SIMPLE PAST

PRESENT PERFECT

REMEMBER:

We often use **adverbs of frequency/adverbs of past time** with 'simple past' verbs:

Always, often, usually, sometimes, rarely, seldom, never

yesterday, last week, last Monday, two days ago, three hours ago.

We use the **simple past** when we can collocate a **fact/event** in the past.

We use the **present perfect (simple)** to talk about events/facts that have happened in a **non-defined** period of time up to now (up to the present time).

We use it for an event that started in the past and has continued **until now**. Often used with **since** (indicating the beginning of an action/event) or **for** (indicating the duration of an action/event).

We use it to indicate completed activities in the **immediate past**, which have consequences in the present. (with **just**).

The **present perfect** frequently uses the **adverbs of time** still, ever/never, already, just, yet.

S G Civ Pastpresent V2:

Planning Singapore Stephen Hamnett, Belinda Yuen, 2019-05-08 Two hundred years ago Sir Stamford Raffles established the modern settlement of Singapore with the intent of seeing it become a great commercial emporium and fulcrum. But by the time independence was achieved in 1965 the city faced daunting problems of housing shortage, slums, and high unemployment. Since then Singapore has become one of the richest countries on earth, providing in Sir Peter Hall's words perhaps the most extraordinary case of economic development in the history of the world. The story of Singapore's remarkable achievements in the first half century after its independence is now widely known. In *Planning Singapore: The Experimental City*, Stephen Hamnett and Belinda Yuen have brought together a set of chapters on Singapore's planning achievements, aspirations, and challenges, which are united in their focus on what might happen next in the planning of the island state. Chapters range over Singapore's planning system, innovation and future economy, housing, biodiversity, water and waste, climate change, transport, and the potential transferability of Singapore's planning knowledge. A key question is whether the planning approaches which have served Singapore so well until now will suffice to meet the emerging challenges of a changing global economy, demographic shifts, new technologies, and the existential threat of climate change. Singapore as a global city is becoming more unequal and more diverse. This has the potential to weaken the social compact which has largely existed since independence and to undermine the social resilience undoubtedly needed to cope with the shocks and disruptions of the twenty-first century. The book concludes, however, that Singapore is better placed than most to respond to the challenges which it will certainly face, thanks to its outstanding systems of planning and implementation, a proven capacity to experiment, and a highly developed ability to adapt quickly, purposefully, and pragmatically to changing circumstances. *Subject Catalog* Library of Congress, [African-Asian Relations: Past, Present, Future](#) Patrick Ziltener, Christian Suter, 2023-03-15 Is the impression of a new dynamism in African-Asian relations empirically correct? Is it a process that will once be accepted as one of the fundamental transformations of World Society in the 21st century? This volume addresses these questions in 14 chapters, from a look back to 2000 years of African-Asian contacts and exchange to the analysis of the origins of this new inter-regional dynamism. On the Asian side, the focus is on China, which has with the Forum on China-African Cooperation (FOCAC), the Belt and Road Initiative, with numerous infrastructure projects, development assistance, resource deals, and the support for the African Union in Africa, drawn most attention, but also recent initiatives by India and South Korea are described. On the African side, the recent developments in Burkina Faso, Côte d'Ivoire, Ethiopia, Angola, Guinea, Tanzania, Ghana, Zimbabwe, and South Africa are analyzed in detail, with a special focus on the various impacts of the recent and ongoing projects and initiatives and the conditions under which they exert developmental or detrimental economic effects. Do we witness the repetition of past mistakes of development policies at higher level, or is this time everything different? Subject Catalog, 1981 Library of Congress, 1981 **Analytical Archaeometry** Howell Edwards, Peter

Vandenabeele, 2016-01-13 Analytical Archaeometry describes this interesting and challenging field of research on the border between natural sciences chemistry spectroscopy biology geology and humanities archaeology art history conservation sciences It fills the gap between these two areas whilst focussing on the analytical aspects of this research field The first part of the book studies the main analytical techniques used in this research field The second part expands from the different types of materials usually encountered and the final part is organised around a series of typical research questions The book is not only focussed on archaeological materials but is also accessible to a broader lay audience Overall the book is clearly structured and gives insight into different approaches to the study of analytical providing extensive discussion on a wide range of techniques materials questions and applications Due to the advances in analytical instrumentation and applications in this field it is important to have all this information merged together Academics as well as professionals in archaeology art history museum labs and conservation science will find this an invaluable reference source ensuring the reader is provided with the latest progress in this research field The Human Rights Covenants at 50 Daniel Moeckli, Helen Keller, Corina

Heri, 2018-06-07 Half a century ago on 16 December 1966 the UN General Assembly adopted the International Covenant on Civil and Political Rights ICCPR and the International Covenant on Economic Social and Cultural Rights ICESCR While the adoption of the two UN human rights covenants was celebrated all over the world their 50th anniversary has received very little attention from the international community The present book marks this anniversary by taking stock of the first half century of the existence of what are probably the world's two most important human rights treaties It does so by reflecting on what the covenants have achieved or failed to achieve in the years that have passed by determining and comparing their current influence in the various regions of the world and by assessing their potential roles in the future The book contains papers that were presented during a symposium held in Zurich in 2016 which brought together experts and stakeholders from a range of disciplines and world regions Some fundamental issues that are addressed by the contributors are as old as the two covenants themselves They concern for example the division of human rights into first and second generation rights and the question of whether there should be one central monitoring body possibly a world court or more than just one However the contributors go beyond such questions that have been explored before they develop new answers to old questions and point to new challenges *Past, Present and Future of a Habitable Earth* Res.
