*German Post-Expressionism : The Art of the Great Disorder 1918-1924*, German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919 20

*German Expressionist Painting* Peter Selz, 2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an

eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting      *German Expressionist Theatre* David F. Kuhns, 1997-08-28

*German Expressionist Theatre The Actor and the Stage* considers the powerfully stylized anti realistic styles of acting on the German Expressionist stage from 1916 to 1921 It relates this striking departure from the dominant European acting tradition of realism to the specific cultural crises that enveloped the German nation during the course of its involvement in World War I This book describes three distinct Expressionist acting styles all of which in their own ways attempted to show how symbolic stage performance could be a powerful rhetorical resource for a culture struggling to come to terms with the crises of historical change The examination of Expressionist script and actor memoirs allows for an unprecedented focus on description and analysis of acting itself      **Women in German Expressionism** Anke Finger, Julie Shoults, 2023-08-07 This collection for the first time explores women s self conceptions and representations of women s and gender roles in society in their own Expressionist works How did women approach themes commonly considered to be characteristic of the Expressionist movement and did they address other themes or aesthetics and styles not currently represented in the canon *Women in German Expressionism* centers its analysis on gender together with difference ethnicity intersectionality and identity to approach artworks and texts in more nuanced ways engaging solidly established theoretical and sociohistorical approaches that enhance and update our understanding of the material under investigation It moves beyond the masculine New Man viewpoint so firmly associated with German Expressionism and examines alternative critical and divergent interpretations of the changing world at the time This collection seeks to broaden the theorization scholarship and reception of German Expressionism by much belatedly including works by women and by shifting or redefining firmly established concepts and topics carrying only the imprint of male authors and artists to this day      **A History of Europe in 12 Cafés**
