Reuse Value Richard Brilliant, Dale Kinney, 2016-04-08 This book offers a range of views on spolia and appropriation in art and architecture from fourth century Rome to the late twentieth century Using case studies from different historical moments and cultures contributors test the limits of spolia as a critical category and seek to define its specific character in relation to other forms of artistic appropriation Several authors explore the ethical issues raised by spoliation and their implications for the evaluation and interpretation of new work made with spolia The contemporary fascination with spolia is part of a larger cultural preoccupation with reuse recycling appropriation and re presentation in the Western world All of these practices speak to a desire to make use of pre existing artifacts objects images expressions for contemporary purposes Several essays in this volume focus on the distinction between spolia and other forms of reused objects While some authors prefer to elide such distinctions others insist that spolia entail some form of taking often violent and a diminution of the source from which they are removed The book opens with an essay by the scholar most responsible for the popularity of spolia studies in the later twentieth century Arnold Esch whose seminal article *Spolien* was published in 1969 Subsequent essays treat late Roman antiquity the Eastern Mediterranean and the Western Middle Ages medieval and

modern attitudes to spolia in Southern Asia the Italian Renaissance the European Enlightenment modern America and contemporary architecture and visual culture
