W. Fox, 2023-10-25 Originally published in 1934 *The Modern English Prison* was prepared in the belief that among the growing literature of crime and the treatment of crime there should be some room for some account of the English prison system as it stood Its first aim was to give an objective and comprehensive view of the system as it was at the time rather than as it had been or ought to have been the historical matter is therefore

limited to what is necessary for proper understanding of present practice and no attempt is made to trespass on the ground of the penologist Here is an authoritative and up to date account of the Prison System in England and Wales prepared with the approval of the Prison Commissioners Report of the Commissioners of Prisons and the Directors of Convict Prisons Great Britain. the laboratory and spent a sabbatical year in the equivalent of a clinical internship I then spent some time as a part time consultant in a local penitentiary Most of my time in the institution was spent with inmates with a variety of problems probably about 50 individuals over the course of a year Although this was far fewer than a full time psychologist in the system might encounter it served as a quick cram course on problem prisoners and prisoner problems Very quickly my stereotypes about convicts were shown to be virtually useless I learned that the criminal classes included all levels of society and that the behavior of prisoners was the same as that of other human beings in a difficult environment Prisons and Reformatories at Home and Abroad Edwin Pears, 2023-03-23 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **Handbook of American Prisons and Reformatories**, 1929 Esotericism, Mysticism, and the Politics of Transcendence in Modern Asia Soumen Mukherjee, Toshio Akai, 2025-07-15 This invaluable anthology examines histories of esotericism mysticism and occultism in modern Asia understood here as the period roughly stretching from the late nineteenth through the twentieth century and paving eventually the way for the so called New Age The idea of histories in plural has to do with the complexities of their lineages the many pathways through which their affinities encounters and entanglements flowed and or developed during the period under review The contributors hail from different disciplines history literature and religious studies for instance and in what accounts for a cutting edge of the book provide truly multidisciplinary insights on the subject in one single volume Their select case studies illuminate key aspects of contemporaneous socio religious processes They explicate how aspects of mysticism esotericism and occultism were closely tied to wider socio political and intellectual processes of the period that were at once transregional even global and frequently transcultural and or cosmopolitan in character Postgraduate students research scholars and academics in general working in the fields of religious studies and or Asian religions in modern times will find this collection to be of great interest
