Principles of Cost Accounting John R.

Wildman, 2015-06-24 Excerpt from Principles of Cost Accounting The motive which prompted the author to prepare and publish Cost Accounting was the desire to supply a demand for a text book on the part of the students in New York University School of Commerce Accounts and Finance In presenting it for public consideration it is desired to have clearly understood the fact that it is intended as a text book especially adapted to the needs of students and is not intended as a general reference work The supply of literature on the subject of cost accounting is increasing rapidly The quality of such literature is of a high order The fault to be found with it from the point of view of a teacher is that it is too highly specialized The

tendency on the part of authors on this subject is to select some particular industry or line of production and describe a particular system attempting to make such typical of the entire subject Most systems are accompanied by elaborate forms In fact it may be said that many systems are nothing more than a collection of forms This practice has been carried to such an extent that it would not be extravagant to state that the average student looks upon the study of cost accounting as a matter of becoming familiar with certain specific forms comprising a particular system In this maze of forms the student becomes lost and the principles underlying the forms are entirely overlooked About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
