Vaughn,AI,2025-04-05 Prison Reform Debate navigates the intricate landscape of correctional policy focusing on issues like prison overcrowding the effectiveness of rehabilitation and the persistent challenge of recidivism It underscores how these factors are central to achieving social justice within our criminal justice system The book uniquely balances immediate needs with long term strategies advocating for evidence based policies For example the book explores how investment in educational programs and vocational training could drastically cut recidivism rates The book moves methodically first presenting the core issues with supporting data and case studies It then examines specific reform initiatives such as restorative justice and community based corrections alongside in prison rehabilitation strategies The analysis extends to the long term impacts on recidivism and public safety culminating in policy recommendations One key insight is the exploration of alternatives to incarceration showing how these approaches can reduce strain on overcrowded facilities and promote successful reintegration into society reflecting a commitment to both public safety and individual rehabilitation *Prison Reform Needed* J. From Cells to Society : Prison Reforms and Human Rights Ms. Gargi Singh ,Dr. Megha Garg,Dr. Shobhna Jeet,Ms. Sadhna Nirban,2025-04-30 The concept of justice cannot be complete without an inclusive and humane approach to incarceration This edited volume on Prison Reform and Human Rights emerges from a growing recognition that the condition of prisons and the treatment of prisoners are not merely matters of criminal justice policy but fundamental indicators of a society s commitment to human dignity constitutional morality and the rule of law The chapters in this book delve into the multifaceted challenges and complexities surrounding prison systems ranging from overcrowding custodial violence and lack of access to legal aid to mental health gender based discrimination and the rehabilitation and reintegration of inmates Drawing from a wide array of disciplines including law criminology sociology psychology and public policy this compilation presents scholarly insights empirical studies and reformative strategies that collectively advocate for a more accountable transparent and rights based prison administration The book also engages with international human

rights instruments and constitutional jurisprudence situating the Indian context within global discourses on prisoners rights and correctional reform It is hoped that this volume will serve not only as a scholarly resource for academics students and legal practitioners but also as a policy document that can inform systemic change and guide institutions in reimagining prisons as spaces of transformation rather than punishment alone The editors extend heartfelt gratitude to all contributors for their invaluable research and critical perspectives and hope that this work inspires further dialogue action and advocacy for a more just and humane penal system

Mahatma Gandhi on Prison Reforms Dr. P. Prathapan, 2015-06-01 Correction of an individual who had committed a crime and send him back to the very same society in one of the prime objectives of the Prison system which is part of the Criminal Justice System of the country Even after long 65 years of Independence the prisons and correctional system in India have not changed much to achieve the said objective Because there is not much substantial amendments to the prime legislations in the field mainly in the Prisons Act 1894 and Probation of Offenders Act 1958 There are daily reports from news papers regarding the human rights violations in various prisons in India Gandhiji suggested enactment of a new Prisons Act in order to suit the objective of correction Till then the prison officers will be helpless to change the atmosphere of Prisons as they have to act according to existing law Prisons needs change in order to prevent thousands of simple offenders becoming hardened due to the treatment received within the prisons Here the observations and suggestions of Gandhiji on prison conditions and prison reforms becomes relevant as it gives an insight on what is happening within the prison walls and the need and ways of change in a positive way and in the larger interest of the society as each individual has got a dignified existence It is interesting to find that Mahatma Gandhi fought earnestly by giving petitions fasting within and out of prisons whenever violations of human rights had come to his notice relating to him or to other prisoners in the prisons of South Africa or in India

Excessive Punishment Lauren-Brooke Eisen, 2024-04-09 The United States has by far the

world's largest population of incarcerated people More than a million Americans are imprisoned hundreds of thousands more are held in jails This vast system has doled out punishment particularly to people from marginalized groups on an unfathomable scale At the same time it has manifestly failed to secure public safety instead perpetuating inequalities and recidivism Why does the United States see punishment as the main response to social harm and what are the alternatives This book brings together essays by scholars practitioners activists and writers including incarcerated and formerly incarcerated people to explore the harms of this punitive approach The chapters address a range of issues from policing to prosecution and from how people are treated in prison to the consequences of a criminal conviction Together they consider a common theme We cannot reduce our dependence on mass incarceration until we confront our impulse to punish in ways that are excessive often wildly disproportionate to the harm caused Essays trace how a maze of local state and federal agencies have contributed to mass incarceration and deterred attempts at reform They shed light on how the excesses of America's criminal legal system are entwined with poverty racism and the legacy of slavery A wide ranging and powerful look at the failures of the status quo Excessive Punishment also considers how to reimagine the justice system to support restoration instead of retribution
