Shadow Of The Plantation Black And Africanamerican Studies:

Shadow of the Plantation Charles Spurgeon Johnson, 1996-01-01 A survey of African American life in the South after slavery was abolished and before the civil rights movement

Shadow of the Plantation Charles Johnson, 2018-04-24 *Shadow of the Plantation* focuses on descendants of slaves in one rural Southern community in the early part of this century. In the process Johnson reviews the troubled history of race relations in the United States. When reread half a century after it was first written *Shadow of the Plantation* is clearly revealed as a remarkably perceptive and fresh comment on race relations and the triumph of individuals over circumstances. Charles Johnson's book is significant for its use of multiple methodologies. The research took place in an ecological setting that was a dynamic element of the life of the community. The book is a multifaceted interpretive survey of the 612 black families that composed the rural community of Macon County, Alabama, in the late 1920s and early 1930s. Johnson describes and analyzes their families' economic situation, education, religious activities, recreational life, and health practices. *Shadow of the Plantation* manages to be both historically accurate and foresighted at the same time. It is as much a book about today as it is a discussion of yesterday. This volume is an important study that will be of value to sociologists, anthropologists, and black studies specialists.

Postmodernism, Traditional Cultural Forms, and African American Narratives W. Lawrence Hogue, 2013-11-12 This book explores how African American social and political movements, African American studies, independent scholars, and traditional cultural forms revisit and challenge the representation of the African American as deviant other. After surveying African American history and cultural politics, W. Lawrence Hogue provides original and insightful readings of six experimental postmodern African American texts: John Edgar Wideman's *Philadelphia Fire*, Percival Everett's *Erasure*, Toni Morrison's *Jazz*, Bonnie Greer's *Hanging by Her Teeth*, Clarence Major's *Reflex*, and Bone Structure and Xam Wilson Cartier's *Muse*. Echo Blues Using traditional cultural and western forms including the blues, jazz, voodoo, virtuality, radical democracy, Jungian African American Collective Unconscious, Yoruba gods, black folk culture, and black working class culture, Hogue reveals that these authors uncover spaces with different definitions of life that still retain a wildness and have not been completely mapped out and trademarked by normative American culture. Redefining the African American novel and the African American outside the logic rules and values of western binary reason, these writers leave open the possibility of psychic liberation of African Americans in the West.

Black Intellectuals and Black Society Martin L. Kilson, 2024-07-09 This book presents the trailblazing political scientist Martin L. Kilson's essays on leading Black intellectuals of the twentieth century. Kilson examines the ideas and careers of several key thinkers, placing their intellectual odysseys in the context of the dynamics that shaped the Black intelligentsia more broadly. He argues that the trajectory of twentieth-century Black intellectuals was determined by the interplay between formal ideas and Black egalitarian struggle. Beginning with the tension between W. E. B. Du Bois's civil rights activism and Booker T. Washington's accommodationism, Kilson explores the formation and evolution of Black

intellectuals and activists across generations Chapters consider Horace Mann Bond's career in higher education political scientist John Aubrey Davis's transition from civil rights activist to federal policy technocrat Ralph Bunche's writings on European colonial rule in Africa Harold Cruse's classic polemic *The Crisis of the Negro Intellectual* E Franklin Frazier's analysis of the Black bourgeoisie Adelaide M Cromwell's studies of the challenges facing elite Black women and Ishmael Reed and Cornel West's advocacy as public intellectuals amid a conservative turn Offering timely and engaging insights into the lives and work of pivotal Black intellectuals and activists this book sheds new light on the abiding questions and debates in Black political thought *The Black Church in the African American Experience* C. Eric Lincoln, Lawrence H.

Mamiya, 1990-11-07 A nongovernmental survey of urban and rural churches of black communities based on a ten year study

The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **Historical**

Foundations of Black Reflective Sociology John H Stanfield II, 2016-06-03 John H Stanfield II a leading historian of Black social science distills decades of his research and thinking in a set of articles some original to the volume others from fugitive sources that trace the trajectories of Black scholars and scholarship in relationship to the broader African American experience over the past two centuries Stanfield's signature contributions to this research tradition range from the role of philanthropy in the study and life of African Americans to institutional racism in sociology and the impacts of race on scholarly careers His analyses run from global formulations to individual biographies including his own and stretch from the early decades of social science to the present This work creates a nuanced historical context for reflective Black sociology that will be of interest to social historians sociologists and scholars of color from all disciplines **In the Vineyard** Perry A.

Hall, 1999 A participant in the Black Student Movement in its early years Perry A Hall provides an insider's look at the struggle to persuade academia to accept the mission of Black Studies and the struggle inside the movement to define its objectives He examines how the discipline evolved within the context of the wider social revolution changing the United States showing how the presence of blacks on campuses brought about the need for new perspectives in college curricula And because African American Studies today represents a variety of approaches he examines how they evolved and how they interact both within the field and with other areas of knowledge Jacket Black Families at the Crossroads Leonor Boulton

Johnson, Robert Staples, 2004-09-24 This updated edition of the classic book *Black Families at the Crossroads* offers a comprehensive examination of the diverse and complex issues surrounding Black families Leonor Boulton Johnson and Robert Staples combine more than sixty years of writing and research on Black families to offer insights into the pre slavery development of the Black middle class internal processes that affect all class strata among Black American families the impact of race on modern Black immigrant families the interaction of external forces and internal norms at each stage of the

Black family life cycle and public policies that provide challenges and promising prospects for the continuing resilience of the Black family as an American institution This thoroughly revised edition features new research including empirical studies and theoretical applications and a review of significant social policies and economic changes in the past decade and their impact on Black families

Black Families Harriette Pipes McAdoo, 2007 Publisher Description Alexander Crummell Wilson Jeremiah Moses, 1989-08-17 This remarkable biography based on much new information examines the life and times of one of the most prominent African American intellectuals of the nineteenth century Born in New York in 1819 Alexander Crummell was educated at Queen's College Cambridge after being denied admission to Yale University and the Episcopal Seminary on purely racial grounds In 1853 steeped in the classical tradition and modern political theory he went to the Republic of Liberia as an Episcopal missionary but was forced to flee to Sierra Leone in 1872 having barely survived republican Africa's first coup He accepted a pastorate in Washington D C and in 1897 founded the American Negro Academy where the influence of his ideology was felt by W E B Du Bois and future progenitors of the Garvey Movement A pivotal nineteenth century thinker Crummell is essential to any understanding of twentieth century black nationalism Research on the African-American Family Robert B. Hill, 1993-03-05 Black families in America face special and grave problems Widespread unemployment single parent circumstances adolescent pregnancies substance abuse and violence are only some of the problems posing challenges The authors convinced that the conventional perspective used in the past to analyze black families is deficient propose a holistic approach That perspective takes into account the totality of black family life rather than measuring isolated factors Using black families as the central unit of analysis the authors identify fundamental issues requiring concentrated attention and policy changes Both factors external to the black family and consideration internal to it are studied The former include economic factors racism demographics and governmental policies The latter involve such aspects as black family structure changes in the community and widespread changes in values at the individual level The authors provide practical recommendations for improving the conditions of black families through policy changes and revised priorities

The Oxford Handbook of American Immigration and Ethnicity Ronald H. Bayor, 2016-06-01 Scholarship on immigration to America is a coin with two sides it asks both how America changed immigrants and how they changed America Were the immigrants uprooted from their ancestral homes leaving everything behind or were they transplanted bringing many aspects of their culture with them Although historians agree with the transplantation concept the notion of the melting pot which suggests a complete loss of the immigrant culture persists in the public mind The Oxford Handbook of American Immigration and Ethnicity bridges this gap and offers a comprehensive and nuanced survey of American racial and ethnic development assessing the current status of historical research and simultaneously setting the goals for future investigation Early immigration historians focused on the European migration model and the ethnic appeal of politicians such as Fiorello La Guardia and James Michael Curley in cities with strong ethno political histories like New York and Boston But

the story of American ethnicity goes far beyond Ellis Island Only after the 1965 Immigration Act and the increasing influx of non Caucasian immigrants scholars turned more fully to the study of African Asian and Latino migrants to America This Handbook brings together thirty eminent scholars to describe the themes methodologies and trends that characterize the history and current debates on American immigration The Handbook s trenchant chapters provide compelling analyses of cutting edge issues including identity whiteness borders and undocumented migration immigration legislation intermarriage assimilation bilingualism new American religions ethnicity related crime and pan ethnic trends They also explore the myth of model minorities and the contemporary resurgence of anti immigrant feelings A unique contribution to the field of immigration studies this volume considers the full racial and ethnic unfolding of the United States in its historical context

From Power to Prejudice Leah N. Gordon, 2015-05-20 Americans believe strongly in the socially transformative power of education and the idea that we can challenge racial injustice by reducing white prejudice has long been a core component of this faith How did we get here In this first rate intellectual history Leah N Gordon jumps into this and other big questions about race power and social justice To answer these questions *From Power to Prejudice* examines American academia both black and white in the 1940s and 50s Gordon presents four competing visions of the race problem and documents how an individualistic paradigm which presented white attitudes as the source of racial injustice gained traction A number of factors Gordon shows explain racial individualism s postwar influence individuals were easier to measure than social forces psychology was well funded studying political economy was difficult amid McCarthyism and individualism was useful in legal attacks on segregation Highlighting vigorous midcentury debate over the meanings of racial justice and equality *From Power to Prejudice* reveals how one particular vision of social justice won out among many contenders

Blacks in Niagara Falls Michael B. Boston, 2021-08-16 *Blacks in Niagara Falls* narrates and analyzes the history of Black Niagarans from the days of the Underground Railroad to the Age

of Urban Renewal Michael B Boston details how Black Niagarans found themselves on the margins of society from the earliest days to how they came together as a community to proactively fight and struggle to obtain an equal share of society's opportunities Boston explores how Blacks came to Niagara Falls in increasing numbers usually in search of economic opportunities later establishing essential institutions such as churches and community centers which manifested and reinforced their values and interacted with the broader community seeking an equitable share of other society opportunities This singular examination of a small city significantly contributes to Urban History and African American Studies scholarly research which generally focuses on large cities Combining primary source data with extensive interviews gathered over an eighteen year period in which the author immersed himself in the Niagara community Blacks in Niagara Falls offers an insightful study of how one small city community grew over its unique history

Murder in New Orleans Jeffrey S. Alder, 2019-08-02 New Orleans in the 1920s and 1930s was a deadly place In 1925 the city's homicide rate was six times that of New York City and twelve times that of Boston Jeffrey S Adler has explored every homicide recorded in New Orleans between 1925 and 1940 over two thousand in all scouring police and autopsy reports old interviews and crumbling newspapers More than simply quantifying these cases Adler places them in larger contexts legal political cultural and demographic and emerges with a tale of racism urban violence and vicious policing that has startling relevance for today Murder in New Orleans shows that whites were convicted of homicide at far higher rates than blacks leading up to the mid 1920s But by the end of the following decade this pattern had reversed completely despite an overall drop in municipal crime rates The injustice of this sharp rise in arrests was compounded by increasingly brutal treatment of black subjects by the New Orleans police department Adler explores other counterintuitive trends in violence particularly how murder soared during the flush times of the Roaring Twenties how it plummeted during the Great Depression and how the vicious response to African American crime occurred even as such violence plunged in frequency revealing that the city's cycle of racial policing and punishment was connected less to actual patterns of wrongdoing than to the national enshrinement of Jim Crow Rather than some hyperviolent outlier this Louisiana city was a harbinger of the endemic racism at the center of today's criminal justice state Murder in New Orleans lays bare how decades old crimes and the racially motivated cruelty of the official response have baleful resonance in the age of Black Lives Matter
