Sacred Times A New Approach To Festivals:

Sacred Times William Bloom, Ph.D.,1990-01-01 **Transforming the World** Stuart Rose,2005 This study provides a comprehensive and balanced view of the New Age through formal studies and original research Equal attention is accorded to practices and institutions illustrating the New Age as a concrete living enterprise not merely a philosophy The book offers a thorough study of major writings by British American and other commentators detailed ethnographic testimony and a broad survey of the New Age phenomenon in all its aspects *Children of the New Age* Steven Sutcliffe,2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from the 1930s to the present day **The Growth of Religious Diversity: Traditions** Gerald Parsons,1993 These two volumes consider the significance of religion in post war Britain concentrating on the decline of the specifically Christian Society and the emergence of a culturally and religiously plural society *Indigenous Religions* Graham Harvey,2000-01-01 Indigenous religions are the majority of the world s religions This Companion shows how much they can contribute to a richer understanding of human identity action and relationships An international team of contributors discuss representative indigenous religions from all continents The book is in three parts Persons Powers and Gifts Relevant to everyone interested in human religiosity today The Emerging Network Michael York,1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena The Growth of Religious Diversity - Vol 1 Gerald Parsons,2012-11-12 This two volume set considers the role and significance of religion in post war Britain focusing in particular upon the closely inter related themes of the decline of a specifically Christian Society and the emergence of a culturally and religiously plural society Three core questions are examined in depth to what extent and in what ways has religion remained a significant factor in British culture and society in the period since 1945 what role does religion play in interpreting and understanding the development of a multi cultural and multi ethnic society in post war Britain and to what extent has Britain remained or ceased to be a religious society during this period Volume 1 Traditions analyses the history and development of the major religious groups present in Britain in the period since 1945 The major religious traditions examined include the traditional Christian churches Judaism Islam Hinduism Sikhism Afro Caribbean religious groups New Religious Movements and the implicit religion of the silent majority who remain detached from organised religion but are by no means simply secular Volume 2 Controversies explores some of the challenges tensions and controversies presented by the emergence of an increasingly religiously plural society in Britain since 1945 In particular it focuses on the impact of religious pluralism on both the Christian churches and other religious traditions the relationship

between communal and national identities and religion women and religion and the relationship between religion and changing attitudes to personal and especially sexual morality Handbook of Religion and the Authority of Science Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world

Beyond New Age Steven Sutcliffe, Marion Bowman, 2000 Beyond New Age is a study of alternative religions It addresses the history growth content context and significance of such phenomena **The Oxford Handbook of Ritual and Worship in the Hebrew Bible** Samuel E. Balentine, 2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage *Religions of the East* Lucius Boraks, 1988 In the letter to the Hebrews we read At various times in the past and in various different ways God spoke to our ancestors Hebrews 1:1 At various times and in various ways that is what this book is all about Just how did God speak to our ancestors How did God make an abiding presence known in creation It is an attempt to penetrate the varied manifestations of this Presence in the world and the religious sensitivities of humanity that help make us aware of this presence This study revolves around the origins and ideas of the world's major living religions of the eastern

half of the world The different ways that eastern religions perceive the reality of the world of the sacred is our focus An Introduction to Swaminarayan Hinduism Raymond Brady Williams,2001-01-04 This book places Swaminarayan Hinduism in the context of transnational Hinduism and analyses its current status Holidays and Holy Nights Christopher Hill,2003 This joyous sparkling book opens the treasure chest of liturgical year to bring the creative power of the Divine into our ordinary lives here and now *Jewish Worship in Philo of Alexandria* Jutta Leonhardt,Jutta Leonhardt-Balzer,2001 As a knowledgeable contemporary of the later Second Temple Philo of Alexandria s approach to worship and his view of the essence of Jewish worship are of particular interest to the study of that period Jutta Leonhardt discusses his views on the Jewish festivals especially the Sabbath on prayer psalms hymns praise and thanksgiving and on Temple offerings sacrifices and purification rites These aspects are presented with their parallels in Jewish and pagan traditions and in Greek and Hellenistic philosophy Jewish worship in Philo has never been studied as a coherent whole before Only individual aspects of worship such as prayer of petition or thanksgiving or Philo has been used in studies on Second Temple Judaism as a quarry for general examples of acts of worship Philo accepted and participated in Jewish worship and even knew about details of various Jewish traditions of his time His writings however do not refer to them directly and cannot easily be used to reconstruct Jewish rituals of his time His main aim is to discuss the rites as collected in the Mosaic Torah since these are binding for all Jews These laws are frequently presented using the terminology of pagan cults and interpreted with recourse to Greek philosophy In this philosophical description of actual rites there are parallels to Plato s references to religion in the ideal state in the *Nomoi* Philo presents Judaism as the ultimate Hellenistic cult which combines the various aspects of the different pagan cults in a sublime and perfect form to represent mankind and the universe in the worship of the one God who created the world **Ancient Egyptian Portraiture** Alessio Delli Castelli,2024-12-09 Ancient Egyptian Portraiture History of an Idea concerns the origin nature and removal the unravelling and explanation of the impasse pertaining to the definition assessment and judgement of Ancient Egyptian portraiture Condensed in the syntagm different from ours this impasse arises from the polarisation and dichotomy of idealism and realism which characterise the three main Egyptological definitions of portraiture In offering a transcendental definition of art and portraiture that is anthropologically valid the overarching aim of this book is to challenge assessments of Egyptian art and portraiture based on historically particularistic concepts that are foreign to its cultural premises and development *The Construction of Time in Antiquity* Jonathan Ben-Dov,Lutz Doering,2017-10-12 Time has always held a fascination for human beings who have attempted to relate to it and to make sense of it constructing and deconstructing it through its various prisms since time cannot be experienced in an unmediated way This book answers the needs of a growing community of scholars and readers who are interested in this interaction It offers a series of innovative studies by both senior and younger experts on various aspects of the construction of time in antiquity Some articles in this book contain visual material published for the first time while other studies update the field

A team of Religious Studies scholars from many countries, all skilled communicators about the contemporary religions with which they are thoroughly familiar, introduce what it means to live as a religious person today. They insist that however old or young these religions may be, what is most interesting is the ways in which people express them today.
