Prisons Peace And Terrorism:

Prisons, Terrorism and Extremism Andrew Silke, 2014-02-18 This volume provides an overview of intervention and management strategies for dealing with terrorist and extremist offenders in prisons The management of terrorist and extremist prisoners has long been recognised as a difficult problem in prisons In most countries such offenders are relatively rare but when their numbers increase these prisoners can undermine the effectiveness and safety of the prison system At a global level there is an increasing recognition of the problem of militant jihadi extremists in prison and their ability to recruit new members among other prisoners The numbers of such prisoners are low but growing and as a result prisons are becoming centres of radicalisation indeed in some cases terrorist plots appear to have been based entirely on networks that were radicalised in prison This volume presents an expertly informed assessment of what we know about terrorists extremists and prison exploring the experience of a wide range of countries and of different political movements Drawing critical lessons from historical case studies the book examines critical issues around management strategies radicalisation and deradicalisation reform risk assessment as well as post release experiences The role that prisoners play in the conflicts beyond the jail walls is also examined with case studies illustrating how prisoners can play a critical role in bringing about a peace process or alternatively in sustaining or even escalating campaigns of violence Written by leading experts in the field this volume will be of much interest to students of terrorism counter terrorism criminology security studies and IR in general

Encyclopedia of Prisons and Correctional Facilities Mary Bosworth, 2005 Are included Annotation 2004 Book News Inc Portland OR booknews com The Palestinian Prisoners Movement Julie M. Norman, 2021-06-30 Providing a contemporary history of the Palestinian prisoners movement this book illustrates the centrality of the movement in the broader Palestinian national struggle Based on direct interviews with former prisoners and former security sector personnel it offers new insights into the strategies that prisoners employed to gain rights over time as well as the tactics used by prison authorities to maintain control Prisons have functioned as microcosms of the broader Israeli Palestinian conflict for decades with the Israeli state aiming to use mass incarceration for security and Palestinian prisoners seeking to take back the prison space for organizing and resistance Prisoners actions included but were not limited to hunger strikes as prisoners often relied more on everyday acts of noncompliance and developing an internal counterorder to challenge authorities The volume demonstrates how the Palestinian prisoners movement was intertwined with the Palestinian national movement strongest in the popular mobilization era of the 1970s and 1980s and significantly weaker and more fragmented after the Oslo Accords of the 1990s and the second intifada Presenting a fresh analysis of a central but often overlooked aspect of the Israeli Palestinian conflict the volume offers valuable reflections on prison based resistance in protracted conflicts more broadly It is a key resource to students and scholars interested in contemporary conversations on mass incarceration criminal justice Middle East politics and history Handbook on Prisons Yvonne Jewkes, 2012-08-21 Focusing on prisons this title is a useful

reference for practitioners working in prisons and other parts of the criminal justice system It explores a range of historical and contemporary issues relating to prisons imprisonment and prison management

Corrections, Mental Health, and Social Policy Robert Kirk Ax, Thomas J. Fagan, 2007 This book is well suited to readers dealing with correctional issues in today's complex global society Given the task of providing adequate mental health care to the burgeoning U S prison population including those thousands with serious mental illnesses who have defaulted from the nation's disjointed mental health systems the book provides a consideration of approaches and ideas beyond those generated in the domestic academic practitioner community including the mental health concerns that transcend borders and national sovereignty In this category are the treatment and management of the

Prisons, Peace and Terrorism M. Page, 1998-10-28 A comprehensive analysis of the role that prison policy can play in the reduction of terrorism this book examines the experience of three western European jurisdictions Northern Ireland Italy and the Spanish Basque Country It looks at the role of the prisons both as tools for counter insurgency and as part of a process of conflict resolution It looks in detail at each jurisdiction and then compares the experience of the three conflicts

Beyond the Wire Peter Shirlow, Kieran McEvoy, 2008-01-20 This book provides the first detailed examination of the role played by former loyalist and republican prisoners in grass roots conflict transformation work in the Northern Ireland peace process It challenges the assumed passivity of former prisoners and ex combatants Instead it suggests that such individuals and the groups which they formed have been key agents of conflict transformation They have provided leadership in challenging cultures of violence developed practical methods of resolving inter communal conflict and found ways for communities to explore their troubled past In analysing this the authors challenge the sterile demonisation of former prisoners and the processes that maintain their exclusion from normal civic and social life The book is a constructive reminder of the need for full participation of both former combatants and victims in post conflict transformation It also lays out a new agenda for reconciliation which suggests that conflict transformation can and should begin from the extremes The book will be of interest to students of criminology peace and conflict studies law and politics geography and sociology as well as those with a particular interest in the Northern Ireland conflict

Healthcare and the Troubles Ruth Duffy, 2024-07-15 This book provides the first detailed study of healthcare during the period of the Troubles in Northern Ireland 1968 1998 While there have been some studies of the effects of conflict in the context of Northern Ireland to date there have been no in depth histories of the impact of the Troubles on healthcare and the experiences of healthcare professionals Ruth Duffy s work combines analysis of archival research and oral history interviews to reveal the widespread impact of the conflict on healthcare facilities their staff and patients as well as the broader societal implications of providing services during the Troubles The book allows the voices of those who worked on the frontline to be heard for the first time as well as exploring important issues such as medical ethics and neutrality It offers new and valuable insights into the cost of the Northern Ireland conflict and its legacy today

Prison: a breeding ground for radicalisation and violent extremism? Council of Europe, 2018-06-01 What measures can prison authorities take to detect radicalisation in prison How should prison staff be selected How should they be trained to evaluate and manage the risks without abandoning high ethical standards What role can religious representatives psychologists friends and family play The appalling images of recent terrorist attacks in Europe and the rest of the world remain in everyone s memory In the face of such horrendous acts national governments and international organisations are seeking to identify the root causes of this situation in order to prevent and combat radicalisation extremism and terrorism The profiles and motives of radicalised persons vary considerably but the first steps towards radicalisation are generally a result of sympathies for radical discourse and of meeting an individual in person or

online who is already radicalised Prisons are one of the places for such contacts Radicalised prisoners take advantage of the concentrated population in prisons in order to proselytise and develop extremist and terrorist networks This publication can help national authorities and professionals answer these questions It proposes guiding principles tools and advice based on an approach that emphasises a balance between human rights security and effective criminal justice [Making an Impact on Policing and Crime](#) Clifford Stott,Ben Bradford,Matthew Radburn,Leanne Savigar-Shaw,2020-10-19 Making an Impact on Policing and Crime Psychological Research Policy and Practice applies a range of case studies and examples of psychological research by international leading researchers to tackle real world issues within the field of crime and policing Making an Impact on Policing and Crime documents the application of cutting edge research to real world policing and explains how psychologists insights have been adapted and developed to offer effective solutions across the criminal justice system The experts featured in this collection cover a range of psychological topics surrounding the field including the prevention and reduction of sexual offending and reoffending the use of CCTV and super recognisers forensic questioning of vulnerable witnesses the accuracy of nonverbal and verbal lie detection interview techniques psychological drivers of political violence theoretical models of police community relations and the social and political significance of urban riots This collection is a vital resource for practitioners in policing fields and the court system and professionals working with offenders as well as students and researchers in related disciplines [Counter-terror by proxy](#) Emmanuel Pierre Guittet,2021-08-10 Between 1983 and 1987 mercenaries adopting the pseudonym GAL Grupos Antiterroristas de Liberaci n Antiterrorist Liberation Group paid by the Spanish treasury and relying upon national intelligence support were at war with the Basque militant group ETA Euskadi e Ta Askatasuna Basque Country and Freedom Over four years their campaign of extrajudicial assassinations spanned the French Spanish border Nearly thirty people were killed in a campaign comprised of torture kidnapping bombing and the assassination of suspected ETA activists and Basque refugees This establishment of unofficial counterterrorist squads by a Spanish Government was a blatant detour from legality It was also a rare case in Europe where no less than fourteen high ranking Spanish police officers and senior government officials including the Minister of Interior himself were eventually arrested and condemned for counter terrorism wrongdoings and illiberal practices Thirty years later this campaign of intimidation coercion and targeted killings continues to grip Spain The GAL affair was not only a serious example of a major departure from accepted liberal democratic constitutional principles of law and order but also a brutal campaign that postponed by decades the possibility of a political solution for the Basque conflict Counter terror by proxy uncovers why and how a democratic government in a liberal society turned to a dirty war and went down the route of illegal and extrajudicial killing actions It offers a fuller examination of the long term implications of the use of unorthodox counter terrorist strategies in a liberal democracy **The Routledge International Handbook of Penal Abolition** Michael J. Coyle,David Scott,2021-03-30 The Routledge International Handbook of Penal Abolition provides an authoritative and

comprehensive look at the latest developments in the 21st century penal abolitionism movement both reflecting on key critical thought and setting the agenda for local and global abolitionist ideas and interventions over the coming decade Penal abolitionists question the legitimacy of criminal law policing courts prisons and more broadly the idea of punishment to argue that rather than effectively handling or solving social problems interpersonal disputes conflicts and harms they actually increase individual and societal problems The Routledge International Handbook of Penal Abolition is organized around six key themes Social movements and abolition organizing Critical resistance to the penal state Voices from imprisoned and marginalized communities Diversity of abolitionist thought International perspectives on abolitionism Building new justice practices as a response to social and individual wrongdoing A global centred and world encompassing project this book provides the reader with an alternative and critical perspective from which to reflect and raises the visibility of abolitionist ideas and strategies in a time when there is considerable discussion of how we will move forward in response to what has given rise to the criminalizing system white supremacy racial capitalism and human wrongdoing It is essential reading for all those engaged with punishment and penology criminology sociology corrections and critical prisons studies It will appeal to any reader who seeks an innovative response to the calamitous failures of the modern criminalizing system **The Politics**

of the Prison and the Prisoner Susan Easton, 2018-06-13 In recent years there has been a resurgence of interest in the role of the prison as a source of political ideas and site of political engagement as well as in the prisoner's quest for citizenship The rising number of prisoners has increased fiscal burdens which has meant that imprisonment has become a more important political issue There is also greater interest in the prison as a site of political activism and in the generation of radical political ideas within the prison context and the formation of political networks within prison which extend beyond the prison walls This book considers the prison as a site of political protest discusses the quest for citizenship and the denial or negation of citizenship in prison examines the discovery of politics in prison and the role of the prison in increasing political awareness explores the treatment of political prisoners and reflects on the prisoner as a political problem for politicians negotiating pressures from the media and the public when addressing prisoners demands Drawing on a range of contemporary and historical topics such as prison riots radicalisation and the denial of voting rights and including discussion of cases from the UK US and Russia this book examines the prison as a political institution and as a site of both politicisation and political protest This book will be of interest to students and academics engaged with prisons penology punishment and corrections *Political Expression and Conflict Transformation in Divided Societies* Daniel Kirkpatrick, 2019-09-04 This book considers how the social construction of crime and the criminalising of political expression impact upon different stages in a violent political conflict The freedom to express our political opinions is regarded as an essential human right throughout most of the world and yet in defence of our security governments often place various restrictions on it This book directly considers what these restrictions are in the context of deeply divided societies to understand how they impact upon

intergroup relations in four different contexts nonviolent movements counter insurgency peace negotiations and post settlement peacebuilding Drawing on an extensive body of original interviews and archival material the volume analyses this relationship through an in depth consideration of Northern Ireland and South Africa followed by a wider analysis of Turkey Sri Lanka Belgium and Canada The overarching argument is that the implications of criminalising political expression depend on both its target and the wider social reality it contributes towards This book will be of much interest to students of conflict resolution transitional justice law and International Relations

web solution we use the relation $n = n_0 \left(\frac{1}{2} \right)^{\frac{t}{T}}$ where n is the mass of the sample at time t , n_0 is the initial mass, T is the half-life, and t is the time elapsed. For a sample of ^{100}Pd that decays to a mass of 30 mg in 16 days, given that the half-life of ^{100}Pd is 4 days, calculate the initial mass of the sample. When we have n , t , and T , rearranging the equation used in example 2 we obtain
