Louis Kahns Situated Modernism:

Louis Kahn's Situated Modernism Sarah Williams Goldhagen, Sarah Goldhagen Williams, Louis I. Kahn, 2001-01-01 She demonstrates instead that Kahn's architecture is grounded in his deeply held modernist political social and artistic ideals which guided him as he sought to rework modernism into a socially transformative architecture appropriate for the postwar world *Tradition as Mediation: Louis I. Kahn* Dana Margalith, 2018-07-11 This book explores Louis I Kahn's approach to tradition as revealed in two of his important unbuilt projects Focusing on Kahn's designs for the Dominican Motherhouse of St Catherine de Ricci Media Pennsylvania 1965 1969 and the Hurva Synagogue Jerusalem Israel 1967 1974 the book challenges prevailing aesthetic and methodological assessments of Kahn's use of tradition It reveals how an authentic and critical theoretical historical and humanistic study of tradition nourished Kahn's designs enabling him to mediate historical rituals ideas and beliefs and to develop innovative designs rooted deep in human culture while addressing real modern concerns The book evaluates Kahn's works as a creative recreation and re interpretation of the past shedding light on the potential value of the meaningful consideration of tradition in modern times **Louis Kahn** Carter Wiseman, 2020-11-10 The man who envisioned and realized such landmark buildings as the Salk Institute the Kimbell Art Museum and the National Assembly complex in Bangladesh Louis Kahn was born in what is now Estonia immigrated to America and became one of the towering figures in his adopted country's built world His works are unmistakable in their elegance monolithic power and architectural honesty Written by Carter Wiseman one of Kahn's most respected commentators this book offers a succinct accessible examination of the life and work of one of America's greatest architects It traces the influence of his immigrant origins his upbringing in poverty his education the impact of the Great Depression and the arrival of Modernism on his life and work Finally it provides insight into why as the legacy of many of his contemporaries has receded in importance Kahn's has remained so durably influential *Louis Kahn A Life in Architecture* provides the best concise introduction available to this singular life and achievement **Louis Kahn** Louis I. Kahn, 2003 This unique anthology draws from Louis Kahn speeches essays and interviews some never previously published to capture the evolution and central tenets of the influential American architect thinking from his early work of the 1940s to his death in 1974 Professor Twombly introduction and headnotes offer incisive commentary on the texts **Modern Architecture and Religious Communities, 1850-1970** Kate Jordan, Ayla Lepine, 2018-04-17 Social groups formed around shared religious beliefs encountered significant change and challenges between the 1860s and the 1970s This book is the first collection of essays of its kind to take a broad thematically driven case study approach to this genre of architecture and its associated visual culture and communal experience Examples range from Nuns holy spaces celebrating the life of St Theresa of Lisieux to utopian American desert communities and their reliance on the philosophy of Teilhard de Chardin Modern religious architecture converses with a broad spectrum of social anthropological cultural and theological discourses and the authors engage with them rigorously and innovatively As such

new readings of sacred spaces offer new angles and perspectives on some of the dominant narratives of the nineteenth twentieth and twenty first centuries empire urban expansion pluralism and modernity In a post traditional landscape religious architecture suggests expansive ways of exploring themes including nostalgia and revivalism engineering and technological innovation prayer and spiritual experimentation and the beauty of holiness for a brave new world Shaped by the tensions and anxieties of the modern era and powerfully expressed in the space and material culture of faith the architecture presented here creates a set of new turning points in the history of the built environment

Topophilia and Topophobia Xing Ruan,Paul Hogben,2020-10-28 This book is about the love and hate relations that humans establish with their habitat which have been coined by discerning modern thinkers as topophilia and topophobia Whilst such affiliations with the topos our manmade as well as natural habitat have been traced back to antiquity a wide range of twentieth century cases are studied here and reflected upon by dwelling on this framework The book provides a timely reminder that the qualitative aspects of the topos sensual as well as intellectual should not be disregarded in the face of rapid technological development and the mass of building that has occurred since the turn of the millennium Topophilia and Topophobia offers speculative and historical reflections on the human habitat of the century that has just passed authored by some of the world's leading scholars and architects including Joseph Rykwert Yi Fu Tuan Vittorio Gregotti and Jean Louis Cohen Human habitats ranging broadly from the cities of the twentieth century highbrow modern architecture both in Western countries and in Asia to non architect planner designed vernacular settlements and landscapes are reviewed under the themes of topophilia and topophobia across the disciplines of architecture landscape studies philosophy human geography and urban planning

At the Center Casey Nelson Blake,Daniel H. Borus,Howard Brick,2019-12-03 At a time when American political and cultural leaders asserted that the nation stood at the center of world awareness thinkers and artists sought to understand and secure principles that lay at the center of things From the onset of the Cold War in 1948 through 1963 they asked What defined the essential character of American culture Could permanent moral standards guide human conduct amid the flux and horrors of history In what ways did a stable self emerge through the life cycle Could scientific method rescue truth from error illusion and myth Are there key elements to democracy to the integrity of a society to order in the world Answers to such questions promised intellectual and moral stability in an age haunted by the memory of world war and the possibility of future devastation on an even greater scale Yet other key figures rejected the search for a center asserting that freedom lay in the dispersion of cultural energies and the plurality of American experiences In probing the centering impulse of the era *At the Center* offers a unique perspective on the United States at the pinnacle of its power

Air-Conditioning in Modern American Architecture, 1890-1970 Joseph M. Siry,2021-02-01 Air Conditioning in Modern American Architecture 1890 1970 documents how architects made environmental technologies into resources that helped shape their spatial and formal aesthetic In doing so it sheds important new light on the ways in which mechanical

engineering has been assimilated into the culture of architecture as one facet of its broader modernist project Tracing the development and architectural integration of air conditioning from its origins in the late nineteenth century to the advent of the environmental movement in the early 1970s Joseph M Siry shows how the incorporation of mechanical systems into modernism's discourse of functionality profoundly shaped the work of some of the movement's leading architects such as Dankmar Adler Louis Sullivan Frank Lloyd Wright Ludwig Mies van der Rohe Gordon Bunshaft and Louis Kahn For them the modernist ideal of functionality was incompletely realized if it did not wholly assimilate heating cooling ventilating and artificial lighting Bridging the history of technology and the history of architecture Siry discusses air conditioning's technical and social history and provides case studies of buildings by the master architects who brought this technology into the conceptual and formal project of modernism A monumental work by a renowned expert in American modernist architecture this book asks us to see canonical modernist buildings through a mechanical engineering oriented lens It will be especially valuable to scholars and students of architecture modernism the history of technology and American history

Architecture Post Mortem Donald Kunze, David Bertolini, Simone Brott, 2016-04-15 Architecture Post Mortem surveys architecture's encounter with death decline and ruination following late capitalism As the world moves closer to an economic abyss that many perceive to be the death of capital contraction and crisis are no longer mere phases of normal market fluctuations but rather the irruption of the unconscious of ideology itself Post mortem is that historical moment wherein architecture's symbolic contract with capital is put on stage naked to all Architecture is not irrelevant to fiscal and political contagion as is commonly believed it is the victim and penetrating analytical agent of the current crisis As the very apparatus for modernity's guilt and unfulfilled drives modernity's debt architecture is that ideological element that functions as a master signifier of its own destruction ordering all other signifiers and modes of signification beneath it It is under these conditions that architecture theory has retreated to an Alamo of history a final desert outpost where history has been asked to transcend itself For architecture's hoped for utopia always involves an apocalypse This timely collection of essays reformulates architecture's relation to modernity via the operational death drive architecture is but a passage between life and death This collection includes essays by Kazi K Ashraf David Bertolini Simone Brott Peggy Deamer Didem Ekici Paul Emmons Donald Kunze Todd McGowan Gevork Hartoonian Nadir Lahiji Erika Naginski and Dennis Maher [Reading Kenneth Frampton](#) Gevork Hartoonian, 2022-05-10 This book focuses on the first edition of Kenneth Frampton's Modern Architecture A Critical History published in 1980 It searches for clues and positions that will provide the reader with an unprecedented insight into the significance of Frampton's historiography of modern architecture It explores selected themes in line with Frampton's many faceted contribution certain aspects of which can be noted between the lines of his ongoing criticism of the present day architecture which inevitably lead us to a critical understanding of the past the modernity of architecture's contemporaneity The compiled chapters attempt to open a window onto the constellation of themes that

allowed Frampton to hold on to his anteroom view of history even amidst the flow of time and flood of temporalities spanning 1980 2020 The book elucidates how Frampton s critical presentation of the history of modern movement architecture and the book s classificatory mode periodization contribute to our understanding of the contemporaneity of architecture today

Islamabad and the Politics of International Development in Pakistan Markus Daechsel,2015-03-19 This is a highly original account of the design and development of Pakistan s capital city one of the most iconic and ambitious urban reconstruction projects of the twentieth century Balancing archival research with fresh theoretical insights Markus Daechsel surveys the successes and failures of Greek urbanist Constantinos A Doxiadis s most ambitious endeavour Islamabad analysing how the project not only changed the international order but the way in which the Pakistani state operated in the 1950s and 1960s In dissecting Doxiadis s fraught encounter with Pakistani policy makers bureaucrats and ordinary citizens the book offers an unprecedented account of Islamabad s place in post war international development Daechsel provides new insights into this period and explores the history of development as a charged transnational venture between foreign consultants and donors on the one side and the postcolonial nation state on the other The Turn to Transcendence Glenn W. Olsen,2012-07-30 Phenomenal A must read for us who desire to topple the dictatorship of relativism and culture of death and replace it with the only alternative The Imaginative Conservative Especially concerned with the public nature of religion historian Glenn W Olsen author of Christian Marriage A Historical Study and On the Road to Emmaus The Catholic Dialogue with American and Modernity sets forth an exhaustively researched and persuasive account of how religion has been reshaped in the modern period The Turn to Transcendence traces both the loss of transcendence and attempts to recover it while making its own proposals Neither reactionary nor modernist it questions how under conditions of modern life some form of the sacred and some form of the secular might both flourish at the same time But it also provides a warning that a religion unable to maintain itself with its own overt architecture language and calendars against an enveloping secular culture is destined for oblivion Glenn Olsen s book could hardly be more pivotal or insightful Confronting the growing amnesia regarding culture s religious origin and transcendent purpose Olsen proves both a masterful cartographer of modernity and a visionary of a culture that encourages and enables us to seek beyond ourselves Carl A Anderson Supreme Knight of the Knights of Columbus A brilliant book It rests on an amazing amount of scholarship that is wide ranging in history literature art science music theology and philosophy James Hitchcock professor of history St Louis University

Architecture Re-assembled Trevor Garnham,2013-04-26 Beginning from the rise of modern history in the eighteenth century this book examines how changing ideas in the discipline of history itself has affected architecture from the beginning of modernity up to the present day It reflects upon history in order to encourage and assist the reader in finding well founded principles for architectural design This is not simply another history of architecture nor a history of histories Setting buildings in their contemporaneous ideas about history it spans from Fischer von Erlach to Venturi and Rossi and beyond to

architects working in the fallout from both the Modern Movement Aalto Louis Kahn Aldo van Eyck and Post modernism such as Rafael Moneo and Peter Zumthor It shows how Soane Schinkel and Stirling amongst others made a meaningful use of history and contrasts this with how a misreading of Hegel has led to an abuse of history and an uncritical flight to the future This is not an armchair history but a lively discussion of our place between past and future that promotes thinking for making

Constructing Building Enclosures Clifton Fordham,2020-07-21 Constructing Building Enclosures investigates and interrogates tensions that arose between the disciplines of architecture and engineering as they wrestled with technology and building cultures that evolved to deliver structures in the modern era At the center of this history are inventive architects engineers and projects that did not settle for conventional solutions technologies and methods Comprised of thirteen original essays by interdisciplinary scholars this collection offers a critical look at the development and the purpose of building technology within a design framework Through two distinct sections the contributions first challenge notions of the boundaries between architecture engineering and construction The authors then investigate twentieth century building projects exploring technological and aesthetic boundaries of postwar modernism and uncovering lessons relevant to enclosure design that are typically overlooked Projects include Louis Kahn s Weiss House Minoru Yamasaki s Science Center Sigurd Lewerentz s Chapel of Hope and more An important read for students educators and researchers within architectural history construction history building technology and design this volume sets out to disrupt common assumptions of how we understand this history

Reality Modeled After Images Michael Young,2021-08-30 Reality Modeled After Images Architecture and Aesthetics after the Digital Image explores architecture s entanglement with contemporary image culture It looks closely at how changes produced through technologies of mediation alter disciplinary concepts and produce political effects Through both historical and contemporary examples it focuses on how conventions of representation are established maintained challenged and transformed Critical investigations are conjoined with inquiries into aesthetics and technology in the hope that the tensions between them can aid an exploration into how architectural images are produced disseminated and valued how images alter assumptions regarding the appearances of architecture and the environment For students and academics in architecture design and media studies architectural and art history and related fields this book shows how design is impacted and changed by shifts in image culture representational conventions and technologies

The Architecture of Influence Amanda Reeser Lawrence,2023-11-21 How do we create the new from the old The Architecture of Influence explores this fundamental question by analyzing a broad swath of twentieth century architectural works including some of the best known examples of the architectural canon modern and postmodern through the lens of influence The book serves as both a critique of the discipline s long standing focus on genius and a celebration of the creative act of revisioning and reimagining the past It argues that all works of architecture not only depend on the past but necessarily alter rewrite and reposition the traditions and ideas to which they refer Organized into seven chapters Replicas Copies

Compilations Generalizations Revivals Emulations and Self Repetitions the book redefines influence as an active process through which the past is defined recalled and subsequently redefined within twentieth century architecture

New Makers of Modern Culture Wintle Justin, 2013-05-13 New Makers of Modern Culture is the successor to the classic reference works Makers of Modern Culture and Makers of Nineteenth Century Culture published by Routledge in the early 1980s The set was extremely successful and continues to be used to this day due to the high quality of the writing the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty five years and the epochal changes that have occurred the demise of Marxism and the collapse of the Soviet Union the rise and fall of postmodernism the eruption of Islamic fundamentalism the triumph of the Internet Containing over eight hundred essay style entries and covering the period from 1850 to the present New Makers includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley next to John Ruskin is Salmon Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping runs shoulders with Jacques Derrida Julia Kristeva with Kropotkin Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer Bernard Crick Edward Seidensticker and Paul Preston In a few cases for example Michael Holroyd and Philip Larkin contributors are themselves the subject of entries With its global reach New Makers of Modern Culture provides a multi voiced witness of the contemporary thinking world The entries carry short bibliographies and there is thorough cross referencing There is an index of names and key terms

The Space Within Robert McCarter, 2016-11-15 Alvar Aalto once argued that what mattered in architecture wasn't what a building looks like on the day it opens but what it is like to live inside it thirty years later In this book architect and critic Robert McCarter persuasively argues that interior spatial experience is the necessary starting point for design and the quality of that experience is the only appropriate means of evaluating a work after it has been built McCarter reveals that we can't really know a piece of architecture without inhabiting its spaces and we need to counter our contemporary obsession with exterior views and forms with a renewed appreciation for interiors He explores how interior space has been integral to the development of modern architecture from the late 1800s to today and he examines how architects have engaged interior space and its experiences in their design processes fundamentally transforming traditional approaches to composition Eloquently placing us within a host of interior spaces he opens up new ways of thinking about architecture and what its goals are and should be

World Heritage in Iran Ali Mozaffari, 2016-02-11 Pasargadae is the location of the tomb of Cyrus the Great founder of the Achaemenid Empire Through the ages it was Islamised and the tomb was ascribed to the Mother of Solomon It was only at the beginning of the twentieth century that archaeological evidence demonstrated the relationship between the site and Cyrus and it was

appropriated into conflicting political discourses on nationalism and Islamism while concurrently acknowledged as a national and then a World Heritage site However Pasargadae is neither an isolated World Heritage site nor purely a symbol of abstract state politics Pasargadae and its immediate vicinity constitute a living landscape occupied by villagers nomads and tourists This edited volume presents for the first time a broad multi disciplinary examination of Pasargadae by experts from both outside and within Iran It specifically focuses on those disciplines that are absent from existing studies such as ethnography tourism and museum studies providing valuable insights into this fascinating place In its totality the book argues that to understand World Heritage sites and their problems fully a holistic approach should be adopted which considers the manifold of perspectives and issues It also puts forward a novel approach to the question of heritage representation and construction of collective identity from the framework of place
