*The UnCivil University* Gary A. Tobin, Aryeh Kaufmann Weinberg, Jenna Ferer, 2009-05-16 In the name of academic freedom the core values of higher education honest scholarship unbiased research and diversity of thought and person have been corrupted by an academy more interested in preserving its privileges than in protecting its own integrity The American university has lost its civility Nowhere is this loss more apparent than in the rise of anti Semitism and anti Israelism on college campuses This book documents the alarming rise in bigotry and bullying in the academy using a range of evidence from first hand accounts of intimidation of students by anti Israel professors to anti Semitic articles in student newspapers and marginalization of pro Israel scholars The UnCivil University exposes the unspoken world of double standards bureaucratic paralysis and abdication of leadership that not only allows but often supports a vocal minority of extremists on campus

Unlearning Liberty Greg Lukianoff, 2014-03-11 For over a generation shocking cases of censorship at America's colleges and universities have taught students the wrong lessons about living in a free society Drawing on a decade of experience battling for freedom of speech on campus First Amendment lawyer Greg Lukianoff reveals how higher education fails to teach students to become critical thinkers by stifling open debate our campuses are supercharging ideological divisions promoting groupthink and encouraging an unscholarly certainty about complex issues Lukianoff walks readers through the life of a modern day college student from orientation to the end of freshman year Through this lens he describes startling violations of free speech rights a student in Indiana punished for publicly reading a book a student in Georgia expelled for a

pro environment collage he posted on Facebook students at Yale banned from putting an F Scott Fitzgerald quote on a T shirt and students across the country corralled into tiny free speech zones when they wanted to express their views But Lukianoff goes further demonstrating how this culture of censorship is bleeding into the larger society As he explores public controversies involving Juan Williams Rush Limbaugh Bill Maher Richard Dawkins Larry Summers even Dave Barry and Jon Stewart Lukianoff paints a stark picture of our ability as a nation to discuss important issues rationally Unlearning Liberty Campus Censorship and the End of American Debate illuminates how intolerance for dissent and debate on today s campus threatens the freedom of every citizen and makes us all just a little bit dumber **University of the State of New York**

industry affects the global economy in ways previously under represented in the literature     Intergenerational Space Robert Vanderbeck, Nancy Worth, 2015-06-03 Intergenerational Space offers insight into the transforming relationships between younger and older members of contemporary societies The chapter selection brings together scholars from around the world in order to address pressing questions both about the nature of contemporary generational divisions as well as the complex ways in which members of different generations are and can be involved in each other's lives These questions include how do particular kinds of spaces and spatial arrangements e.g cities neighbourhoods institutions leisure sites facilitate and limit intergenerational contact and encounters What processes and spaces influence the intergenerational negotiation and contestation of values beliefs and social memory producing patterns of both continuity and change And if generational separation and segregation are in fact significant social problems across a range of contexts as a significant body of research and commentary attests how can this be ameliorated The chapters in this collection make original contributions to these debates drawing on original research from Belgium China Finland Poland Senegal Singapore Tanzania Uganda the United States and the United Kingdom     **Outlines of Natural Philosophy, Being Heads of Lectures Delivered in the University of Edinburgh** John Playfair (Mathematician.), 1814     **Lectures on Art Delivered Before the University of Oxford in Hilary Term, 1870** John Ruskin, 1900     *Air University Review* , 1965     University of Virginia Alumni News , 1920     Transactions of the Association of Civil Engineers of Cornell University , 1907     **The Dublin University Magazine** , 1877     Unmaking the Public University Christopher Newfield, 2008-05-30 An essential American dream equal access to higher education was becoming a reality with the GI Bill and civil rights movements after World War II But this vital American promise has been broken Christopher Newfield argues that the financial and political crises of public universities are not the result of economic downturns or of ultimately valuable restructuring but of a conservative campaign to end public education's democratizing influence on American society Unmaking the Public University is the story of how conservatives have maligned and restructured public universities deceiving the public to serve their own ends It is a deep and revealing analysis that is long overdue Newfield carefully describes how this campaign operated using extensive research into public university archives He launches the story with the expansive vision of an equitable and creative America that emerged from the post war boom in college access and traces the gradual emergence of the anti egalitarian corporate university practices that ranged from racial policies to research budgeting Newfield shows that the culture wars have actually been an economic war that a conservative coalition in business government and academia have waged on that economically necessary but often independent group the college educated middle class Newfield's research exposes the crucial fact that the culture wars have functioned as a kind of neutron bomb one that pulverizes the social and culture claims of college grads while leaving their technical expertise untouched Unmaking the Public University incisively sets the record straight describing a forty year economic war waged on the college educated public and awakening
