**London's News Press and the Thirty Years War** Jayne E. E. Boys, 2014 A topical subject offering interesting parallels between the news revolution in the age of James I and Charles I and our internet age An important contribution to the history of print and books London's News Press shows that seventeenth century England was very much part of a European wide news community The book presents a new print history that looks across Europe and the interconnecting political and religious groups with international networks It tells the story of the printers and publishers engaged in the earliest illicit publications their sources and connections in Germany as well as the Netherlands and traces the way legitimacy was achieved These were the earliest printed periodical news publications Periodicity and its implications for trade and customers is explored as well as the roles of publishers and editors The period saw a much bigger circulation of news than had ever been experienced before The book also describes the lively nature of relationships that ensued between news networkers editors writers and readers along their interconnecting chains This subject is topical Our understanding of reading and communications is undergoing major changes with the rise and proliferation of social media James I and Charles I faced new media and an unprecedented growth in informed public opinion fuelled by a flow of information that was essentially beyond the reach of government control So there are parallels with the contemporary struggle to adapt and there is a corresponding growth in the publication of history books reflecting upon the origins of the public sphere and the development of public opinion JAYNE E E BOYS is an independent scholar who lives in Suffolk and British Columbia

Atkinson, 2017-03-02 As its compiler Thomas Bentley writes The Monument of Matrones 1582 is a domesticall librarie plentifully stored and replenished This 1500 page book is one of a long line of books of secular prayer reaching from the Middle Ages through the sixteenth century English compilations of prayer and meditations that grew out of the English Reformation It is unique because it is addressed specifically to women and contains prayers and meditations written by women as well as for them The Monument helped define women's roles in the Anglican Church and is intertwined with the whole nature of the Protestant Reformation and the place of women in it The work is divided into seven numbered parts which Bentley titles Lamps This structural theme is based on a fusion of the imagery of the wise and foolish virgins and their lamps in Matthew 25 1 13 with the vision of the seven lampstands or seven branched candlestick in Rev 1 20 2 1 In this facsimile edition Volume 1 contains Lamps 1 3 Volume 2 contains Lamp 4 and Volume 3 contains Lamps 5 7 The Introductory Note that appears in each of the three volumes provides an overview of the contents of The Monument which will help the reader to appreciate the riches of this immense book It is also significant in identifying for the first time the compiler Thomas Bentley as the churchwarden of St Andrew Holborn City of London The copy reproduced in this edition is the British Library copy where necessary pages from The Huntington Library copy have been substituted

**Eighteenth-century Modernizations from The Canterbury Tales** Betsy Bowden, 1991 This

collection of 32 modernised versions of The Canterbury Tales which appeared in the 18th century offers basic material for studying the history of attitudes to Chaucer and Chaucer scholarship during the period. Reception data so precise and extensive is available only for Chaucer among English authors. At least seventeen known and anonymous writers produced thirty-two modernised Canterbury tales during the century plus tale links and adaptations of each other's work. The present collection contains only modernisations that have not seen print since 1796 thus excluding those by Pope and Dryden. Although most works in this collection may be examined further in several British and American libraries others cannot. Apparently only one copy has survived of an anonymous Miller's Tale 1791 with a thoughtful preface justifying the tale's overt sexuality published just as William Lipscomb was completing his 1795 edition that in its preface justifies exclusion from the pilgrimage of the notorious tales of Miller and Reeve. Such contrasting attitudes illustrate the dangers of generalisation about the usual reception or interpretation of Chaucer during this or any other socio-historic period. Instead the collection provides an untapped reservoir of material with which to investigate anew the rich complexity of his poetry and its enduring appeal.

**BETSY BOWDEN** is Professor of English at Rutgers University New Jersey. [The Most Disreputable Trade](#) Thomas F. Bonnell, 2008-04-17 This fascinating book probes the origins of mass market series of literary classics. [The Monument of Matrones](#) **Volume 2 (Lamp 4)** Colin B. Atkinson, 2017-03-02 As its compiler Thomas Bentley writes The Monument of Matrones 1582 is a domesticall librarie plentifullie stored and replenished. This 1500 page book is one of a long line of books of secular prayer reaching from the Middle Ages through the sixteenth century. English compilations of prayer and meditations that grew out of the English Reformation. It is unique because it is addressed specifically to women and contains prayers and meditations written by women as well as for them. The Monument helped define women's roles in the Anglican Church and is intertwined with the whole nature of the Protestant Reformation and the place of women in it. The work is divided into seven numbered parts which Bentley titles Lamps. This structural theme is based on a fusion of the imagery of the wise and foolish virgins and their lamps in Matthew 25:1-13 with the vision of the seven lampstands or seven branched candlestick in Rev 1:20:2-1. In this facsimile edition Volume 1 contains Lamps 1-3 Volume 2 contains Lamp 4 and Volume 3 contains Lamps 5-7. The Introductory Note that appears in each of the three volumes provides an overview of the contents of The Monument which will help the reader to appreciate the riches of this immense book. It is also significant in identifying for the first time the compiler Thomas Bentley as the churchwarden of St Andrew Holborn City of London. The copy reproduced in this edition is the British Library copy where necessary pages from The Huntington Library copy have been substituted.

**Ragged London** Michael Fitzgerald, Michael FitzGerald, 2011-07-31 *Ragged London* describes life in the rookeries of London where forty people would live together in one room Although life was a

constant struggle against famine disease and violence the people enjoyed a closeness that was moer than the result of overcrowding Their lives were lived entirely within the mean streets of their little corner of London They were born and raised within the rookeries earned their meagre living there enjoyed life as best they could dressed in the latest fashion got married had children died and were buried there The lack of cooking facilities led to them inventing the takeaway and there was absolutely no sanitation In the poorest district of all St Giles only a single water pump serviced the entire population It was a closed world although the population explosion of nineteenth century London led to millions of new arrivals in the already congested rookery districts The areas were lawless to a degree that dwarfs contemporary concerns about crime Though life as cheap in the rookeries they produced some of the best soldiers and sailors in the British armed forces

**Good Newes from Fraunce** Lisa Ferraro Parmelee, 1996 An exploration of the importation of French political thought into England during the last decades of Elizabeth s reign The French Religious Wars generated a large body of political propaganda from the Huguenots the Politiques a Huguenot Catholic confederacy and the Catholic League Dr Parmelee discusses how in the last decades of the reign of Elizabeth I some 130 translated documents were imported into England most of them originating from the Politiques written in support of the Protestant Henry of Navarre s accession to the French throne advocating religious tolerance as a way to peace She argues that while most English political thinkers did not openly embrace or articulate the absolutist ideas often expressed in these writings they had a wide impact on political discourse in the late Elizabethan period They were useful against foreign enemies Catholic recusants and Presbyterians but particularly in a time of fear of civil war engendered by an unsettled succession they helped to establish an intellectual climate conducive to the later development of
