The Foundations of Complex Evolving Economies Giovanni Dosi, 2023-06-20 The Foundations of Complex Evolving Economies seeks to offer an integrated analysis of the anatomy and physiology of the capitalist engine of generation and exploitation of technological organizational and institutional innovations

from the drivers of knowledge accumulation to the modes in which such knowledge is incorporated into business firms all the way to the processes of innovation driven Schumpeterian competition and macroeconomic growth In that it advances the interpretation of such patterns in terms of economies seen as complex evolving systems The basic objects of analysis are the history of the emergence and development of modern capitalist economies and their current functionings Indeed the tall ambition of the book is to address two basic questions at the core of the whole economic discipline since its inception They regard first the drivers and patterns of change of the capitalistic machine of production and innovation and second the mechanisms of coordination among a multitude of self seeking economic agents often characterized by conflicting interests In order to do that this Manual in addition to the nature of technology and innovation considers from a profoundly alternative perspective all domains of analysis typically addressed or not by microeconomic texts including micro behaviours the theory of the firm the theory of production consumption patterns market dynamics and industrial evolution

The Oxford Handbook of Asian Business Systems Michael A. Witt, Gordon Redding, 2014-01-30 Much of the existing literature within the varieties of capitalism VOC and comparative business systems fields of research is heavily focused on Europe Japan and the Anglo Saxon nations As a result the field has yet to produce a detailed empirical picture of the institutional structures of most Asian nations and to explore to what extent existing theory applies to the Asian context The Oxford Handbook of Asian Business Systems aims to address this imbalance by exploring the shape and consequences of institutional variations across the political economies of different societies within Asia Drawing on the deep knowledge of 32 leading experts this book presents an empirical comparative institutional analysis of 13 major Asian business systems between India and Japan To aid comparison each country chapter follows the same consistent outline Complementing the country chapters are eleven contributions examining major themes across the region in comparative perspective and linking the empirical picture to existing theory on these themes A further three chapters provide perspectives on the influence of history and institutional change The concluding chapters spell out the implications of all these chapters for scholars in the field and for business practitioners in Asia The Handbook is a major reference work for scholars researching the causes of success and failure in international business in Asia
