Debunking the Myth of Job Fit in Higher Education and Student Affairs Brian J. Reece, Vu T. Tran, Elliott N. DeVore, Gabby Porcaro, 2023-07-03 Co published with This groundbreaking book examines a concept that has gone unexamined for too long The concept of job fit in the student affairs profession Fit is a term used by nearly everyone in student affairs throughout the hiring process from search committees and hiring managers to supervisors and HR professionals This book opens a conversation about the use of job fit as a tool for exclusion that needs to be critically investigated from multiple standpoints This edited collection brings together a number of voices to look at the issues involved through various lenses to explore the ways policies procedures environments and cultural norms provide inequitable job search experiences for individuals from various marginalized groups These include looking at the legal aspects employer definitions communication barriers as well as scholarly personal narratives looking at the concept from the perspective of class race gender and sexual orientation Emerging from the Commission for Social Justice of ACPA the personal narratives and critical explorations in this book are an attempt to provide graduate students and professionals with a resource that is relevant to the job search in an increasingly competitive job market while taking into account the complex realities of their identities The normative assumptions of fit are analyzed by the authors to make visible the barriers those assumptions create for those with non dominant identities The student affairs profession strives for inclusion and acceptance as a core value and an essential competency The profession has made progress in the way it serves students but there is a disconnect between the conversation about students and the way those same values play out in the treatment of practitioners and scholars in the field This book aims to help job seekers looking to evaluate fit in their current and possible future positions as well as hiring managers who face challenges in creating equitable hiring processes Challenging the norms and rhetoric about job fit in student affairs means that scholars and practitioners alike must be able to incorporate this topic explicitly into various aspects of the profession

Contested Issues in Troubled Times Peter M. Magolda, Marcia B. Baxter Magolda, Rozana Carducci, 2023-07-03

Contested Issues in Troubled Times provides student affairs educators with frameworks to constructively think about and navigate the contentious climate they are increasingly encountering on campus. The 54 contributors address the book's overarching question: How do we create an equitable climate conducive to learning in a dynamic environment fraught with complexity and a socio-political context characterized by escalating intolerance, incivility, and overt discrimination? Rather than attempting to offer readers definitive solutions, this book illustrates the possibilities and promise of acknowledging multiple approaches to addressing contentious issues, articulating a persuasive argument anchored in professional judgment, listening attentively to others for points of connection as well as divergence, and drawing upon new ways of thinking to foster safe and inclusive campuses. Among the issues this volume addresses are such topics as sexual violence, historically underrepresented racial and ethnic groups, transgender and undocumented students, the professional skills, knowledge, and/or dispositions needed to thrive and facilitate systemic change in contemporary higher education organizations, the implications of maintaining personal and professional identities via social media and self-care. In this companion volume to *Contested Issues in Student Affairs*, whose issues remain as relevant today as they were upon publication in 2011, a new set of contributors explore new questions which foreground issues of equity, safety, and civility, themes which dominate today's higher education headlines and campus conversations. The book concludes with calls to action, encouraging student affairs educators to exhibit the moral courage needed to critically examine routine practices that unknowingly perpetuate inequity and enact the foundational values and principles upon which the student affairs profession was founded.
