Handbook of Research on Digital-Based Assessment and Innovative Practices in Education Keengwe, Jared, 2022-05-06 Even though digital technologies are ubiquitous in education assessment methods continue to employ

traditional assessments even though they are inadequate to provide information about a student's reasoning and conceptual understanding. Digital based assessment models allow students to demonstrate higher order skills while integrating digital technologies as a powerful teaching tool. Digital technologies can support inquiry based learning that is essential to developing a deep conceptual understanding of the content. The Handbook of Research on Digital Based Assessment and Innovative Practices in Education identifies digital tools and applications for effective assessment of learning, shares various models of digital based assessment in education and considers best pedagogical practices for assessment in education. Covering a range of topics such as formative assessments, design thinking, virtual reality and equity, this major reference work is crucial for educational technologists, instructional designers, policymakers, administrators, faculty, researchers, academicians, scholars, practitioners, instructors and students.

Engaging Boys and Men in Sexual Assault Prevention Lindsay M. Orchowski, Alan Berkowitz, 2022-03-18 Engaging Boys and Men in Sexual Assault Prevention: Theory, Research and Practice explores sexual assault prevention programs for boys and men. Following an ecosystemic perspective, the book examines individual risk and protective factors, discusses initiatives to prevent sexual aggression, i.e., bystander intervention programs, given their use among men, covers programs that specifically seek to engage boys and men in sexual assault prevention, presents key risk and protective factors for sexual aggression, i.e., healthy masculinity, rape myth acceptance, and describes the need and rationale for sexual assault prevention efforts. Addresses current challenges and controversies in the field of sexual assault prevention. Explores existing individual level workshops and media based interventions that address men's violence against women. Reviews the association between traditional masculine norms and sexual violence perpetration. Discusses international sexual assault prevention programs that engage boys and men. Highlight how aspects of hypermasculinity strongly correlate with sexual aggression. Provides an overview of research that examines risk factors for sexual aggression. Synthesizes the conceptualization of rape myths, current assessments of rape myths, and examines how rape myths function as a risk factor for perpetration.

Reasoning in Measurement Nicola Mößner, Alfred Nordmann, 2017-03-16 This collection offers a new understanding of the epistemology of measurement. The interdisciplinary volume explores how measurements are produced, for example in astronomy and seismology, in studies of human sexuality and ecology, in brain imaging and intelligence testing. It considers photography as a measurement technology and Henry David Thoreau's poetic measures as closing the gap between mind and world. By focusing on measurements as the hard won results of conceptual as well as technical operations, the authors of the book no longer presuppose that measurement is always and exclusively a means of representing some feature of a target object or entity. Measurement also provides

knowledge about the degree to which things have been standardized or harmonized it is an indicator of how closely human practices are attuned to each other and the world

Disarming Cupid Scientific American Editors, 2013-02-11 *Disarming Cupid Love Sex and Science* by the Editors of Scientific American Sometimes All You Need Is Love sometimes Love Is a Battlefield Whether Love Hurts Bites Will Keep Us Together Will Tear Us Apart or Is a Four Letter Word it seems we Want To Know What Love Is Love in both the abstract and the up close and personal has always provided limitless inspiration for artists writers and musicians but scientists are just as fascinated by these affairs of the heart though they seldom sing about it In this eBook *Disarming Cupid Love Sex and Science* our editors take a step back analyzing romance using tools like fMRI studies instead of a paint brush or guitar The writers examine a variety of topics starting with the perceived sex differences between men and women discussed in Section 1 are we really as different as Mars and Venus As our opening story shows few other questions can get at the heart of this debate like Can heterosexual men and women ever be just friends Spoiler alert new research suggests that the answer is no Subsequent sections tackle other facets of love including the implications of the drastic rise in online dating how we choose our romantic partners and what happens in our brains when we re in love In particular *All You Need Is Love* finds or perhaps for some verifies that romantic love stimulates the same pathways as an addictive drug Section 5 focuses on issues of gender and sexuality *Do Gays Have a Choice* analyzes a wealth of scientific evidence and shows that sexual orientation is determined more by both genes and environment rather than being a choice We also don't shy away from darker aspects of love such as the psychology of prostitution and sex appeal of narcissists because to ignore these aspects of love is to trivialize it Besides love's paradoxes are one of the reasons why it is The Topic for cultural discourse As Pascal said The heart has its reasons of which reason knows nothing Hopefully this eBook will change the nothing to at least something
