and his faltering marriage to Ann provides solace The arrival of an Englishman causes something of a stir Seeds of Western Culture: Universal Chronology, the Exodus and Archilochus' Odyssey Graham Peter Scott, 2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal s reference to Shoshenq s participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology *The Epic Structure of Space 1999* John K. Balor, 2018-02-18 This book contains transcripts from Online Alpha discussions where the epic and narrative structure of SPACE 1999 is being discussed by comparing episodes with themes characters and elements of plot from the Homeric Odyssey and Lewis Carroll s stories about Alice The discussion is motivated by questions raised in the scholarly literature and earlier Online Alpha debates about how to make sense of SPACE 1999 from the viewpoint of critical theory The book has been developed on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com The Renewal of Epic Virginia H. Knight, 1995 This work considers various modes of allusion to Homer in Apollonius Argonautica with particular reference to the poem s adaptation of recurrent scenes

in Homer the relationship of the Argonauts voyage to Odysseus wanderings and the treatment of the gods

The Baltic Origins of Homer's Epic Tales Felice Vinci, 2005-12-20 Compelling evidence that the events of Homer's Iliad and Odyssey took place in the Baltic and not the Mediterranean Reveals how a climate change forced the migration of a people and their myth to ancient Greece Identifies the true geographic sites of Troy and Ithaca in the Baltic Sea and Calypso's Isle in the North Atlantic Ocean For years scholars have debated the incongruities in Homer's Iliad and Odyssey given that his descriptions are at odds with the geography of the areas he purportedly describes Inspired by Plutarch's remark that Calypso's Isle was only five days sailing from Britain Felice Vinci convincingly argues that Homer's epic tales originated not in the Mediterranean but in the northern Baltic Sea Using meticulous geographical analysis Vinci shows that many Homeric places such as Troy and Ithaca can still be identified in the geographic landscape of the Baltic He explains how the dense foggy weather described by Ulysses befits northern not Mediterranean climes and how battles lasting through the night would easily have been possible in the long days of the Baltic summer Vinci's meteorological analysis reveals how a decline of the climatic optimum caused the blond seafarers to migrate south to warmer climates where they rebuilt their original world in the Mediterranean Through many generations the memory of the heroic age and the feats performed by their ancestors in their lost homeland was preserved and handed down to the following ages only later to be codified by Homer in the Iliad and the Odyssey Felice Vinci offers a key to open many doors that allow us to consider the age old question of the Indo European diaspora and the origin of the Greek civilization from a new perspective
