The Cincinnati Lancet-clinic, 1899. In the Mahdi's Grasp George Manville Fenn, 2020-07-30. Reproduction of the original In the Mahdi's Grasp by George Manville Fenn. *The Right to Difference* Nicole Coleman, 2021-10-14. *The Right to Difference* examines novels that depict human rights violations in order to explore causes of intergroup violence within diverse societies using Germany as a test case. In these texts the book shows that an exaggeration of difference between minority and majority groups leads to violence. Germany has become increasingly diverse over the past decades due to skilled labor migration and refugee movements. In light of this diversity this book's approach transcends a divide between migrant and post migrant German literature on the one hand and a national literature on the other hand. Addressing competing definitions of national identity as well as the contest between cultural homogeneity and diversity the author redefines the term intercultural literature. It becomes not a synonym for authors who do not belong to a national literature such as migrant writers but a way of reading literature with an intercultural lens. This book builds a theory of intercultural literature that focuses on the multifaceted nature of identity in which ethnicity represents only one of many characteristics defining individuals. To develop intercultural competence one needs to adopt a complex image of individuals that allows for commonalities and differences by complicating the notion of sharp contrasts between groups. Revealing the affective allegiances formed around other characteristics gender profession personal motivations relationships and more allows for similarities that grouping into large homogeneous and seemingly exclusive entities conceals. Eight novels analyzed in this book remember and reveal human rights violations such as genocide internment and torture violent expulsion the reasons for fleeing a country dangerous flight routes and the difficulty of settling in a new country. Some of these novels allow for affective identification with diverse characters and cast the protagonists as individuals with plural perspectives and identities rather than monolithic members of one large national or ethnic group whereas others emphasize the commonalities of all people. Ultimately the author makes the case for German Studies to contribute to an antiracist approach to diversity by redefining what it means to be German and establishing difference as a fundamental human right. **Africa** John Walter Gregory, 1928. British Military Operations in Egypt and the Sudan Harold E. Raugh Jr., 2008-05-02. The British Army's campaigns in Egypt and the Sudan from 1882 to 1899 were among the most dramatic and hard fought in British military history. In 1882 the British sent an expeditionary force to Egypt to quell the Arabic Revolt and secure British control of the Suez Canal its lifeline to India. The enigmatic British Major General Charles G Gordon was sent to the Sudan in 1884 to study the possibility of evacuating Egyptian garrisons threatened by Muslim fanatics the dervishes in the Sudan. While the dervishes defeated the British forces on a number of occasions the British eventually learned to combat the insurrection and ultimately largely through superior technology and firepower vanquished the insurgents in 1898. *British Operations in Egypt*

and the Sudan A Selected Bibliography enumerates and generally describes and annotates hundreds of contemporary current and hard to find books journal articles government documents and personal papers on all aspects of British military operations in Egypt and the Sudan from 1882 to 1899 Arranged chronologically and topically chapters cover the various campaigns focusing on specific battles leading military personalities and the contributions of imperial nations as well as supporting services of the British Army This definitive volume is an indispensable reference for researching imperialism colonial history and British military operations leadership and tactics **The Forsyte Saga** John Galsworthy, 2022-11-13 John Galsworthy's *The Forsyte Saga* unfolds a rich tapestry of Edwardian society through the lives of the Forsyte family a wealthy and interlinked clan that epitomizes the era's materialistic values and social mores Spanning three novels and interlaced stories Galsworthy employs a realistic narrative style with intricate character development and a strong sense of place illuminating the conflicts between individuality and societal expectations The work not only explores themes of property love and betrayal but also serves as a critique of the bourgeois ethos reflecting the author's concerns about the erosion of human values amidst rising capitalism Galsworthy born into a prosperous family of solicitors possessed keen insights into the upper middle class society that he chronically depicted His own experiences coupled with his membership in the intellectual circles of the time informed his portrayal of the conflicts inherent in human relationships and the quest for authenticity within a conformist framework Galsworthy's commitment to social reform further enriches the novella lending it an ethos deeply rooted in the evolving social landscape of early 20th century England For readers seeking a profound exploration of societal dynamics and human emotion *The Forsyte Saga* is an essential read Galsworthy masterfully captures the essence of a changing era and its impact on personal identity creating a powerful commentary that resonates with contemporary themes of family class and self discovery *Life of Lord Kitchener* Sir George Arthur, 1920 *The Egyptian Campaigns, 1882 to 1885* Charles Royle, 1886 *Varieties of Secularism in Asia* Nils Ole Bubandt, Martijn Van Beek, 2012-03-12 *Varieties of Secularism* is an ethnographically rich theoretically well informed and intellectually coherent volume which builds off the work of Talal Asad Charles Taylor and others who have engaged the issue of secularism's and in socio political life The volume seeks to examine theories of secularism secularity and examine concrete ethnographic cases in order to further the theoretical discussion Whereas Taylor's magisterial work draws up the conditions and problems of a belief in God in Western modernity it leaves unexplored the challenges posed by the spiritual in modernity outside of the North Atlantic rim This anthology seeks to begin that task It does so by suggesting that the kind of secularity described by Taylor is only one amongst others By attending to the shifting relationship between proper religion and bad faiths between politically valorised and embarrassing spiritual phenomena between the new visibilities and silences of magic ancestors and religion in democratic politics this book seeks to outline the particular formations of secularism that have become possible in Asia from China to Indonesia and from Bahrain to Timor Leste This book will appeal to students and scholars of Asian religion
