Kavus Abushov**

Principles Or Expediency Or Selfdetermination:

Principles Or Expediency? Edward M. Matthews, 2000-06-01 *Self-Determination and Secession in International Law* Christian Walter, Antje von Ungern-Sternberg, Kavus Abushov, 2014-06-05 Peoples and minorities in many parts of the world assert a right to self determination autonomy and even secession from a state which naturally conflicts with that state s sovereignty and territorial integrity The right of a people to self determination and secession has existed as a concept within international law since the American Declaration of Independence in 1776 but the exact definition of these concepts and the conditions required for their application remain unclear The Advisory Opinion of the International Court of Justice concerning the Declaration of Independency of Kosovo 2010 which held that the Kosovo declaration of independence was not in violation of international law has only led to further questions This book takes four conflicts in the post Soviet Commonwealth of Independent States CIS as a starting point for examining the current state of the law of self determination and secession Four entities Transnistria Moldova South Ossetia Abkhazia both Georgia and Nagorno Karabakh Azerbaijan claim to be entitled not only to self determination but also to secession from their mother state For this entitlement they rely on historic affiliations and on charges of discrimination and massive human rights violations committed by their mother state This book sets out its analysis of these critical issue in three parts providing a detailed understanding of the principles of international law on which they rely The first part sets out the contours and meaning of self determination and secession including an overall assessment of secession within the Commonwealth of Independent States The second section provides case studies investigating the events in Transnistria South Ossetia Abkhazia and Nagorno Karabach in greater detail The third and final section extends the scope of the examination providing a comparative analysis of similar conflicts involving questions of self determination and secession in Kosovo Western Sahara and Eritrea **Constitutional Principles of Local Self-Government in Europe** Giovanni Boggero, 2017-09-25 In *Constitutional Principles of Local Self Government in Europe* Giovanni Boggero offers a meticulous account of the defining features of European constitutional local government law using both an international and comparative law perspective The book argues that differences between local government systems in Europe typical examples of internal affairs of a State can be smoothed away by construing a consistent system of constitutional principles to be coherently applied at domestic level across the whole European legal space This system can be best grasped by looking at the European Charter of Local Self Government which embodies a concept of self government rooted in common legal traditions and at its subsequent practice within the Council of Europe **Human Rights in Theory and Practice** Ravindran Daniel, 2022-10-07 Appreciation of the context that advances or hinders the enjoyment of human rights would provide the basis for developing relevant strategies including the use of concepts laws and mechanisms to promote human rights protection With this aim this book facilitates reflection on the theory and practice of human rights It deals with the historical evolution of human rights ideas traces the evolution of international human rights law examines the

UN and other human rights protection mechanisms discusses the growth of human rights NGOs and their contribution and studies the changing contours of the human rights movement Human Rights in Theory and Practice An Overview of Concepts and Treaties includes detailed examination of the provisions of major human rights treaties It is a revised and updated version of the 1998 publication Human Rights Praxis A Resource Book for Study Action and Reflection which was widely used by activists and other readers and was translated into Bahasa Indonesia Thai and Tamil The present book will similarly be of interest to human rights activists and scholars of politics law sociology history international relations and peace studies

The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life The Legal Observer, Or, Journal of Jurisprudence ,1834
