Critical Race Consciousness Gary Peller,2015-10-23 Despite the apparent racial progress reflected in Obama s election the African American community in the United States is in a deep crisis on many fronts economic intellectual cultural and spiritual This book sets out to trace the ideological roots of this crisis Challenging the conventional historical narrative of race in America Peller contends that the structure of contemporary racial discourse was set in the confrontation between liberal integrationism and black nationalism during the 1960s and 1970s Arguing that the ideology of integration that emerged was highly conservative apologetic and harmful to the African American community this book is sure to provide a new lens for studying and learning from American race relations in the twentieth century

A Political Education Life Arts Project Dale Drakeford,2003-01-28 A professional well cited introduction to local politics with the state national and international connections made evident The book endeavors to make political understanding accessible and digestible to those least interested or inclined to study it Social and political empowerment is the benchmark with a sense of humor and satire Chapters are divided to present thoughts and feelings in different writing genre essay letters diary and poetry The book champions experience over research and creativity or passivity The emphasis is on progressive thought appropriate for

communities of color The book suggests that contrary thinking is productive in a capitalistic democracy *The SAGE Encyclopedia of African Cultural Heritage in North America* Mwalimu J. Shujaa, Kenya J. Shujaa, 2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity FEATURES A two volume A to Z work available in a choice of print or electronic formats 350 signed entries each concluding with Cross references and Further Readings 150 figures and photos Front matter consisting of an Introduction and a Reader s Guide organizing entries thematically to more easily guide users to related entries Signed articles concluding with cross references *The Psychology of Prejudice and Discrimination* Jean Lau Chin, 2004-12-30 Long after the end of the Civil War the Civil Rights Movement of the 1960s desegregation in the schools the abolition of anti Asian legislation and the Women s Movement the pernicious effects of prejudice and discrimination in U S society are still evident Despite efforts to eradicate the injustice against people based on race ethnicity gender disability or other elements prejudice and discrimination remain In most cases the display is more covert than in years past Today the United States is embroiled in battles regarding Gay rights Bias and disparities in services opportunities and practices affect quality of life health and mental health for all peoples In these volumes focused on the psychology at issue experts from across the nation and in different fields examine the state of prejudice and discrimination in America today and each offers practical direction that can be taken by individuals communities and officials to create a more just society Each chapter offers a toolbox of information on how to cope how to keep oneself whole how to seek validation of identity how to raise children to dispel unfair images and perceptions and how to work for societal change **Not Only the Master's Tools** Lewis R. Gordon, Jane Anna Gordon, 2015-11-17 Not Only the Master s Tools brings together new essays on African American studies It is ideal for students and scholars of African studies philosophy literary theory educational theory social and political thought and postcolonial studies **The African Diaspora** Toyin Falola, 2013 The African diaspora is arguably the most important event in modern African history From the fifteenth century to the present millions of Africans have been dispersed many of them forcibly others driven by economic need or political persecution to other continents creating large

communities with African origins living outside their native lands The majority of these communities are in North America This historic displacement has meant that Africans are irrevocably connected to economic and political developments in the West and globally Among the known legacies of the diaspora are slavery colonialism racism poverty and underdevelopment yet the ways in which these same factors worked to spur the scattering of Africans are not fully understood by those who were part of this migration or by scholars historians and policymakers In this definitive study of the diaspora in North America Toyin Falola offers a causal history of the western dispersion of Africans and its effects on the modern world Reengaging old and familiar debates and framing new ones that enrich the discourse surrounding Africa Falola isolates the thread running nearly six centuries that connects the history of slavery the transatlantic slave trade and current migrations A boon to scholars and policymakers and accessible to the general reader the book explores diverse narratives of migration and shows that the cultures that migrated from Africa to the Americas have the capacity to unite and create a new pan Africanist movement within the globalized world Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin He is the 2011 recipient of the Distinguished Africanist Award from the African Studies Association and serves as the vice president of the International Scientific Committee of the UNESCO Slave Route Project His previous books published by the University of Rochester Press include *The Power of African Cultures and Nationalism* and *African Intellectuals* [Women and the U.S. Constitution](#) Sibyl A. Schwarzenbach, Patricia Smith, 2004-02-18 *Women and the U S Constitution* is about much more than the nineteenth amendment This provocative volume incorporates law history political theory and philosophy to analyze the U S Constitution as a whole in relation to the rights and fate of women Divided into three parts History Interpretation and Practice this book views the Constitution as a living document struggling to free itself from the weight of a two hundred year old past and capable of evolving to include women and their concerns Feminism lacks both a constitutional theory as well as a clearly defined theory of political legitimacy within the framework of democracy The scholars included here take significant and crucial steps toward these theories In addition to constitutional issues such as federalism gender discrimination basic rights privacy and abortion *Women and the U S Constitution* explores other issues of central concern to contemporary women areas that strictly speaking are not yet considered a part of constitutional law Women s traditional labor and its unique character and women and the welfare state are two examples of topics treated here from the perspective of their potentially transformative role in the future development of constitutional law
