Lordship To Patronage Scotland 1603 1745:

Integration, Enlightenment, and Industrialization Bruce Lenman, Rosalind Mitchison, 1981

Where Men No More

May Reap or Sow Richard D. Oram, 2024-06-06 Drawing together the evidence of archaeology palaeoecology climate history and the historical record this first environmental history of Scotland explores the interaction of human populations with the land waters forests and wildlife This volume spans 450 years that saw profound transformation in Scotland's environment It begins in the fifteenth century when the Golden Age of the early 1200s was but a fading folk memory in a land gripped by the gathering grimness of a little ice age Colder wetter stormier weather became the new normal interspersed with brief episodes of warmer but still moist conditions all of which brought huge challenges to a society on the knife edge of subsistence Viewing the religious and political upheavals of the sixteenth and seventeenth centuries against the cycles of disease and dearth that were ever present into the later 1700s the book explores the slow adoption and application of the ideas of Improvement and the radical disruption of Scotland's environment that ensued Reformation revolution and rebellion were the background noise to efforts to subsist and succeed through a hostile age in which Scotland's environment was an adversary to be tamed mastered and made polite As the last bitter decades of the little ice age were ground out in foreign wars forced clearances and potato famines Scotland prepared itself to embrace the Industrial Age

Reforming the

Scottish Parish John McCallum, 2016-04-08 The Protestant Reformation of 1560 is widely acknowledged as being a watershed moment in Scottish history However whilst the antecedents of the reform movement have been widely explored the actual process of establishing a reformed church in the parishes in the decades following 1560 has been largely ignored This book helps remedy the situation by examining the foundation of the reformed church and the impact of Protestant discipline in the parishes of Fife In early modern Scotland Fife was both a distinct and important region containing a preponderance of coastal burghs as well as St Andrews the ecclesiastical capital of medieval Scotland It also contained many rural and inland parishes making it an ideal case study for analysing the course of religious reform in diverse communities Nevertheless the focus is on the Reformation rather than on the county and the book consistently places Fife's experience in the wider Scottish British and European context Based on a wide range of under utilised sources especially kirk session minutes the study's focus is on the grass roots religious life of the parish rather than the more familiar themes of church politics and theology It evaluates the success of the reformers in affecting both institutional and ideological change and provides a detailed account of the workings of the reformed church and its impact on ordinary people In so doing it addresses important questions regarding the timescale and geographical patterns of reform and how such dramatic religious change succeeded and endured without violence or indeed widespread opposition

A Reference Guide for English

Studies Michael J. Marcuse, 2023-11-15

The Oxford Handbook of the English Revolution Michael J.

Braddick, 2015-03-05 This Handbook brings together leading historians of the events surrounding the English revolution

exploring how the events of the revolution grew out of and resonated in the politics and interactions of the each of the Three Kingdoms England Scotland and Ireland It captures a shared British and Irish history comparing the significance of events and outcomes across the Three Kingdoms In doing so the Handbook offers a broader context for the history of the Scottish Covenanters the Irish Rising of 1641 and the government of Confederate Ireland as well as the British and Irish perspective on the English civil wars the English revolution the Regicide and Cromwellian period The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies The events are approached not simply as political economic and social crises but as challenges to the predominant forms of religious and political thought social relations and standard forms of cultural expression The contributors provide up to date analysis of the political happenings considering the structures of social and political life that shaped and were re shaped by the crisis The Handbook goes on to explore the long term legacies of the crisis in the Three Kingdoms and their impact in a wider European context **Weep Not for Me** Deborah A. Symonds,2010-11-01 *Reader's Guide to British History* David

Loades,2020-12-17 The Reader sGuide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication The British Country House in the Eighteenth Century Christopher

Christie,2000 This work explores the British country house between 1700 1830 and looks at the lives of the noblemen and the servants who inhabited them Reference is made to the whole of the British Isles and there is a discussion of their political significance The Age of Oligarchy Geoffrey Holmes,D. Szechi,2014-07-16 The second volume on early and mid Georgian

Britain shows how the country used its expanding wealth its new found social cohesion at home and its international influence abroad to become not only a European but an imperial power As with the first volume every aspect of the period is covered **Scottish Soldiers in France in the Reign of the Sun King** Matthew Glozier,2004-05-01 This volume

examines the role and significance of Scottish soldiers in France in the age of the Sun King Louis XIV The study examines the complex relationship of expatriate Scottish soldiers to their homeland and native sovereign within the context of a changing environment for military employment The amity of the so called auld alliance meant little in an age of rapid development in the relationship between armies and the states they served Caught in the middle were a number of Scots attempting to perpetuate traditional modes of employment abroad They found themselves the target of increasing pressures to commit wholeheartedly to one employer or another The book surveys the history of Scottish soldiers service on the continent generally and in France in particular by examining the specific conditions of military service there in the Sun King s reign with a special focus on the soldiers of the regiment of George Douglas Earl of Dumbarton
