Health Policy and the Public Interest

Lok-sang Ho, 2012 This book is written with an acute awareness of the need for new insight to ensure 1 universal protection in basic healthcare 2 providing choice 3 efficient production and consumption of healthcare services 4 financial sustainability of the healthcare system Defining the public interest as the welfare of the representative individual with no vested interest who imagines himself to have equal chance of being anyone in society this book explores alternative ways of finance and delivery the optimal interface between the public healthcare sector and the private healthcare sector and that between public insurance and private insurance The book includes a theoretical but non technical section that distinguishes between the stock of health and functional health proposes a utility maximizing behavioural framework to explain behaviour and the role of health policy and investigates the nature of risk and alternative insurance mechanisms The book illustrates with a number of country studies covering a large range of healthcare systems from the American and the European systems to various Asian systems as well as those of Australia and New Zealand The survey of country experiences reinforces the theoretical conclusions about the role of the public healthcare sector and social insurance and that of the private market The book highlights the importance of and the workability of pricing right and capping right pricing standard or basic healthcare services at the right price can contain both demand side and supply side moral hazard and lead to more efficient production and consumption of healthcare services capping annual eligible healthcare expenses will provide effective protection against financial risks The proposal of lifetime healthcare supplement offers greater choice Private caregivers and insurers

supplement the public healthcare system by offering more choices and premium services as well as additional protection

Changing Governance and Public Policy in East Asia Ka Ho Mok, Ray Forrest, 2008-11-24 This book offers critical analysis of the search for new governance in Asia comparing and contrasting the experiences of different Asian societies including China Japan Hong Kong Singapore Taiwan South Korea Malaysia and Thailand *Public Policy and the Public Interest* Lok-sang Ho, 2013-07-03 As a book on public policy this book is unique in addressing explicitly the role of human nature Only with a good understanding of human nature can policy makers address their foremost needs and anticipate how people may respond to specific designs in policy This way policy makers can avoid unintended consequences The book also provides a new perspective on the meaning of public interest which is based on intellectual roots dating back to J S Mill and more recently Harsanyi and Rawls Traditionally economists have referred to either the Hicksian criterion or the Kaldorian criterion as the yardstick to whether a policy is welfare enhancing not realizing that both of these criteria fail abjectly in producing a convincing test for welfare improvement This is because ex post typically some people will gain and some people will lose from any policy The author argues for an alternative ex ante welfare increase criterion that is based on how people would assess a policy if they were completely impartial and totally ignored their personal interests It applies the principles to key policy concerns such as health policy tort law reform education and cultural policy and pension reform The healthcare reform proposals in the book illustrate the application of the principles The author proposes a basic protection plan under which standard basic healthcare services are priced the same whether they are provided by public or private caregivers at levels that can contain both demand side and supply side moral hazard Annual eligible healthcare expenses are capped to alleviate worries A Lifetime Healthcare Supplement that includes an element of risk sharing adds to patients choice and protection without compromising fiscal sustainability Understanding Mobility as a Service (MaaS) David A.
