Prisons and Prisoners John Townsend,2006 The history of prisons is full of pain Suffering prisoners were often shown to the public to bring shame to the prisoner but also to warn others not to end up in prison This title looks at the history of prisons as well as those unfortunate enough to end up inside them **Prisons & Prisoners** Constance Lytton,Jane Warton,2016-09-30 Originally published in 1914 EXCERPT FROM Prisons Prisoners Some Personal Experiences DEDICATION TO PRISONERS WHEN for a short while I shared your lot I asked myself through all my waking hours if there were any friendly thought which could act beneficently for all prisoners no matter how various the training of their previous lives no matter whether distress of circumstance drunkenness selfish action cruelty or madness had been the cause which brought them into prison And there seemed this one thing It is a single idea but needs many words to give it shape Lay hold of your inward self and keep tight hold Reverence yourself Be just kind and forgiving to yourself For the inner you of yourself is surely the only means of communication for you with any good influence you may once have enjoyed or hope some day to find the only window through which you can look upon a happier and more lovable life the only door through which some day you will be able to escape unbarring it to your own release from all that is helpless selfish and unkind in your present self Public opinion which sent you to prison and your gaolers who have to keep you there are mostly concerned with your failings Every hour of prison existence will remind you of these afresh Unless you are able to keep alight within yourself the remembrance of acts and thoughts which were good a belief in your own power to exist freely when you are once more out of prison how can any other human being help you If not the inward power how can any external power avail But if you have this comforter within you hourly keeping up communication with all that you have known and loved of good in your life with

all the possibilities for good that you know of in your hands your mind your heart then when you are released from prison however lonely you may be or poor or despised by your neighbours you will have a friend who can really help you There will be people who visit you in prison and who watch over you at first when you come out They will try to help you but unless they truly understand your lot understanding your goodness as well as your badness and sympathising with your badness as well as with your goodness they will seem far off from you Who knows though but what you may help them In my ignorance and impudence I went into prison hoping to help prisoners So far as I know I was unable to do anything for them But the prisoners helped me They seemed at times the direct channels between me and God Himself imbued with the most friendly and powerful goodness that I have ever met Prisoners I wish I could give to you for your joy something of the help you gave to me and that in many ways I could follow your example

The Restorative Prison Byron R. Johnson, Michael Hallett, Sung Joon Jang, 2021-09-05 Drawing on work from inside some of America's largest and toughest prisons this book documents an alternative model of restorative corrections utilizing the lived experience of successful inmates fast disrupting traditional models of correctional programming While research documents a strong desire among those serving time in prison to redeem themselves inmates often confront a profound lack of opportunity for achieving redemption In a system that has become obsessively and dysfunctionally punitive often fewer than 10% of prisoners receive any programming Incarcerated citizens emerge from prisons in the United States to reoffend at profoundly high rates with the majority of released prisoners ending up back in prison within five years In this book the authors describe a transformative agenda for incentivizing and rewarding good behavior inside prisons rapidly proving to be a disruptive alternative to mainstream corrections and offering hope for a positive future The authors expertise on the impact of faith based programs on recidivism reduction and prisoner reentry allows them to delve into the principles behind inmate led religious services and other prosocial programs to show how those incarcerated may come to consider their existence as meaningful despite their criminal past and current incarceration Religious practice is shown to facilitate the kind of transformational identity work that leads to desistance that involves a change in worldview and self concept and which may lead a prisoner to see and interpret reality in a fundamentally different way With participation in religion protected by the U S Constitution these model programs are helping prison administrators weather financial challenges while also helping make prisons less punitive more transparent and emotionally restorative This book is essential reading for scholars of corrections offender reentry community corrections and religion and crime as well as professionals and volunteers involved in correctional counseling and prison ministry
