Principles Of Government And Politics In The Middle Ages:

Principles of Government and Politics in the Middle Ages Walter Ullmann,1971 Principles of Government and Politics in the Middle Ages (Routledge Revivals) Walter Ullmann,2010-01-29 In many respects this book first published in 1961 marked a somewhat radical departure from contemporary historical writings It is neither a constitutional nor a political history but a historical definition and explanation of the main features which characterised the three kinds of government which can be discerned in the Middle Ages government by the Pope the King the People The author s enviable knowledge of the sources clerical secular legal constitutional liturgical literary as well as of modern literature enables him to demonstrate the principles upon which the papal government the royal government and the government of the people rested He shows how the traditional theocratic forms of government came to be supplanted by forms of government based on the will of the people Although concerned with the Middle Ages the book also contains much that is of topical interest to the discerning student of modern institutions Medieval history is made understandable to modern man by modern methods Principles of Government and Politics in the Middle Ages (Routledge Revivals) Walter Ullmann,2011-10-13 In many respects this book first published in 1961 marked a somewhat radical departure from contemporary historical writings It is neither a constitutional nor a political history but a historical definition and explanation of the main features which characterised the three kinds of government which can be discerned in the Middle Ages government by the Pope the King the People The author s enviable knowledge of the sources clerical secular legal constitutional liturgical literary as well as of modern literature enables him to demonstrate the principles upon which the papal government the royal government and the government of the people rested He shows how the traditional theocratic forms of government came to be supplanted by forms of government based on the will of the people Although concerned with the Middle Ages the book also contains much that is of topical interest to the discerning student of modern institutions Medieval history is made understandable to modern man by modern methods

Principles of Government and Politics in the Middle Ages Walter Ullmann,1974 *Lineages of European Political Thought* Cary J. Nederman,2009-04 This book examines some of the salient historiographical and conceptual issues that animate current scholarly debates about the nature of the medieval contribution to modern Western political ideas A History of Medieval Political Thought Joseph Canning,2002-11-01 Incorporating research previously unavailable in English this clear guide gives a synthesis of the latest scholarship providing the historical and intellectual context for political ideas This accessible and lucid guide to medieval political thought gives a synthesis of the latest scholarship incorporates the results of research until now unavailable in English focuses on the crucial primary source material provides the historical and intellectual context for political ideas The book covers four periods each with a different focus 300 750 Christian ideas of rulership 750 1050 the Carolingian period and its aftermath 1050 1290 the relationship between temporal and spiritual power and the revived legacy of antiquity 1290 1450 the confrontation with political reality in ideas of church and of state

and in juristic thought Canning has produced an ideal introductory text for undergraduate and postgraduate students of the period

Politics and Eternity: Studies in the History of Medieval and Early-Modern Political Thought Francis Oakley, 2022-06-08 This collection of studies in the history of political thought from late antiquity to the early eighteenth century ranges broadly across themes of kingship political theology constitutional ideas natural law thinking and consent theory The studies are linked together by three shared characteristics First all of them explore the continuities that existed during those centuries between legal political thinking and theology Second nearly all of them transgress the sharp dividing line traditionally drawn between the medieval and the modern which did so much in the past to distort our understanding of intellectual developments in the sixteenth and seventeenth centuries Third all of them raise historiographic questions or probe the metahistorical methodological questions which have troubled the field for the past quarter century and more

The Cambridge History of Later Medieval Philosophy Norman Kretzmann, Anthony Kenny, Jan Pinborg, 1982 A history of philosophy from 1100 1600 concentrating on the Aristotelian tradition in the Latin Christian West will long remain the major guide to later medieval philosophy and related topics Most of the essays are exciting and challenging some of them truly brilliant Speculum

The Political Thought of Baldus de Ubaldis Joseph Canning, 2003-07-17 A full scale study of the political thought of the Italian jurist Baldus de Ubaldis 1327 1400

Anglo-Saxon Kingship and Political Power Kathrin McCann, 2018-10-15 Works on Anglo Saxon kingship often take as their starting point the line from Beowulf that was a good king This monograph however explores what it means to be a king and how kings defined their own kingship in opposition to other powers Kings derived their royal power from a divine source which led to conflicts between the interpreters of the divine will the episcopate and the individual wielding power the king Demonstrating how Anglo Saxon kings were able to manipulate political ideologies to increase their own authority this book explores the unique way in which Anglo Saxon kings understood the source and nature of their power and of their own authority

International Relations

Andrew Linklater, 2000

The Roots of American Politics John Frederick Martin, 2025-04-01 This book examines the ways in which American habits and politics replaced the traditional European republican canon Before the modern era European republics relied on procedural complexity in office filling to arrive at neutral government They did so with such technical consistency over a long span of time as to create a republican procedural tradition That tradition collided with conditions in the Anglo American world with entrenched social deference in politics quasi representative institutions and an ascendant doctrine of majorities American habits would ultimately overwhelm the European republican canon but not without a fight This book suggests that arguments over the abandonment of the procedural tradition shook politics in early America especially at the federal convention and that it is difficult to understand the convention delegates votes concerning the Great Compromise apportioning the House and Senate and the presidential selection system without reference to those arguments The contest between simple majorities and complexity aiming at comity was not resolved neatly in Philadelphia and

continued during the first decades of the republic this book argues that some political institutions to this day bear the stamp of the imperfect arrangements reached at the nation's founding which among other things was a moment of inflection between older and newer concepts of republican architecture This volume will be of interest to students and scholars interested in American Political History Early American History and Political Science Political Theology of International Order William Bain, 2020-04-09 Is contemporary international order truly a secular arrangement Theorists of international relations typically adhere to a narrative that portrays the modern states system as the product of a gradual process of secularization that transcended the religiosity of medieval Christendom William Bain challenges this narrative by arguing that modern theories of international order reflect ideas that originate in medieval theology They are in other words worldly applications of a theological pattern This ground breaking book makes two key contributions to scholarship on international order First it provides a thorough intellectual history of medieval and early modern traditions of thought and the way in which they shape modern thinking about international order It explores the ideas of Augustine Thomas Aquinas William of Ockham Martin Luther and other theologians to rise above the sharp differentiation of medieval and modern that underpins most international thought Uncovering this theological inheritance invites a fundamental reassessment of canonical figures such as Hugo Grotius and Thomas Hobbes and their contribution to theorizing international order Second this book shows how theological ideas continue to shape modern theories of international order by structuring the questions theorists ask as well as the answer they provide It argues that the dominant vocabulary of international order system and society anarchy balance of power and constitutionalism is mediated by the intellectual commitments of nominalist theology It concludes by exploring the implications of thinking in terms of this theological inheritance albeit in a world where God is only one of several possibilities that can be called upon to secure the regularity of order *Common Law and Liberal Theory* James R. Stoner, 1992 In this book James Stoner's purpose is to recover the common law basis of American constitutionalism American constitutionalism in general he argues and judicial review in particular cannot be fully understood without acknowledging their roots in both common law and liberal political theory But for the most part the common law underpinnings of constitutionalism have received short shrift *Western Political Thought* Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability **Political Philosophy: Principles of government. Monarchical government.- v. 2. Aristocracy. Aristocratic governments** Henry Brougham Baron Brougham and Vaux, 1861 **Political Jurisprudence** Martin Loughlin, 2017 Political jurisprudence is the branch of jurisprudence that treats law as an aspect of human experience called the political This is an approach that many contemporary jurists those whose work presupposes the autonomy of legal order tend to suppress In this book Martin Loughlin assesses the contribution made by political jurists and explains its

contemporary significance Political jurists maintain that the essential characteristics of modern legal order can only be revealed by considering how political authority is constituted The political is orientated to the fact that people are organized into territorially bounded units within which authoritative governing arrangements have been established but the authority of this way of viewing the world is strengthened only through institution building Law may be an aspect of the political but to perform its authority generating functions effectively it must operate relatively autonomously The political and the legal operate relationally without one being reduced to the other Loughlin introduces the rich literature of political jurisprudence through essays on innovative political jurists such as Hobbes Burke Constant Romano and Schmitt and on such central themes as political right institutionalism constitutional legality and reason of state Building on his earlier books *The Idea of Public Law* OUP 2003 and *Foundations of Public Law* OUP 2010 this collection extends his account of this influential strand of European legal thought **The Century** ,1921 *Scribner's Monthly, an Illustrated Magazine for the People* ,1921

Century Illustrated Monthly Magazine ... ,1921
