Prisons Hospitals Photo History Civil:

A Photographic History of The Civil War Francis Miller, 2018-02-01 The Photographic History of the Civil War was first published in 1911 to commemorate the fiftieth anniversary of the great conflict These volumes were dedicated to the American People in tribute to the courage and the valor with which they met one of the greatest crises that a nation has ever known A crisis that changed the course of civilization Contained within are thousands of photographs as well as the rise of photographic journalism during a conflict This series offers a unique record of one of the greatest conflicts in the history of mankind Included in this series are maps to mark the battles and line art decorations that give the reader an authentic feel of the era The photographs in this series can be viewed as art history or more importantly journalism Covering every aspect of war from the frontline to everyday life these volumes are a testament to the conflict and the country which emerged from it Prisons and Hospitals presents a photographic record of the prisoners of war during the Civil War It offers glimpses into both northern and southern prisons the treatment of prisoners and the medical services found within the camps

The Photographic History of the Civil War Francis Trevelyan Miller, 1957 Part Seven this vol tells little of war's pomp and pageantry Their subject is and must be grim and terrible Through prisoners of war were not criminals often men whose courage was their only fault and though their detention must not be considered as deserved punishment but as a military necessity nevertheless all prisons are horrible The groans of men one moment vigorous the next shattered and broken or the sight of strength visibly ebbing away from disease are awful It is the dark and cruel side of war that here must be told

Chatelain,2014-06-12 An often overlooked aspect of the American Civil War was the effort by the Confederate Navy to defend the Mississippi River in 1861 and 1862 Confederate officials struggled to build a navy from nothing converting steamers into gunboats while working to build several ironclad warships from the keel up along the banks of the Mississippi River The CSS McRae originally a Mexican ship involved in the Reform War was among the vessels acquired by the Confederacy at the start of the war The McRae was originally intended to roam the seas as one of the first commerce raiders with a secret mission to travel to England and gather much needed supplies for the new Confederacy Instead circumstances kept her on the Mississippi River where she fought from the river s mouth to the banks of Kentucky Most notably the McRae participated in the defense of New Orleans in April of 1862 Fought Like Devils shows how the Confederacy worked to build a navy and defend the most important waterway in North America Drawing on government records newspapers personal letters diaries and reminisces Neil P Chatelain tells the story of the CSS McRae and its crew in their struggle to defend the Mississippi River for the Confederacy **The Photographic History of the Civil War ...** Robert Sampson Lanier,2013-11 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Current History** ,1923 Library of Congress Subject Headings Library of Congress.
