EDITION

Principles Of World Politics

George Modelski

Principles Of World Politics:

Principles of World Politics George Modelski, 1972

Principles of International Politics Bruce Bueno de

Mesquita, 2013-01-14 Renowned scholar Bruce Bueno de Mesquita who set the standard for the scientific approach to international relations and transformed the field has returned with a reformulated fifth edition based on extensive reviewer feedback and guided by an emphasis on questions about the causes and consequences of war peace and world order More than ever before the strategic perspective in international relations is examined with complete clarity precision and accessibility What hasn't changed is Bueno de Mesquita's commitment to covering the fundamentals of IR The foundational topics and examination are all there the major theories of war the domestic sources of international politics an exploration of the democratic peace the problems of terrorism the role of foreign aid democratization international political economy globalization international organizations international law and the global environment The first part of the book Foundation offers highly accessible coverage of key concepts introducing students to different ways to think about the national interest and showing them how to use game theory and the strategic perspective selectorate theory to better understand what happens in all aspects of international affairs This section uses debate over North Korea's nuclear weapons development as an ongoing example to build concepts and build confidence in the student's how of basic modeling ideas Also covered is a basic intuitive introduction to game theory and other evidence and logic based tools for analyzing international relations Part II War next provides a more thorough evaluation of how domestic political incentives and the domestic institutions of governance shape choices about conflict initiation escalation and termination It also surveys major theories of war and conflict working through hypotheses derived from constructivism neo realism liberalism and selectorate theory and evaluating them against the evidence to see what actually works and what doesn't Chapters in Part III Peace build on the logic of collective action to help students see why it is so difficult to get national governments to do what is right even when they can agree on what is right with chapters covering the effectiveness of international organizations and international law as well as a thorough evaluation of environmental issues human rights enforcement and the domestic and the international political economy of trade Part IV World Order emphasizes efforts to promote the spread of democracy and economic prosperity It also addresses how to understand and deal with terrorism Whether examining terrorism the spread of democracy or the alleviation of poverty chapters in this section carefully examine which strategies work which do not and why The Arab Spring provides a useful ongoing example of the strengths and weaknesses of foreign aid policy and military intervention policies No other introductory text delivers such an easily understood contemporary explanation of international politics while truly enabling students to learn how to mobilize the key concepts and models themselves thus develop a new method for thinking about world affairs More than ever before Principles provides a comprehensive evaluation of all aspects of international affairs systematically compares the accuracy of competing approaches to international relations and walks

students through the simple intuitive models and games that capture the essence of the strategic selectorate viewpoint

Principles Of International Politics: People's Power, Preferences, and Perceptions, 3rd Edition Bruce Bueno De Mesquita, 2006 Leaders want to stay in power Their self interest is the decisive motivation for action in the international arena and forms the theoretical backbone for this exciting departure from other introductory international relations texts Through its discussion and development of the strategic perspective Principles of International Politics shows students how leaders translate their personal interests and ambitions into actions of the state and convincingly demonstrates how international and domestic politics are inextricably linked Clearly explaining both the foundational ideas of international relations as well as the key concepts of the strategic perspective Bueno de Mesquita effectively links these to the analytic tools students will employ throughout Principles of World Politics George Modelski, 1972 **Principles And Laws In World Politics: Classical Chinese Perspectives On Global Conflict** Walter Wan Fai Lee, 2021-12-02 The search for universal principles and laws in world politics is a colossal common task for all civilisations It should not be monopolised by the Western liberal paradigm Thirty years after the end of the Cold War global conflicts have been satisfactorily resolved neither by communism nor liberalism Humanitarian intervention now under the cover of the responsibility to protect R2P has destabilised many societies leaving justice undone This inspiring book invites debates on the post liberal imagination of emancipated Leviathan an almighty political authority which exercises awe and force to restore order as well as enshrines globally negotiated values of common conscience and reinvented cosmopolitanism Human well being will truly become reality when we synergise pre modern and pre liberal ways of thinking worldviews ethics and aesthetic styles by means of cross civilisational cross disciplinary fundamental research and let an emancipated Leviathan exercises principles and laws of virtue derived from the study The starting point of such intellectual innovation is China This book explores the application of classical Chinese resources to the innovation of thoughts in contemporary Chinese international relations IR It examines whether Knowledge Archaeology of Chinese International Relations KACIR coined by the author responds sensibly to today's issues of international ethics and global justice The book contends that emancipative hermeneutics holds the key to the Chinese soft power puzzle A bottom up non nationalistic and non ethnocentric approach to the Chinese civilisation will reinvent intellectual pluralism and cosmopolitan elements in the Chinese tradition that interact constructively with and ultimately transcend the liberal Western model Strolling from contemporary IR back to ancient Chinese philosophy then striding into the future searching for common principles and laws this insightful book is a must read for those who want to reflect on global conflicts in this era of great uncertainty and transformation as well as those who love to make our world a better place to live in *Fundamental Principles of International Relations* J. Martin Rochester, 2010-02-23 This lucid and engaging volume provides an essential framework for introducing students to the fundamentals of world politics by clarifying the complexities of its rapidly changing context **Principles of International Politics** Bruce Bueno de Mesquita, 2000 In

contrast to most current approaches to international politics this work views domestic politics and international relations as inseparable and the role of individual political leaders as key A core assumption is that political leaders and foreign policy decision makers are motivated to keep their jobs and that they select policies and allocate scarce resources so as to help them fulfill their personal political objectives

Fundamental Principles of International Relations J. Martin Rochester, 2010-07-09 This book distills the essential elements of world politics both the enduring characteristics as well as the revolutionary changes that may be altering the very fabric of the centuries old state system Author J Martin Rochester explores all the important topics that one would expect to find in an IR text war diplomacy foreign policy international law and organization the international economy and more but injects fresh perspectives on how globalization and other contemporary trends are affecting these issues In addition the author does so through a highly engaging lively writing style that will appeal to today's students Fundamental Principles of International Relations is a tightly woven treatment of international politics past and present drawing on the latest academic scholarship while avoiding excessive jargon and utilizing pedagogical aids while avoiding clutter Rochester ultimately challenges the reader to think critically about the future of a postCold War and post9 11 world that is arguably more complex if not more dangerous than some previous eras with the potential for promise as well as peril Contents PART ONE Introduction Conceptual and Historical Background 1 Understanding International Relations Or Getting A Handle on the World 2 The Historical Development of the International System From the Birth of the Nation State to Globalization PART TWO Foreign Policy and International Politics The Dynamics of Conflict and Cooperation 3 States and Foreign Policy 4 Diplomacy Bargaining and Statecraft 5 War and the Use of Armed Force 6 International Organization and Law PART THREE Global Problem Solving Issue Areas 7 Improving International Security 8 Enhancing Human Rights and Human Development 9 Managing the World Economy and Promoting Prosperity PART FOUR Conclusion Thinking About the New Millennium 10 The Future of International Relations Sovereignty Global Governance and the Human Prospect in the 21st Century

The Globalization of World Politics John Baylis, Steve Smith, Patricia Owens, 2020 The best selling introduction to international relations offers the most comprehensive coverage of the key theories and global issues in world politics written by the leading experts in the field

Trends and Transformations in World Politics Rahman Dag, Özgür Tüfekçi, 2022-05-05 We are witnessing turbulent times which inspire both anxiety and hope Many global trends are sweeping across a transforming world To make these movements and changes more understandable Trends and Transformations in World Politics introduces the reader to the study of world politics in a period of rapid readjustment This book also focuses on world historical transformations as a general phenomenon showing how the twenty first century change in world politics fits into broader patterns of macro historical change To do that the perspective of major international relations theories is utilized and a discussion of transformation is grounded within a conceptual framework This book will strengthen the reader's understanding of the trends and transformations in world politics

Principled World Politics Richard A. Falk, 2000 On normative international relations Perspectives on World Politics Richard Little, Michael Smith, 2006 This third edition substantially revised and updated takes full account of the literature on the post Cold War period and how theories have been influenced by events in the 1990s **World Politics** Jeffrey Haynes, Peter Hough, Shahin Malik, Lloyd Pettiford, 2017-03-20 Praised for achieving significant breadth and depth of coverage of all the key themes of IR this introduction is also full of a range of features and techniques including a wide range of contemporary case studies and reflection boxes to help students become adept at the subject quickly and easily

Transparency and American Primacy in World Politics James J. Marquardt, 2016-02-24 At a time when greater transparency is needed this book advances a novel explanation of America's efforts to advance greater transparency in international relations Marquardt argues that American statesmen have long sought to secure an American dominated international system to encourage states to be more open and forthcoming about their internal affairs Yet the United States routinely uses its calls for military transparency in particular as a policy instrument to discipline its rivals and therefore paradoxically contributes to greater tension in international relations In contrast to conventional thinking about transparency in relation to overcoming power politics and promoting international cooperation this book explores the relationship between America's power and international security competition Though analytically distinct openness and transparency have served the same strategic goal ensuring America's position of preponderance in the international system *Ethics, Justice and International Relations* Peter Sutch, 2013-04-15 This topical and timely book critically explores contemporary liberal international relations theory In the fifty years since the declaration of human rights the language of international relations has come to incorporate the language of justice and injustice The book argues that if justice is to become the governing principle of international politics then liberals must recognise that their political preferences cannot be the preconditions of global ethics The hierarchy of international political ethics must be constructed afresh so that the first principles of justice are accessible to all agents as political and ethical equals This book will be essential reading for students and scholars in politics international relations political theory and ethics **Scriptures, Shrines, Scapegoats, and World Politics** Zeev Maoz, Errol A Henderson, 2020-03-19 The effect of religious factors on politics has been a key issue since the end of the Cold War and the subsequent rise of religious terrorism However the systematic investigations of these topics have focused primarily on the effects of religion on domestic and international conflict Scriptures Shrines Scapegoats and World Politics offers a comprehensive evaluation of the role of religion in international relations broadening the scope of investigation to such topics as the relationship between religion and cooperation religion and conflict and the relationship between religion and the quality of life Religion is often manipulated by political elites to advance their principal goal of political survival Zeev Maoz and Errol A Henderson find that no specific religion is either consistently more bellicose or consistently more cooperative than other religions However religious similarity between states tends to reduce the propensity of conflict and

increase the opportunity for security cooperation The authors find a significant relationship between secularism and human security

China and the Pursuit of Harmony in World Politics Adam Grydehøj, Ping Su, 2021-11-25 Focusing on the role of harmony in Chinese international relations IR theory this book seeks to illuminate Chinese understandings of world politics and foreign policy Taking a decolonial approach and rooted in China's cultural and epistemic terms the title first describes three traditions of the concept of harmony in ancient Chinese thought and then analyses three strands of contemporary Chinese IR theory that draw upon this traditional thinking Despite their similarities in advocating a radical deepening of China's relations with other countries and intense interdependence as essential for global peace and prosperity these Chinese IR theories understand the concept of harmony in different ways and present different recommendations for achieving harmonious relations Based on this framework of harmonious IR Chinese social scientists also argue for new directions in Chinese foreign policy in a manner that is complementary with China's policymaking system In the case study section the authors apply harmonious IR perspectives to the Belt and Road Initiative and demonstrate how a better understanding of Chinese IR theories can shed light on motivations behind Chinese foreign policy This work will be a valuable reference for scholars students policymakers and general readers interested in Chinese politics Chinese foreign policy Chinese IR theory and ancient Chinese philosophy

Principles and Problems of International Politics Hans Joachim Morgenthau, Kenneth W. Thompson, 1982-08-04

Edinburgh Companion to Contemporary Liberalism Mark Evans, 2019-07-29 This is the premier collection of material on a comprehensive range of topics in contemporary liberalism It shows how liberalism can tackle wide ranging practical concerns that urgently demand attention in twenty first century politics

Scriptures, Shrines, Scapegoats, and World Politics Zeev Maoz, Errol A Henderson, 2020-03-16 The effect of religious factors on politics has been a key issue since the end of the Cold War and the subsequent rise of religious terrorism However the systematic investigations of these topics have focused primarily on the effects of religion on domestic and international conflict Scriptures Shrines Scapegoats and World Politics offers a comprehensive evaluation of the role of religion in international relations broadening the scope of investigation to such topics as the relationship between religion and cooperation religion and conflict and the relationship between religion and the quality of life Religion is often manipulated by political elites to advance their principal goal of political survival Zeev Maoz and Errol A Henderson find that no specific religion is either consistently more bellicose or consistently more cooperative than other religions However religious similarity between states tends to reduce the propensity of conflict and increase the opportunity for security cooperation The authors find a significant relationship between secularism and human security
