The Photographic History of the Civil War: Prisons and hospitals Francis Trevelyan Miller, Robert Sampson Lanier, 1911
Thousands of scenes photographed 1861-65 with text by many special authorities **Prisons and Hospitals** Francis Trevelyan Miller, 1957 **A Photographic History of The Civil War** Francis Miller, 2018-02-01
The Photographic History of the Civil War was first published in 1911 to commemorate the fiftieth anniversary of the great conflict. These volumes were dedicated to the American People in tribute to the courage and the valor with which they met one of the greatest crises that a nation has ever known. A crisis that changed the course of civilization. Contained within are thousands of photographs as well as the rise of photographic journalism during a conflict. This series offers a unique record of one of the greatest conflicts in the history of mankind. Included in this series are maps to mark the battles and line art decorations that give the reader an authentic feel of the era. The photographs in this series can be viewed as art history or more importantly journalism. Covering every aspect of war from the frontline to everyday life, these volumes are a testament to the conflict and the country which emerged from it. *Prisons and Hospitals* presents a photographic record of the prisoners of war during the Civil War. It offers glimpses into both northern and southern prisons, the treatment of prisoners and the medical services found within the camps.

The Photographic History of the Civil War Francis Trevelyan Miller, 1957. Part Seven, this volume tells little of war's pomp and pageantry. Their subject is and must be grim and terrible. Through prisoners of war were not criminals, often men whose courage was their only fault and though their detention must not be considered as deserved punishment but as a military necessity, nevertheless all prisons are horrible. The groans of men, once so vigorous, now shattered and broken, or the sight of strength visibly ebbing away from disease, are awful. It is the dark and cruel side of war that here must be told.

The Photographic History of the Civil War: Prisons and hospitals Francis Trevelyan Miller, Robert Sampson Lanier, 1911. Thousands of scenes photographed 1861-65 with text by many special authorities Portraits of Conflict: a Photographic History of Louisiana in the Civil War (p) Bobby Leon Roberts, 1987. This book tells stories of the individual: his heroism, his fear, his boredom. With over 250 photographs, five maps, and related documents, Moneyhon and Roberts make immediate the physical and spiritual suffering of the ordinary recruit in his fight for his country and its land. Haunted by Atrocity Benjamin G. Cloyd, 2010-05-24. Benjamin G. Cloyd deftly analyzes how Americans have remembered the military prisons of the Civil War from the war itself to the present, making a strong case for the continued importance of the great conflict in contemporary America. The first study of Civil War memory to focus exclusively on the military prison camps, *Haunted by Atrocity* offers a cautionary tale of how Americans for generations have unconsciously constructed their recollections of painful events in ways that protect cherished ideals of myth, meaning, identity, and ultimately the deeply rooted faith in American exceptionalism. *The Photographic History of the Civil War ...: Prisons and Hospitals* Robert Sampson Lanier, 2018-02. The Photographic History of the Civil War: Two years of grim war Francis Trevelyan Miller, Robert Sampson

Lanier, 1912 Thousands of scenes photographed 1861-65 with text by many special authorities **To Bind Up the Wounds** Mary Denis Maher, 1999-11-01 The contributions of more than six hundred Catholic nuns to the care of Confederate and Union sick and wounded made a critical impact upon nineteenth century America Not only did thousands of soldiers directly benefit from the religious sisters ministrations but both professional nursing and Catholics acceptance within mainstream society advanced significantly as a result In *To Bind Up the Wounds* Sister Mary Denis Maher writes this heretofore neglected Civil War chapter in rich detail telling a riveting story shot with suspicion and prejudice suffering and self sacrifice ingenuity beneficence and gratitude *Woman of Valor* Stephen B. Oates, 1995-05-01 A stunning biography of Clara Barton a woman who determined to serve her country during the Civil War from acclaimed author Stephen B Oates When the Civil War broke out Clara Barton wanted more than anything to be a Union soldier an impossible dream for a thirty nine year old woman who stood a slender five feet tall Determined to serve she became a veritable soldier a nurse and a one woman relief agency operating in the heart of the conflict Now award winning author Stephen B Oates drawing on archival materials not used by her previous biographers has written the first complete account of Clara Barton's active engagement in the Civil War By the summer of 1862 with no institutional affiliation or official government appointment but impelled by a sense of duty and a need to heal she made her way to the front lines and the heat of battle Oates tells the dramatic story of this woman who gave the world a new definition of courage supplying medical relief to the wounded at some of the most famous battles of the war including Second Bull Run Antietam Fredericksburg Battery Wagner the Wilderness Spotsylvania and Petersburg Under fire with only her will as a shield she worked while ankle deep in gore in hellish makeshift battlefield hospitals a bullet riddled farmhouse a crumbling mansion a windblown tent Committed to healing soldiers spirits as well as their bodies she served not only as nurse and relief worker but as surrogate mother sister wife or sweetheart to thousands of sick wounded and dying men Her contribution to the Union was incalculable and unique It also became the defining event in Barton's life

giving her the opportunity as a woman to reach out for a new role and to define a new profession Nursing regarded as a menial service before the war became a trained paid occupation after the conflict Although Barton went on to become the founder and first president of the Red Cross the accomplishment for which she is best known A Woman of Valor convinces us that her experience on the killing fields of the Civil War was her most extraordinary achievement **Like Grass Before the Scythe** William Rempel,2007-03-22 During a conflict that saw death visit many households in the land this is the story of a young recruit s devotion to family and nation William Rempel s letters cover more than two full years of service in the 121st New York Infantry Regiment during the Civil War from August 1862 to October of 1864 They provide details on military and social history in the eastern theater of operations and on the experience of the homefront in upstate New York among a largely immigrant working class family and community **Civil War Pharmacy** Michael A Flannery,2017-06-16 When the Civil War began the U S pharmaceutical industry was concentrated almost exclusively in Philadelphia and was dominated by just a few major firms when the war ended it was poised to expand nationwide Civil War Pharmacy is the first book to delineate how the growing field of pharmacy gained respect and traction in and even distinction from the medical world because of the large scale manufacture and dispersion of drug supplies and therapeutics during the Civil War In this second edition Flannery captures the full societal involvement in drug provision on both the Union and Confederate sides and places it within the context of what was then assumed about health and healing He examines the roles of physicians hospital stewards and nurses both male and female and analyzes how the blockade of Southern ports meant fewer pharmaceutical supplies were available for Confederate soldiers resulting in reduced Confederate troop strength Flannery provides a thorough overview of the professional economic and military factors comprising pharmacy from 1861 to 1865 and includes the long term consequences of the war for the pharmaceutical profession Winner first edition Archivists and Librarians in the History of the Health Sciences Best Book Award **The Photographic History of the Civil War in Ten Volumes: Prisons and hospitals** ,1912 *South Carolina in the Civil War* J. Edward Lee,Ron Chepesiuk,2004-11-25 Although modern authors continually produce important studies of the War Between the States the firsthand accounts of those who were in the conflict remain the most valuable tools for understanding This collection of letters and diaries provides glimpses into the lives of a diverse group of South Carolinians Among the seventeen accounts are the voices of women including a Confederate spy of officers like Captain Obidiah Hardin who left his beloved Palmetto State to fight and die in Virginia before the war was even a year old and of common men like German immigrant Augustus Franks whose love for his adopted state compelled him to staunchly defend the Confederacy Collected from the archives of Winthrop University these remarkable documents give voices and faces to the war as it affected South Carolina and her citizens **Andersonvilles of the North** James Massie Gillispie,2008 Andersonvilles of the North by James M Gillispie represents the first broad study to argue that the image of Union prison officials as negligent and cruel to Confederate prisoners is severely flawed This study is not an attempt to

whitewash Union prison policies or make light of Confederate prisoner mortality But once the careful reader disregards unreliable postwar polemics and focuses exclusively on the more reliable wartime records and documents from both Northern and Southern sources then a much different less negative picture of Northern prison life emerges While life in Northern prisons was difficult and potentially deadly no evidence exists of a conspiracy to neglect or mistreat Southern captives Confederate prisoners suffering and death were due to a number of factors but it would seem that Yankee apathy and malice were rarely among them BOOK JACKET

War Epidemics Matthew Smallman-Raynor, Andrew Cliff, 2004-06-17

Down the ages war epidemics have decimated the fighting strength of armies caused the suspension and cancellation of military operations and have brought havoc to the civil populations of belligerent and non belligerent states alike This book examines the historical occurrence and geographical spread of infectious diseases in association with past wars It addresses an intrinsically geographical question how are the spatial dynamics of epidemics influenced by military operations and the directives of war The term historical geography in the title indicates the authors primary concern with qualitative analyses of archival source materials over a 150 year time period from 1850 and this is combined with quantitative analyses less frequently associated with historical studies Written from the viewpoints of historical geography epidemiology and spatial analysis this book examines in four parts the historical occurrence and geographical spread of infectious diseases in association with wars Part I War and Disease surveys war disease associations from early times to 1850 Part II Temporal Trends studies time trends since 1850 Part III A Regional Pattern of War Epidemics examines grand themes in the war disease complex Part IV Prospects considers a series of war related issues of epidemiological significance in the twenty first century
