Addiction and Christian Counseling Dr. Florence Akinwumiju ND DNH Ph.D., 2023-02-09 The

purpose of this book is to help people overcome addictions to intoxicants and cope with life's stresses which make up the substance abuse counselor's core mission. Counselors start by evaluating an addicted person's physical and mental behaviors which is the first step in writing an appropriate treatment plan. Depending on the complexity of the problem, a counselor may call in other professionals such as psychiatrists and social workers. Job prospects are considered greater than average because of a growth in court-ordered referrals to treatment programs. Addiction is an irresistible urge to perform an irrational act and compulsion to dependence. There are 4.2 million pornographic websites, 68 million search engine requests, 42.7 percent of Internet users viewing pornography, and 100,000 websites of pornography. Religious and spiritual features buffer individuals from addictive and risky behaviors. This suggests that religiosity may play a role in beliefs about and the use of pornography. This book will help counselors and experts in the field of Christian counseling education and the interactions they have with clients. Simultaneously, there is certainly room for improvement in the training and preparation of counselors. The purpose of this book is to introduce the topic of training, satisfaction, attitude toward pornography, addiction, counseling self-efficacy, and the comfort of counselors in discussing sexual issues with clients, particularly Internet pornography.

Counseling Cross-Culturally David J. Hesselgrave, 2002-01-08. Christians are being called upon increasingly to care, counsel, and cure across cultural boundaries, writes the author. Of course, foreign missionaries counsel people from other cultures, but so do many pastors, particularly those in urban settings. Because Christian counseling theory presupposes that counselor and counselee share the same culture, the insights of this discipline must be brought together meaningfully with the cross-cultural perspectives of missiology. Counseling Cross-Culturally pioneers this new field. After surveying approaches to counseling in the West and those in the non-Western world, the author develops a theory of Christian cross-cultural

counseling The final part consistent with the author's broad view of counseling discusses counseling concerned with the well being of people Christian conversion spiritual growth and development of a Christian life style and Christian service Numerous case studies drawn from a variety of cultures provide realistic examples of the questions that counselors will encounter A psychologist who trains Christian workers for cross cultural service describes this book as a helpful thoughtful study of complex issues surrounding counseling It is extremely valuable to expose any missionary candidate to this type of book It broadens awareness to cross cultural issues and touches on common problems of missionary counselors Counseling Cross Culturally is an admirable attempt to integrate a conservative evangelical theology with the complexities of culture and life
