In The Shadow Of God's Love Leelia Carolyn Cornell,2018-03-16 Do you hunger to have a deep personal relationship with God Do you long to know more of His character Do you need to find more of His peace love and mercy Do you want more strength to face the challenges and trials of life and emerge victorious God is so awesome it is impossible to confine Him to mere words No two people relate the same way to God and God is fresh in His dealings with each individual Yet His character is constant and eternal the same yesterday today and forever We glean foremost from His Word but also by the insights of others inspired by the Holy Spirit to discover His Workings in the lives of mankind These can be beams of light on our own pathway through life The first part of this book attempts to capture a fragment of Who God is in poetry and verse The second part is stories from the life of the author and her ancestors which proclaim God in every day living God is to be in every part and aspect of life and this book relates stories of life s joys sorrows heartrending trials triumphs and special times with God as well as the mundane and the funny happenings of living There are also poems of God s hand in nature outside the author s backdoor To proclaim God you must also live God This book presents not only His Word but also how His Word can be applied to real life situations and God s faithfulness throughout generations **The Cinema and Its Shadow** Alice Maurice,2013-03-15 The Cinema and Its Shadow argues that race has defined the cinematic apparatus since the earliest motion pictures especially at times of technological transition In particular this work explores how racial difference became central to the resolving of cinematic problems the stationary camera narrative form realism the synchronization of image and sound and perhaps most fundamentally the immaterial image the cinema s shadow which figures both the material reality of the screen image and its racist past Discussing early race subjects Alice Maurice demonstrates that these films influenced cinematic narrative in lasting ways by helping to determine the relation between stillness and motion spectacle and narrative drive The book examines how motion picture technology related to race embodiment and authenticity at specific junctures in cinema s development including the advent of narratives feature films and sound In close readings of such films as *The Cheat* *Shadows* and *Hallelujah* Maurice reveals how the rhetoric of race repeatedly embodies film technology endowing it with a powerful mix of authenticity and magic In this way the racialized subject became the perfect medium for showing off shoring up and reintroducing the cinematic apparatus at various points in the history of American film Moving beyond analyzing race in purely thematic or ideological terms Maurice traces how it shaped the formal and technological means of the cinema
