The Postcolonial Intellectual Oliver Lovesey, 2016-03-03 Addressing a neglected dimension in postcolonial scholarship Oliver Lovesey examines the figure of the postcolonial intellectual as repeatedly evoked by the fabled troika of Said Spivak and Bhabha and by members of the pan African diaspora such as Cabral Fanon and James Lovesey's primary focus is Ng g wa Thiong o one of the greatest writers of post independence Africa Ng g continues to be a vibrant cultural agitator and innovator who in contrast to many other public intellectuals has participated directly in grassroots cultural renewal enduring imprisonment and exile as a consequence of his engagement in political action Lovesey's comprehensive study concentrates on Ng g s non fictional prose writings including his largely overlooked early journalism and his most recent autobiographical and theoretical work He offers a postcolonial critique that acknowledges Ng g s complex position as a virtual spokesperson for the oppressed and global conscience who now speaks from a location of privilege Ng q s writings Lovesey shows display a seemingly paradoxical consistency in their concerns over nearly five decades at the same time that there have been enormous transformations in his ideology and a shift in his focus from Africa's holocaust to Africa's renaissance Lovesey argues that Ng g s view of the intellectual has shifted from an alienated nearly neocolonial stance to a position that allows him to celebrate intellectual activism and a return to the model of the oral vernacular intellectual even as he challenges other global intellectuals Tracing the development of this notion of the postcolonial intellectual Lovesey argues for Ng g s rightful position as a major postcolonial theorist who helped establish postcolonial studies British Diaries William Matthews, 2023-04-28 William Matthews British Diaries 1442 1942 An Annotated Bibliography offers an unparalleled exploration of British diary literature spanning five centuries This meticulously compiled resource catalogs diaries from diverse perspectives ranging from monarchs to farmers scholars to soldiers and clergy to craftsmen providing a comprehensive cross section of British society across eras With annotations that highlight the unique content and context of each diary the bibliography serves as an invaluable guide for scholars of history linguistics sociology and cultural studies This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1950 Entering Hades John Leake, 2007-11-13 With unprecedented access to the diaries and letters of author Jack Unterweger Leake peels back the layers of deception to reveal the life and crimes of this international serial killer Includes photos Gender and Politics in the Age of Letter-Writing, 1750–2000 Máire Cross, 2017-05-15 Letters have long been an outlet for political expression whether they articulate the personal politics of the daily routine or the political views of individuals who witness or participate in dramatic events In addition letters can be unusually revealing records of the relations between men and women Though letters have frequently been studied as a privileged space for literary social and cultural expression the three dimensional relationship of politics gender and letters has not been the focus of an entire

volume The nineteen essays in this collection examine how the gendered nature of political literacy is revealed over a 250 year period through letter writing whether the writer is famous or unknown the wife of a prominent politician or activist a political prisoner or political militant Ranging wide in terms of subject matter and geography the contributors examine correspondence that ponders familial concerns as well as letters providing political commentary on the effects of war or revolution on everyday life Among the impressive group of international scholars are Jim Allen Clare Brant Edith Gelles Jane The Psychology of False Confessions Gisli H. Gudjonsson, 2018-07-23 Provides a Rendall and Si n Reynolds comprehensive and up to date review of the development of the science behind the psychology of false confessions Four decades ago little was known or understood about false confessions and the reasons behind them So much has changed since then due in part to the diligent work done by Gisli H Gudjonsson This eye opening book by the Icelandic British clinical forensic psychologist who in the mid 1970s had worked as detective in Reykjavik offers a complete and current analysis of how the study of the psychology of false confessions came about including the relevant theories and empirical experimental evidence base It also provides a reflective review of the gradual development of the science and how it can be applied to real life cases Based on Gudjonsson's personal account of the biggest murder investigations in Iceland's history as well as other landmark cases The Psychology of False Confessions Forty Years of Science and Practice takes readers inside the minds of those who sit on both sides of the interrogation table to examine why confessions to crimes occur even when the confessor is innocent Presented in three parts the book covers how the science of studying false confessions emerged and grew to become a regular field of practice It then goes deep into the investigation of the mid 1970s assumed murders of two men in Iceland and the people held responsible for them It finishes with an in depth psychological analysis of the confessions of the six people convicted Written by an expert extensively involved in the development of the science and its application to real life cases Covers the most sensational murder cases in Iceland's history Deep analysis of the Reykjavik Confessions adds crucial evidence to understanding how and why coerced internalized false confessions occur and their detrimental and lasting effects on memory The Psychology of False Confessions Forty Years of Science and Practice is an important source book for students academics criminologists and clinical forensic and social psychologists and psychiatrists The ANC's War against Apartheid Stephen R. Davis, 2018-02-02 This study of the armed wing of the African National Congress also contributes significantly to scholarship on liberation movements more broadly Gary Baines author of South Africa's Border War For nearly three decades the armed wing of the African National Congress ANC known as Umkhonto we Sizwe MK waged a violent revolutionary struggle against the apartheid state in South Africa Stephen Davis works with extensive oral testimonies and the heroic myths that were constructed after 1994 to offer a new history of this movement Davis deftly addresses the histories that reinforce the legitimacy of the ANC as a ruling party its longstanding entanglement with the South African Communist Party and efforts to consolidate a single narrative of struggle and renewal in concrete museums

and memorials Davis shows that the history of MK is more complicated and ambiguous than previous laudatory accounts would have us believe and in doing so he discloses the contradictions of the liberation struggle as well as its political manifestations *Andersonville* William Marvel,1994 In this carefully researched and compelling revisionist account William Marvel provides a comprehensive history of Andersonville Prison and conditions within it
