Railroad Matthew J. Payne, 2010-11-23 The Turkestan Siberian Railroad or Turksib was one of the great construction projects of the Soviet Union's First Five Year Plan. As the major icon to ending the economic backwardness of the USSR's minority republics, it stood apart from similar efforts as one of the most potent metaphors for the creation of a unified socialist nation. Built between December 1926 and January 1931 by nearly 50,000 workers and at a cost of more than 161 million rubles, Turksib embodied the Bolsheviks' commitment to end ethnic inequality and promote cultural revolution in one of the far-flung corners of the old Tsarist Empire. Kazakhstan trumpeted as the forge of the Kazakh proletariat, the railroad was to create a native working class bringing not only trains to the steppes but also the Revolution. In the first in-depth study of this grand project, Matthew Payne explores the transformation of its builders in Turksib's crucible of class war, race riots, state purges, and the brutal struggle of everyday life. In the battle for the souls of the nation's engineers as well as the racial and ethnic conflicts that swirled far from Moscow around Stalin's vast campaign of industrialization, he finds a microcosm of the early Soviet Union.

Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped, or will it choose its own distinct path of development? In this history of Russia from 1917 to the present, Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia, *The Fragile Empire*. One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass. This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles. Neither approach, says Chubarov, will work on its own. Chubarov offers a balanced view, abstaining from narrow ideologically biased assessments and examining the triumphs, yes, and failures of Russia's Soviet development within Russia's own cultural and historical context. Without ever minimizing the brutalities of the Soviet period—the state terror, the collectivizations, the labor camps, the deportations of whole peoples—Chubarov demonstrates much continuity between tsarist and Soviet Russia, with the latter often repeating the former's mistakes. Russia, says Chubarov, cannot turn its back on its Soviet experience. Far from being a blind alley or aberrant phase, the Soviet period was an organic part of Russia's history and was largely successful in turning Russia and most of the other Soviet republics into modern states.
