Drawing the Line Tom Sito, 2006-10-06 Some of the most beloved characters in film and television inhabit two dimensional worlds that spring from the fertile imaginations of talented animators The movements characterizations and settings in the best animated films are as vivid as any live action film and sometimes seem more alive than life itself In this case Hollywood's marketing slogans are fitting animated stories are frequently magical leaving memories of happy endings in young and old alike However the fantasy lands animators create bear little resemblance to the conditions under which these artists work Anonymous animators routinely toiled in dark cramped working environments for long hours and low pay especially at the emergence of the art form early in the twentieth century In Drawing the Line veteran animator Tom Sito chronicles the efforts of generations of working men and women artists who have struggled to create a stable standard of living that is as secure as the worlds their characters inhabit The former president of America's largest animation union Sito offers a unique insider's account of animators struggles with legendary studio kingpins such as Jack Warner and Walt Disney and their more recent battles with Michael Eisner and other Hollywood players Based on numerous archival documents personal interviews and his own experiences Sito's history of animation unions is both carefully analytical and deeply personal Drawing the Line stands as a vital corrective to this field of Hollywood history and is an important look at the animation industry's past present and future Like most elements of the modern commercial media system animation is rapidly being changed by the forces of globalization and technological innovation Yet even as pixels replace pencils and bytes replace paints the working relationship between employer and employee essentially remains the same In Drawing the Line Sito challenges the next wave of animators to heed the lessons of their predecessors by organizing and acting collectively to fight against the enormous pressures of the marketplace for their

class interests and for the betterment of their art form

Arequipa Sanatorium Lynn Downey, 2019-09-12 As San Francisco recovered from the devastating earthquake and fire of 1906 dust and ash filled the city's stuffy factories stores and classrooms Dr Philip King Brown noticed rising tuberculosis rates among the women who worked there and he knew there were few places where they could get affordable treatment In 1911 with the help of wealthy society women and his wife Helen a protégé of philanthropist Phoebe Apperson Hearst Brown opened the Arequipa Sanatorium in

Marin County Together Brown and his all female staff gave new life to hundreds of working class women suffering from tuberculosis in early twentieth century California Until streptomycin was discovered in the 1940s tubercular patients had few treatment options other than to take a rest cure at a sanatorium and endure its painful medical interventions For the working class and minorities especially women the options were even fewer Unlike most other medical facilities of the time Arequipa treated primarily working class women and provided the same treatment to all including Asian American and African American women despite the virulent racism of the time Author Lynn Downey s own grandmother was given a terminal tuberculosis diagnosis in 1927 but after treatment at Arequipa she lived to be 102 years old Arequipa gave female doctors a place to practice female nurses and social workers a place to train and white society women a noble philanthropic mission Although Arequipa was founded by a male doctor and later administered by his son the sanatorium s mission was truly about the women who worked and recovered there and it was they who kept it going Based on sanatorium records Downey herself helped to preserve and interviews she conducted with former patients and others associated with Arequipa Downey tells a vivid story of the sanatorium and its cure that Brown and his talented team of Progressive women made available and possible for hundreds of working class patients
