British Children's Literature and the First World War David Budgen, 2018-05-17 Perceptions of the Great War have changed significantly since its outbreak and children's authors have continually attempted to engage with those changes explaining and interpreting the events of 1914-18 for young readers *British Children's Literature and the First World War* examines the role novels, textbooks and story papers have played in shaping and reflecting understandings of the conflict throughout the 20th century David Budgen focuses on representations of the conflict since its onset in 1914 ending with the centenary commemorations of 2014 From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children's authors and whether modern children's books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events *Posthumous Lives* Bette

London, 2022-04-15 *Posthumous Lives* explores the shifting significance of public and private efforts to commemorate British soldiers killed in World War I as well as the less well remembered casualties of the war including Voluntary Aid Detachments nurses conscientious objectors civilians and soldiers executed for desertion or cowardice and the compelling hold the First World War has had on the British imagination for more than a century By using the concept of the posthumous life the attempt to extend the presence of the dead into the lives of the living Bette London demonstrates how this idea came to shape Britain's First World War memory practices and rituals London draws on a diverse range of source materials from sentimental memorabilia books commissioned by bereaved families and canonical works of literature and art by Virginia Woolf Wilfred Owen and Sir Edwin Lutyens to centenary memorials and commemorative art installations to uncover the surprising connections between memorialization practices war writing and modernism Spanning the century from the middle of World War I to its centenary celebrations *Posthumous Lives* illuminates in a deeply moving narrative how the dead are remembered to meet the shifting needs of the living **Learning to Teach English in the Secondary School** Jon

Re-Imagining the First World War Anna Branach-Kallas, Nelly Strehlau, 2015-09-18 In the Preface to his ground breaking *The Great War and Modern Memory* 1975 Paul Fussell claimed that the dynamics and iconography of the Great War have proved crucial political rhetorical and artistic determinants on subsequent life Forty years after the publication of Fussell's study the contributors to this volume reconsider whether the myth generated by World War I is still part of the fiber of people's lives in English speaking countries What is the place of the First World War in cultural memory today How have the literary means for remembering the war changed since the war Can anything new be learned from the effort to re imagine the First World War after other bloody conflicts of the 20th century A variety of answers to these questions are provided in *Re-Imagining the First World War New Perspectives in Anglophone Literature and Culture* which explores the Great War in British Irish Canadian Australian and post colonial contexts The contributors to this collection write about the war from a literary perspective reinterpreting poetry fiction letters and essays created during or shortly after the war exploring contemporary discourses of commemoration and presenting in depth studies of complex conceptual issues such as gender and citizenship *Re-Imagining the First World War* also includes historical philosophical and sociological investigations of the first industrialised conflict of the 20th century which focus on responses to the Great War in political discourse life writing music and film from the experience of missionaries isolated during the war in the Arctic and Asia through colonial encounters exploring the role of Irish Chinese and Canadian First Nations soldiers during the war to the representation of war in the world famous series *Downton Abbey* and the 2013 album released by contemporary Scottish rock singer Fish The variety of themes covered by the essays here not only confirms the significance of the First World War in memory today but also illustrates the necessity of developing new approaches to the first global conflict and of commemorating new victims and agents of war If modes of remembrance have changed with the postmodern ethical shift in historiography and cultural studies which encourages the exploration of other subjectivities in war so far concealed affinities and reverberations are still being discovered on the macro and micro historical levels the Western and other fronts the battlefield and the home front Although it has been a hundred years since the outbreak of hostilities there is a need for increased sensitivity to the tension between commemoration and contestation and to re member re conceptualise and re imagine the Great War
