Shadow Of The Hunter Stories Of Eskimo Life:

Shadow of the Hunter Richard K. Nelson,1980-01-01 A collection of stories based upon the author s experiences in an Eskimo village of the Tareogmiut or people of the sea **The Shadow of the Hunter** Richard K. Nelson,1983 **Shadow**

of the Hunter Richard K. Nelson,1983-04-15 Follows a group of Eskimo hunters and their families through the cycle of an arctic year and looks at the different realms of the Eskimo world **Historical Dictionary of the Inuit** Pamela R.

Stern,2013-09-26 The Inuit do not represent a very large population only 160 000 or so spread over a very large portion of the Arctic region and located in four different countries Although they are a people there are many variations from one group to the next and any study of them must consider both similarities and differences The Historical Dictionary of the Inuit introduces us to the Inuit as they actually are and not as they have been traditionally pictured and some would still like to see them looking after their traditional chores and engaged in time honored practices but rather as a modern people trying to shape their worlds in their own interest This second edition includes an updated chronology as well as an introduction to provide a broader view of who the Inuit are where they live and what they do But it is the dictionary section that is most interesting with many new informative entries on persons places events and institutions shedding light not only on the culture but also on the society economy and politics For those seeking further information there is a considerably expanded bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Inuit **Raven's Witness** Hank Lentfer,2020-07-07 Banff Mountain Book Award Winner Grand Prize Banff Mountain Book

Award Winner Mountain Literature A lovely tribute that illuminates what makes a life extraordinary High Country News Richard K Nelson was the host of the national public radio series Encounters Nelson was an anthropologist who lived with Alaska Native tribes and spoke both Inupiat and Koyukon Based on Nelson s journals and interviews with Gary Snyder Barry Lopez Rick Bass and others He listened to his Native Alaskan teachers immersed himself in their landscapes as a naturalist and became without intending to a great teacher himself Barry Lopez from the foreword Before his death in 2019 cultural anthropologist author and radio producer Richard K Nelson s work focused primarily on the indigenous cultures of Alaska and more generally on the relationships between people and nature Nelson lived for extended periods in Athabaskan and Alaskan Eskimo villages experiences which inspired his earliest written works including Hunters of the Northern Ice In Raven s Witness Lentfer tells Nelson s story from his midwestern childhood to his first experiences with Native culture in Alaska through his own lifelong passion for the land where he so belonged Nelson was the author of the bestselling The Island Within and Heart and Blood The recipient of multiple honorary degrees and numerous literary awards he regularly packed auditoriums when he spoke His depth of experience allowed him to become an intermediary between worlds This is his story Find out more at www.ravenswitness.com and learn how you can help bring this story to life here **Critical**

Norths Sarah Jaquette Ray,Kevin Maier,2017-05-15 For millennia the North has held a powerful sway in Western culture

Long seen through contradictions empty of life yet full of promise populated by indigenous communities yet ripe for conquest pristine yet marked by a long human history it has moved to the foreground of contemporary life as the most dramatic stage for the reality of climate change This book brings together scholars from a range of disciplines to ask key questions about the North and how we've conceived it and how conceiving of it in those terms has caused us to fail the region's human and nonhuman life Engaging questions of space place indigeneity identity nature the environment justice narrative history and more it offers a crucial starting point for an essential rethinking of both the idea and the reality of the North **The Meat**

Paradox Rob Percival, 2022-03-01 From a vital new voice in food ethics comes a smart nuanced investigation into the current meat debate Our future diet will be shaped by diverse forces It will be shaped by novel technologies by geopolitical tensions and the evolution of cultural preferences by shocks to the status quo pandemics and economic strife the escalation of the climate and ecological crises and by how we choose to respond It will also be shaped by our emotions It will be shaped by the meat paradox Should we eat animals was until recently a question reserved for moral philosophers and an ethically minded minority but it is now posed on restaurant menus and supermarket shelves on social media and morning television The recent surge in popularity for veganism in the UK Europe and North America has created a rupture in the rites and rituals of meat challenging the cultural narratives that sustain our omnivory In *The Meat Paradox* Rob Percival an expert in the politics of meat searches for the evolutionary origins of the meat paradox asking when our relationship with meat first became emotionally and ethically complicated Every society must eat and meat provides an important source of nutrients But every society is moved by its empathy We must all find a way of balancing competing and contradictory imperatives This new book is essential reading for anyone interested in the origins of our empathy the psychology of our dietary choices and anyone who has wondered whether they should or shouldn't eat meat **For Love of the World** Sherman Paul, 1992 Along with poets

philosophers and deep ecologists nature writers who may be something of all three address the world alienation of Western civilization By example as well as with words they teach us to turn from the self to the world from ego to ecos In these deeply felt meditative essays Sherman Paul contemplates the cosmological homecoming of nature writers who show us how to reenter the world participate in it and recover respect for it In *For Love of the World* Sherman Paul considers Thoreau John Muir and Aldo Leopold major writers in the American tradition of nature writing Henry Beston and Loren Eiseley writers not yet so canonical and Richard Nelson and Barry Lopez our estimable contemporaries Paul's meditative mode follows the practice of naturalists who enter the field come into the open and relate their immediate experiences In the most primary and direct way his essays belong to our moment in history when nothing is more essential than our reattachment to earthly existence They will reawaken our love of the world the necessary eros of ecos and our wonder at and gratitude for being

Canada **Northern Experience and the Myths of Canadian Culture** Renée Hulan, 2002 In *Northern Experience and the Myths of Canadian Culture* Renée Hulan disputes the notion that the north is a source of distinct collective identity for Canadians Through a synthesis of critical historical and theoretical approaches to northern subjects in literary studies she challenges the epistemology used to support this idea By investigating mutually dependent categories of identity in literature that depicts northern peoples and places Hulan provides a descriptive account of representative genres in which the north figures as a central theme including autobiography adventure narrative ethnography fiction poetry and travel writing She considers each of these diverse genres in terms of the way it explains the cultural identity of a nation formed from the settlement of immigrant peoples on the lands of dispossessed indigenous peoples Reading against the background of contemporary ethnographic literary and cultural theory Hulan maintains that the collective Canadian identity idealized in many works representing the north does not occur naturally but is artificially constructed in terms of characteristics inflected by historically contingent ideas of gender and race such as self sufficiency independence and endurance and that these characteristics are evoked to justify the nationhood of the Canadian state *Handbook of North American Indians: Arctic*, 1984 *Native People, Native Lands* Bruce Alden Cox, 1988 The changing roles of native women devices for assimilation the re birth of the Metis these are among the issues examined in this collection of provocative essays which explore the link between aboriginal culture and economic patterns **Geography of Climate Change** Richard Aspinall, 2013-09-13 Climate change is one of the inescapable themes of current times Climate change confronts society in issues as diverse as domestic and international political debate and negotiation discussion in the media and public opinion land management choices and decisions and concerns about environmental social and economic priorities now and for the future Climate change also spans spatial temporal and organisational scales and has strong links with nature society relationships environmental dynamics and vulnerability Understanding the full range of possible consequences of climate change is essential for informed decision making and debate This book provides a collection of chapters that span environmental social and economic aspects of climate change Together the chapters provide a diverse and contrasting series that highlights the need to analyze review and debate climate change and its possible impacts and consequences from multiple perspectives The book also is intended to promote discussion and debate of a more integrated inclusive and open approach to climate change and demonstrates the value of geography in addressing climate change issues This book was originally published as a special issue of *Annals of the Association of American Geographers* **Contemporary Cultural Anthropology** Michael C. Howard, 1989 An introductory undergraduate text first edition 1983 containing 16 chapters that cover major topics in cultural anthropology Each chapter provides a summary and lists key terms and further reading There are in addition 14 original essays by practising anthropologists in particular subfields Color and bandw photographs Annotation copyright by Book News Inc Portland OR

transformations in the world It is an enchanting being that humans have long felt a connection to In the contemporary environmental imagination whales are charismatic megafauna feeding our environmentalism and aspirations for a better and more sustainable future Using multispecies ethnography Whale Snow explores how everyday the relatedness of the Iupiat of Arctic Alaska and the bowhead whale forms and transforms the human through their encounters with modernity Whale Snow shows how the people live in the world that intersects with other beings how these connections came into being and most importantly how such intimate and intense relations help humans survive the social challenges incurred by climate change In this time of ecological transition exploring multispecies relatedness is crucial as it keeps social capacities to adapt relational elastic and resilient In the Arctic climate culture and human resilience are connected through bowhead whaling In Whale Snow we see how climate change disrupts this ancient practice and in the process affects a vital expression of Indigenous sovereignty Ultimately though this book offers a story of hope grounded in multispecies resilience
