new book Julie Cross examines the intricacies of textual humor in contemporary junior literature using the tools of literary
criticism and humor theory Cross investigates the dialectical paradoxes of humor and debunks the common belief in
oppositional binaries of simple versus complex humor The varied combinations of so called high and low forms of humor
within junior texts for young readers who are at such a crucial stage of their reading and social development provide a
valuable commentary upon the culture and values of contemporary western society making the book of considerable interest
to scholars of both children s literature and childhood studies Cross explores the ways in which the changing content forms
and functions of the many varied combinations of humor in junior texts including the Lemony Snickett series reveal societal
attitudes towards young children and childhood The new compounds of seemingly paradoxical high and low forms of humor
in texts for developing readers from the 1960s onwards reflect and contribute to contemporary society s hesitant and uneven
acceptance of the emergent paradigm of children s rights abilities participation and empowerment Cross identifies four types
of potentially subversive transgressive humor which have emerged since the 1960s which coupled with the three main
theories of humor relief superiority and incongruity theories enables a long overdue charting of developments in humor
within junior texts Cross also argues that the gradual increase in the compounding of the simple and the complex provide
opportunities for young readers to play with ambiguous complicated ideas helping them embrace the complexities and
contradictions of contemporary life *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1893

one of the most striking features of turn of the century European drama Gail Finney traces the source of this phenomenon to

large scale upheavals in prevailing contemporary attitudes toward women She cites two major developments in particular the culmination in the years 1880 1920 of the first feminist movement and Freud s formulation of his theories of sexuality which emphasize differences between the sexes Taking into account these strong sometimes conflicting intellectual currents Women in Modern Drama explores the dynamics of gender identity and family relationships in major plays by European male dramatists including Ibsen Strindberg Shaw Wilde Schnitzler Synge Hofmannsthal Wedekind and Hauptmann *The Saturday Review of Politics, Literature, Science and Art* ,1892
