and glare of the long hot summer days without checking the cooling southern breezes and filter from the air a large portion of the dust which rises from the streets and roads Nor must their aesthetic qualities be overlooked Towns fortunate enough to have shaded parks and streets bordered with neatly kept rows of trees possess an intrinsic asset Many towns in North Carolina derive a large portion of their income from summer or winter visitors and the street tree contributes not a little to producing the conditions most agreeable to these guests About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
