practical and systematic look at the evidence supporting a flat stationary Earth Interest in Flat Earth Cosmology is constantly growing particularly among millennials Flipping the Narrative offers a rare female perspective among the Flat Earth community and discusses such hot topics as why we can't see clear across the earth if it's flat proof of missing curvature the surface tension of water and atmospheric pressure wind currents weather patterns and seasons how celestial navigation and the compass work on a flat earth parallax and southern star patterns how line of sight radio transmissions and GPS work the Coriolis and Alais effects auroras and other electro magnetic phenomena what the dome is and why it's necessary how Moon phases and eclipses work This unique book addresses many previously unanswered questions about cosmology in relation to a flat stationary earth It also addresses less obvious inconsistencies in the heliocentric model along with some impossibilities remaining completely overlooked in the globe earth model Facts will always remain facts but the interpretation of those facts is subject to our understanding of the evidence surrounding them It is possible to flip the accepted narrative by releasing our minds from the bondage of theoretical science using the keys of empirical Truth **Littell's Living Age** ,1876
