English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully [Index of English Literary Manuscripts](#) ,1998-06-19 This volume the third in the series discusses the works of 11 British 18th century writers providing information on the nature of the MS date variant title s state of completion provenance and location date and first form of publication any scholarly use of the MS and the existence of any published facsimiles Information is drawn from material in libraries record offices and private collections throughout the world The listing of each author s manuscripts is preceded by an introduction The book records many hitherto unrecorded manuscripts **Encyclopedia of British Writers, 16th, 17th, and 18th Centuries** Book Builders LLC.,2005 Presents a two volume A to Z reference on English authors from the sixteenth seventeenth and eighteenth centuries providing information about major figures key schools and genres biographical information author publications and some critical analyses **Satire and Sentiment, 1660-1830** Claude Julien Rawson,2000-01-01 Claude Rawson examines the evolution of satirical writing in the period 1660 1830 In a sequence of linked chapters some new and others revised substantially from earlier articles he focuses on English writers from Rochester to Austen both within a contemporaneous European context and as part of a tradition deriving from classical and sixteenth century Humanist predecessors Homer Virgil Erasmus Montaigne and leading to later writers like Flaubert and Yeats Within the period 1660 1830 satire moved from an unusually dominant position to a relatively modest one softened by the cult of sensibility or sentiment The transition was connected with large social and cultural changes culminating in the French Revolution Rawson s method is to concentrate on stress points on evasions and internal contradictions and on continuities and discontinuities with earlier and later periods and with literatures and modes of thought outside Britain *Early Modern Authorship and the Editorial Tradition* Aleida Auld,2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author s own role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern

authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text

Authorship in the Long Eighteenth Century Dustin Griffin, 2013-12-11 This book deals with changing conditions and conceptions of authorship in the long eighteenth century a period said to have witnessed the birth of the modern author Challenging claims about the public sphere and the professional writer it engages with recent work on print culture and the history of the book and takes up such under treated topics as the forms of literary careers and the persistence of the Renaissance republic of letters into the age of authors

Grotesque Anatomies David Musgrave, 2014-10-16 *Grotesque Anatomies* is a study of Menippean satire in English since the Renaissance It consists of revisionist close readings of canonical works such as Eliot's *The Waste Land* and Pope's *Dunciad* among others and investigates how identifying them as Menippean satires changes our understanding of them The initial chapter offers a comprehensive account of the form from antiquity to the present day identifying its bifurcated development in the shorter form Seneca Lucian Julian and the longer more encyclopedic form Varro Petronius Boethius and their subsequent fusion during the Renaissance It also contains an account of the critical reception of the genre with the term Menippean satire first being used by Justus Lipsius in 1581 Finally Menippean satire is described as a literary version of the grotesque and a brief theory of the grotesque in the modern period as radical heterogeneity is outlined This is also the foundation of a new definition of Menippean satire drawing on previous definitions by Frye Bakhtin and Kirk and revising them for the modern period The following chapters examine iconic works as examples of Menippean satire and of the grotesque Chapter 2 offers an overview of the nose in Menippean satire and comic literature generally and reads Rushdie's *Midnight's Children* in this context It also gives an account of metaphor as a grotesque transformation Chapter 3 examines the figure of the stomach in Menippean satire and symposiastic literature and reads Peacock's *Gryll Grange* in this context The link between the stomach as a figure of thinking in comic literature is the basis for an account of symbolic structuring as grotesque association Chapter 4 is a close reading of the scatological imagery of Pope's *Dunciad* and how scatology generally tends towards a cyclical metaphysics It also relates changes in print technology and copyright laws to the reticular scatological structure of the *Dunciad* Chapter 5 argues for Eliot's *The Waste Land* as a Menippean satire focusing on the rhetorical figure of the enthymeme as a missing premise as an example of under mindedness and as an ironic aspect of the fragmentation typical of late Romantic Menippean satires Chapter 6 examines Urquhart's eccentric *The Jewel* as a satire on the referential function of language reading it in the context of projections for a universal language from this period The final chapter identifies some key works by Derrida and Barthes as Menippean satires noting the resurgence of the form in some postmodern and deconstructive writing

Making the Modern Reader Barbara M. Benedict, 2018-12-04 Inquiring into the formation of a literary canon during the Restoration and the eighteenth century Barbara Benedict poses the question Do anthologies reflect or shape contemporary literary taste She finds that there was a

cultural dialectic at work miscellanies and anthologies transmitted particular tastes while in turn being influenced by the larger culture they helped to create Benedict reveals how anthologies of the time often created a consensus of literary and aesthetic values by providing a bridge between the tastes of authors editors printers booksellers and readers Making the Modern Reader the first full treatment of the early modern anthology is in part a history of the London printing trade as well as of the professionalization of criticism Benedict thoroughly documents the historical redefinition of the reader once a member of a communal literary culture the reader became private and introspective morally and culturally shaped by choices in reading She argues that eighteenth century collections promised the reader that culture could be acquired through the absorption of literary values This process of cultural education appealed to a middle class seeking to become discriminating consumers of art By addressing this neglected genre Benedict contributes a new perspective on the tension between popular and high culture between the common reader and the elite This book will interest scholars working in cultural studies and those studying noncanonical texts as well as eighteenth century literature in general Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Anthology and the Rise of the Novel Leah Price, 2003-07-17 The Anthology and the Rise of the Novel first published in 2000 brings together two traditionally antagonistic fields book history and narrative theory to challenge established theories of the rise of the novel Leah Price shows that far from leveling class or gender distinctions as has long been claimed the novel has consistently located them within its own audience Shedding new light on Richardson and Radcliffe Scott and George Eliot this book asks why the epistolary novel disappeared how the book review emerged why eighteenth century abridgers designed their books for women while Victorian publishers marketed them to men and how editors reproduction of old texts has shaped authors production of new ones This innovative study will change the way we think not just about the history of reading but about the genealogy of the canon wars the future of intellectual property and the role that anthologies play in our own classrooms

The Edinburgh Review in the Literary Culture of Romantic Britain William Christie, 2016-06-16 From its first issue published on the 10th October 1802 Francis Jeffrey's Edinburgh Review established a strong reputation and exerted a powerful influence This is a literary study of the Edinburgh Review for over fifty years It contextualizes the periodical within the culture wars of the Romantic era

Why Modern Manuscripts Matter Kathryn Sutherland, 2022 A study of the cultural value of literary manuscripts that explores why they are traded conserved and coveted It focuses on the history of manuscript collection from the late seventeenth to the early eighteenth century and the emerging strains of commercial aesthetic and heritage value driving it

Textual Vision

Timothy Erwin, 2015-03-06 A stylish critique of literary attitudes towards painting *Textual Vision* explores the simultaneous rhetorical formation and empirical fragmentation of visual reading in enlightenment Britain Beginning with an engaging treatment of Pope's *Rape of the Lock* Timothy Erwin takes the reader on a guided tour of the pointed allusion apt illustration or the subtle appeal to the mind's eye within a wide array of genres and texts before bringing his linked case studies to a surprising close with the fiction of Jane Austen At once carefully researched theoretically informed and highly imaginative *Textual Vision* situates textual vision at the cultural crossroads of ancient *pictura poesis* doctrine and modernist aesthetics It provides reliable interpretive poles for reading enlightenment imagery offers vivid new readings of familiar works and promises to invigorate the study of Restoration and eighteenth century visual culture
