## **Prisoners Of Childhood:**

**Prisoners Of Childhood** Alice Miller, 1981-05-14 The drama of the gifted i.e. sensitive alert child consists of his recognition at a very early age of his parents' needs and of his adaptation to these needs. In the process he learns to repress rather than to acknowledge his own intense feelings because they are unacceptable to his parents. Although it will not always be possible to avoid these ugly feelings: anger, indignation, despair, jealousy, fear, in the future they will split off and the most vital part of the true self, a key phrase in Alice Miller's works, will not be integrated into the personality. This leads to emotional insecurity and loss of self which are revealed in depression or concealed behind the facade of grandiosity. Alice Miller defines the ideal state of genuine vitality of free access to the true self and to authentic individual feelings that have their roots in childhood as healthy narcissism. Narcissistic disturbances, on the other hand, represent for her solitary confinement of the true self within the prison of the false self. This is regarded less as an illness than as a tragedy. In her psychoanalytical work Dr. Miller found that her patients' ability to experience authentic feelings, especially feelings of sadness, had been for the most part destroyed. It was her task to help her patients try to regain that long lost capacity for genuine feelings that is the source of natural vitality.

**Prisoners Of Childhood-reissue** Alice Miller, 1996-07-04 The drama of the gifted i.e. sensitive alert child consists of his recognition at a very early age of his parents' needs and of his adaptation to those needs. In the process he learns to repress rather than to acknowledge his own intense feelings because they are unacceptable to his parents. Although it will not always be possible to avoid these ugly feelings: anger, indignation, despair, jealousy, fear, in the future they will split off and the most vital part of the true self, a key phrase in Alice Miller's works, will not be integrated into the personality. This leads to emotional insecurity and loss of self which are revealed in depression or concealed behind a facade of grandiosity. Alice Miller defines the ideal state of genuine vitality of free access to the true self and to authentic individual feelings that have their roots in childhood as healthy narcissism. Narcissistic disturbances, on the other hand, represent for her solitary confinement of the true self within the prison of the false self. This is regarded less as an illness than as a tragedy. The examples Alice Miller presents make us aware of the child's unarticulated suffering and of the tragedy of parents who are unavailable to their children, the same parents who when they were children were available to fill their parents' needs. In her psychoanalytical work Dr. Miller found that her patients' ability to experience authentic feelings, especially feelings of sadness, had been for the most part destroyed. It was her task to help her patients try to regain that long lost capacity for genuine feelings that is the source of natural vitality. Many people who have read her books have discovered within themselves for the first time in their lives the little child they once were. This may explain the unusually strong and deep reactions Alice Miller's books have evoked in so many readers from different countries. The Drama of the Gifted Child and the Search for the True Self is the original title of the book which was published in Germany.

**The Drama of the Gifted Child**, 2008-12-15 This rare and compelling New York Magazine bestseller examines childhood trauma and the

enduring effects it has on an individual's management of repressed anger and pain. Why are many of the most successful people plagued by feelings of emptiness and alienation? This wise and profound book has provided millions of readers with an answer and has helped them to apply it to their own lives. Far too many of us had to learn as children to hide our own feelings, needs, and memories skillfully in order to meet our parents' expectations and win their love. Alice Miller writes, "When I used the word 'gifted' in the title, I had in mind neither children who receive high grades in school nor children talented in a special way. I simply meant all of us who have survived an abusive childhood thanks to an ability to adapt even to unspeakable cruelty by becoming numb. Without this gift offered us by nature, we would not have survived. But merely surviving is not enough. The Drama of the Gifted Child helps us to reclaim our life by discovering our own crucial needs and our own truth."

*Banished Knowledge* Alice Miller, 2012-03-21. From the author of the bestselling classic *The Drama of the Gifted Child*, a book that believes that children are inherently good and traces all forms of criminal deeds to past mistreatments. In direct opposition to the Freudian drive theory, Alice Miller writes lucidly and passionately asks daring questions and sees through conventions that most of us take for granted. *San Francisco Chronicle*      *The Drama of the Gifted Child* Alice Miller, 1994. A

psychological study by a Swiss psychoanalyst examines the upbringing of talented children by their often narcissistic and unwittingly hurtful parents.      **Prisoners' Children** Roger Shaw, 2023-10-25. Justice, it is said, is about acquitting the innocent and punishing the guilty. Why then asks Roger Shaw, are the children of imprisoned parents often penalised the most? The abuse stigma and neglect experienced by many of these children raise serious questions about the nature of criminal justice. Originally published in 1992, *Prisoners' Children* provides the first in-depth look at these hidden victims of crime and examines ways in which the harm can be reduced. The contributors, a wide range of leading practitioners and academics in the field, address such diverse issues as the psychological impact of parental incarceration on children, the added problem of racism facing black children and their families, and the particular needs of mothers and babies in prison. *Prisoners' Children* is a major resource for anyone who needs to know what can be done to confront these and other issues within prisons, the probation service, and schools.      **The Untouched Key** Alice Miller, 2012-05-09. As in her former books, Alice Miller again focusses on facts. She is as determined as ever to cut through the veil that for thousands of years now has been so

meticulously woven to shroud the truth. And when she lifts that veil and brushes it aside, the results are astonishing, as is amply demonstrated by her analyses of the works of Nietzsche, Picasso, Kollwitz, Keaton, and others. With the key shunned by so many for so long, childhood she opens rusty locks and offers her readers a wealth of unexpected perspectives. What did Picasso express in *Guernica*? Why did Buster Keaton never smile? Why did Nietzsche heap so much opprobrium on women and religion and lose his mind for eleven years? Why did Hitler and Stalin become tyrannical mass murderers? Alice Miller investigates these and other questions thoroughly in this book. She draws from her discoveries the conclusion that human beings are not innately destructive; that they are made that way by ignorance, abuse, and neglect, particularly if no

sympathetic witness comes to their aid She also shows why some mistreated children do not become criminals but instead bear witness as artists to the truth about their childhoods even though in purely intuitive and unconscious ways *Thou Shalt Not Be Aware* Alice Miller,1985 **The Shadow of Childhood Harm Behind Prison Walls** Nancy Wolff,2023 In *The Shadow of Childhood Harm* Wolff using a balance of compassion and evidence takes readers through the lives of people who end up inside prison Guided by the words of those who have lived the experience of harm she weaves an expansive body of research that lays bare the harm that began in childhood the curse and its subsequent shadow that later during adolescence and adulthood manifests as harm to self and others eventually culminating in crime that results in incarceration where harm there once again repeats like a bad dream *The Drama of the Gifted Child* Alice Miller,1979 **In the Shadow of Prison** Helen Codd,2013-05-13 This book provides an up to date accessible introduction to the relationship between families prisons and penal policies in the United Kingdom It explores current debates in relation to prisoners and their families and introduces the reader to relevant theoretical approaches Interdisciplinary in nature the book incorporates perspectives drawn from criminology sociology social work and law The book includes a current exploration of key aspects of the consequences of imprisonment for prisoners and their families an assessment of the role of current prison policies and practices in promoting and maintaining family relationships a summary of the current law in relation to prisoners and their families with reference to the relevant legislation and recent case law **Parental Imprisonment and Children's Rights** Fiona Donson,Aisling Parkes,2021-03-30 This book brings together internationally renowned academics and professionals from a variety of disciplines who in a variety of ways seek to understand the legal conceptual and practical consequences of parental imprisonment through a children s rights lens Children whose parents have been incarcerated are often referred to as invisible victims of crime and the penal system It is well accepted that the imprisonment of a parent even for a short period of time not only negatively affects the lives of children but it can also result in a gross violation of their fundamental human rights such as the right of access to their parent and the right to have an input into decision making processes affecting them the outcomes of which will without doubt affect the life of the child concerned This collection foregrounds the voice of these children as it explores transdisciplinary boundaries and examines the practice and development of the rights of both children and their families within the wider dynamic of criminal justice and penology practice The text is divided into three parts which are dedicated to 1 hearing the voices of children with parents in prison 2 understanding to what extent children s rights informs prison policy and 3 demonstrating how law in the form of children s rights can help frame both court sentencing and prison practice in a way that minimises the harm that contact with the prison system can cause The research drawn upon in this book has been conducted in a number of European countries and demonstrates both good and bad practice as far as the implementation of children s rights is concerned in the context of parental incarceration An accessible and compelling read this book will appeal to students and scholars of law children s rights criminology sociology

*Contemporary Research and Analysis on the Children of Prisoners* Liz Gordon, 2018-06-11 In March 2017 researchers advocates and NGOs from twelve countries came together in Rotorua New Zealand for the first conference of the International Coalition for the children of incarcerated parents The Coalition had been formed the previous year to recognise that similar issues faced the children of prisoners all over the world From the first arrest until release from prison the system is stacked against the child Justice systems are all about punishing individuals and are as one conference speaker noted child blind The papers in this collection cover many of the themes in the wider literature on the children of prisoners Advocacy themes include moving towards child friendly prison systems using mass incarceration to influence wider social change the effects of pre trial detention on families the particular issues in Hawaii and how arrest and detention procedures harm children A set of papers reflect contemporary research and analysis on the children of prisoners One paper sets out 12 guiding principles for working with children and families of the incarcerated Others look at how babies and young children react to parental imprisonment as well as children who are resilient in the face of it Two papers consider women one on mothers involuntarily committed to psychiatric hospital and the other examining the difficulties in maintaining family ties when a mother is sent to prison Another contribution looks at an initiative between university and community set up to expand knowledge and inspire change for the children of prisoners One paper examines the difficult issue of supporting families where a parent has been convicted of a sexual offence Also discussed in this volume are the Tyro programme that works to break the cycles of self destruction for the children of prisoners and case studies of prison staff making a difference in child and family visiting *Women offenders* Great Britain: Parliament: House of Commons: Justice

Committee, 2013-07-15 Government plans to introduce payment by results in probation services need to be redesigned in respect of women offenders who are often classified as presenting a lower risk of reoffending so that they receive the intensive tailored support they need The Government s strategic priorities for women offenders lack substance and in particular must take a broader approach to supporting women at risk of reoffending and addressing the inter generational nature of crime The Committee welcomes the Government s extension of through the gate statutory support to prisoners sentenced to less than 12 months likely to benefit many women offenders However potential providers of rehabilitative services need to recognise that levels of risk posed by women may not reflect the level of support such women require Although progress has been made since the Corston recommendations a number of concerns remain the women s prison population has not fallen sufficiently fast over half of women offenders continue to receive ineffective short custodial sentences mental health and substance misuse treatment which could reduce use of custody remains unavailable to Courts in sufficient volume Maintaining a network of women s centres and using residential alternatives to custody are likely to be more effective and cheaper in the long run than short custodial sentences The Committee does not recommend substantive

changes to the overall sentencing framework but argues instead for more emphasis to be placed on ensuring courts are provided with robust alternatives to custody specifically appropriate to women
