Private Property Rights United States. Congress. House. Committee on Resources. Task Force on Private Property Rights, 1995 **The Human Rights** Valentin Matcas, 2016-04-20 People believe that governments and systems of justice give them the human rights through specific rules laws and regulations but this is never the case Because your human rights are yours continuously as they are innate since you are a living human being by nature Authorities may give you privileges yet rights and privileges are separate concepts In fact authorities take away your human rights and many times they do so with your full agreement in a trivial manner Since surprisingly you cannot have authorities and human rights simultaneously Should authorities not take away your human rights mostly when you break the law No since human rights are innate as this is your human nature Even more human rights are of the third intelligent human level while laws beliefs privileges corporations and jurisdictions are of the first fictitious level remaining incompatible While authorities write these laws

themselves to infringe the human rights Everybody knows it and everybody makes it possible losing the human rights while also losing themselves and their loved ones So you always wave your human rights and fall into their jurisdiction where they own you entirely and they do to you as they please And it always happens with humans souls and everyone else But why exactly do people go against people continuously losing themselves and the entire world It always depends on the interaction between people because sometimes this is harmonious and sometimes harmful It is always preferred to have harmony in this world yet when you want to have more than others do you cannot have it in a harmonious egalitarian manner but only by force called robbery And when you persist to desire more than others you have to change the entire world on your behalf as tyrants do Yet this is not the human world anymore as it is not the human meaning but only a fictitious enterprise where humans become merchandise themselves while fighting and exploiting themselves in a disconnected manner Because many times people create entire wars to take what others have in an organized crime while other times people use fictitious schemes and trickery to determine others to hand them everything including themselves which is the same organized crime And again this is not at all the human meaning yet it is always possible through agreements through their agreement to give you everything while even calling you their great king wonderful master good lord helpful patron or wonderful chief as you are always their tyrant serving you for life While you are not a human being anymore and neither are they With the human rights always present to assure the continuous human freedom meaning and fulfillment in life and in this world and with an entire world fictitious under oath and serving vehemently a multitude of tyrants taking everything for themselves so what exactly is going on This book helps you maintain control throughout life while protecting yourself helping you understand your status rights privileges and place in life and in this world further helping you become more aware and more responsible Otherwise you end up with your entire human condition altered and therefore with all human rights infringed

was very clear that this was the last chance for the Shifang Trading Company He had even relied on the little relationship between Zu Tianqiu and Wuluo If he could not successfully repair the relationship between the two sides this time there would be no more chances in the future He could only watch helplessly as countless opportunities to make money fell into the hands of others The head manager of the Shifang Trading Company in Qilan Planet was named Hu Sandao This was actually a nickname It was said that he was given this nickname because he had a heavy killing spirit when he first debuted He only needed to slash three times to make people cry As time passed even he had forgotten his real name Everyone only knew him as Hu Sandao of the Shifang Trading Company Hu Sandao knew that Wu La would pass by so early in the morning he sent a few people to diligently guard the outside of the teleportation array As soon as they saw Zu Tianqiu and the others come out

they immediately split into two groups one group ran back to report to Hu Sandao the other group enthusiastically welcomed them
