Lord Were Just Trying To Save Your Water:

Alabama Rivers, A Celebration and Challenge William G. Deutsch, 2019-06-18 ALABAMA RIVERS A CELEBRATION AND CHALLENGE invites you to travel down rivers and through time to encounter the rich human history and natural wonders that have defined Alabama Along the way you will celebrate an array of magnificent rivers filled with unique plants and animals shaped over the ages by a remarkably diverse geology You will appreciate how rivers have served people from the first Paleo Indian settlements to the present Accept the challenge to restore and protect our rivers for their economic cultural and ecological benefits but most of all because it is the right thing to do Show Thyself a Man Mixon, Gregory, 2016-07-25 In Show Thyself a Man Gregory Mixon explores the ways African Americans in postbellum Georgia used the militia as a vehicle to secure full citizenship respect and a more stable place in society As citizen soldiers black men were empowered to get involved in politics secure their own financial independence and publicly commemorate black freedom with celebrations such as Emancipation Day White Georgians however used the militia as a different symbol of freedom to ensure the postwar white right to rule This book is a forty year history of black militia service in Georgia and the determined disbandment process that whites undertook to destroy it connecting this chapter of the post emancipation South to the larger history of militia participation by African descendant people through the Western hemisphere and Latin America

Everybody's Problem Karen M. Hawkins, 2017-12-10 Through her case study of Craven Operation Progress Karen Hawkins challenges a number of assumptions regarding the Community Action Agencies CAAs central among them being that middle class whites on CAA boards were either uninterested or unable to meet the needs of poor citizens and that biracial agreement and cooperation was essentially impossible Drawing from untapped primary sources Hawkins finds some successes in interracial cooperation Hawkins contends that it was not only liberal action that led to economic and social change in Eastern North Carolina but also moderate compromise and open mindedness **Southern Waters** Craig E. Colten, 2014-10-13 Water has dominated images of the South throughout history from Hernando de Soto s 1541 crossing of the Mississippi to tragic scenes of flooding throughout the Gulf South after Hurricane Katrina But these images tell only half the story as urban industrial and population growth create unprecedented demands on water in the South the problems of pollution and water shortages grow ever more urgent In *Southern Waters The Limits to Abundance* Craig E Colten addresses how the South in an environment fraught with uncertainty can navigate the twin risks of too much water and not enough From the arrival of the first European settlers the South s inhabitants have pursued a course of maximum exploitation and control of the area s plentiful waters investing widely in wetland drainage and massive flood control projects Disputes over southern waterways go back nearly as far obstruction of fish migration by mill dams prompted new policies to protect aquatic life as early as the colonial era Colten argues that such conflicts which have heightened dramatically since the explosive urbanization of the mid twentieth century will only become more frequent and intense making the shift toward sustainable

use a national imperative In tracing the evolving uses and abuses of southern waters Colten offers crucial insights into the complex historical geography of water throughout the region A masterful analysis of the ways in which past generations harnessed and consumed water Southern Waters also stands as a guide to adapting our water usage to cope with the looming shortage of this once abundant resource **The Denmark Vesey Affair** Egerton, Douglas R.,Robert L. Paquette,2022-10-26 Annotating and interpreting a vast collection of documents that illuminate and contextualize the 1822 Denmark Vesey plot the editors of this volume argue that this landmark event was one of the most sophisticated acts of collective slave resistance in the history of the United States Southern Water, Southern Power Christopher J. Manganiello,2015-04-06 Why has the American South a place with abundant rainfall become embroiled in intrastate wars over water Why did unpredictable flooding come to characterize southern waterways and how did a region that seemed so rich in this all important resource become derailed by drought and the regional squabbling that has tormented the arid American West To answer these questions policy expert and historian Christopher Manganiello moves beyond the well known accounts of flooding in the Mississippi Valley and irrigation in the West to reveal the contested history of southern water From the New South to the Sun Belt eras private corporations public utilities and political actors made a region defining trade off The South would have cheap energy but it would be accompanied by persistent water insecurity Manganiello s compelling environmental history recounts stories of the people and institutions that shaped this exchange and reveals how the use of water and power in the South has been challenged by competition customers constituents and above all nature itself Wars in the Woods Samuel P. Hays,2006-11-17 Wars in the Woods examines the conflicts that have developed over the preservation of forests in America and how government agencies and advocacy groups have influenced the management of forests and their resources for more than a century Samuel Hays provides an astute analysis of manipulations of conservation law that have touched off a battle between what he terms ecological forestry and commodity forestry Hays also reveals the pervading influence of the wood products industry and the training of U S Forest Service to value tree species marketable as wood products as the primary forces behind forestry policy since the Forest Management Act of 1897 Wars in the Woods gives a comprehensive account of the many grassroots and scientific organizations that have emerged since then to combat the lumber industry and other special interest groups and work to promote legislation to protect forests parks and wildlife habitats It also offers a review of current forestry practices citing the recent Federal easing of protections as a challenge to the progress made in the last third of the twentieth century Hays describes an increased focus on ecological forestry in areas such as biodiversity wildlife habitat structural diversity soil conservation watershed management native forests and old growth He provides a valuable framework for the critical assessment of forest management policies and the future study and protection of forest resources **Uneven Ground** Ronald D. Eller,2008-10-24 This award winning history examines the politics of progress in America through a close look at industrial development in Appalachia since WWII Appalachia has played a complex role in

the unfolding of American history Early twentieth century critics of modernity saw the region as a remnant of frontier life that should be preserved and protected However supporters of material production and technology decried what they saw as a the isolation and backwardness of the region and sought to uplift its people through education and industrialization In Uneven Ground Ronald D Eller examines the politics of development in Appalachia while exploring the idea of progress as it has evolved in America Passionate clear concise and at times profound this volume demonstrates that Appalachia s struggle to overcome poverty to live in harmony with the land and to respect the value of community is a truly American story Chad Berry author of Southern Migrants Northern Exiles Winner of the Appalachian Studies Association s Weatherford Award and the Southern Political Science Association s V O Key Award *Baptized in PCBs* Ellen Griffith Spears,2014 Baptized in PCBs Race Pollution and Justice in an All American Town **Entanglements** Tora Johnson,2007-09-23 Entanglements explores the clash of cultures and personalities among fishermen scientists and whale advocates struggling to save both the endangered North Atlantic right whale and the livelihoods of thousands of Atlantic coastal families By most counts about 300 of these whales remain in the North Atlantic and scientists warn that collisions with fishing gear are contributing to their decline The political climate that surrounds the world s most endangered large whale is contentious complex and heartrending Without pointing fingers or laying blame Tora Johnson explores every side of the issue She takes us to sea with fishermen who struggle to stay in business setting traps and gillnets in the whale s habitat and with members of the rescue teams who attempt to cut away deadly rope and net from whales in the wild Weaving their stories and her personal observations into a discussion of the science and history of the conflict she offers an admirable balance of perceptions backgrounds and agendas Her thoughtful discussion of the plight of fishermen and whales and of the frustrations between fishing communities and conservationists presents an authentic microcosm of the global conflict between human demands on the environment and nature s finite capacity for supporting those demands
