The Making of Modern Greece Professor David Ricks, Professor Roderick Beaton, 2013-06-28 Every Greek and every friend of the country knows the date 1821 when the banner of revolution was raised against the empire of the Ottoman Turks and the story of Modern Greece is usually said to begin. Less well known but of even greater importance was the international recognition given to Greece as an independent state with full sovereign rights as early as 1830. This places Greece in the vanguard among the new nation states of Europe whose emergence would gather momentum through to the early twentieth century a process whose repercussions continue to this day. Starting out from that perspective which has been all but ignored until now this book brings together the work of scholars from a variety of disciplines to explore the contribution of characteristically nineteenth century European modes of thought to the making of Greece as a modern nation. Closely linked to nationalism is romanticism which exercised a formative role through imaginative literature as is demonstrated in several chapters on poetry and fiction. Under the broad heading uses of the past other chapters consider ways in which the legacies first of ancient Greece then later of Byzantium came to be mobilized in the construction of a durable national identity at once Greek and modern. The Making of Modern Greece aims to situate the Greek experience as never before within the broad context of current theoretical and historical thinking about nations and nationalism in the modern world. The book spans the period from 1797 when Rigas Velestinlis published a constitution for an imaginary Hellenic Republic at the cost of his life to the establishment of the modern Olympic Games in Athens in 1896 an occasion which sealed with international approval the hard won self image of Modern Greece as it had become established over the previous century. The American Greek Review, 1923

Zervas, 2016-12-08 This book examines informal modes of learning in Greece from in the late nineteenth and early twentieth centuries set against the backdrop of Greek nationalist interests and agendas For much of this period one of the Greek state s major goals was to bind the nation around a common history and culture linked to a collective and homogenous community This study addresses the critical relationship between the average Greek child and their home community and school life during the earliest stages of their education The stories games songs and theater that children learned in Greece for much of the late nineteenth and early twentieth centuries went beyond shaping their moral character or providing entertainment but were instrumental in forging a Greek national consciousness **Gendered Stereotypes and Female Entrepreneurship in Southern Europe, 1700-1900** Polly Thanailaki, 2021-04-26 This book addresses issues that remain under researched by feminist historians

 20th Centuries Maria Christina Chatziioannou,Sophia Laiou,2024-12-23 This book provides a significant contribution to our
 understanding of the Ottoman Empire s economic history particularly through its exploration of local entrepreneurship which
 brings new perspectives to the economic dynamics of the region This focus adds a valuable dimension to the broader
 narrative of Mediterranean social and economic developments from the 18th to the 20th century By emphasizing the role of
 both Muslim and non Muslim agents the work challenges more Eurocentric narratives that have often influenced the
 historiography of economic activities in this region The inclusion of Ottoman Turkish and Greek sources underlines the
 importance of accessing voices and records that have been underutilized in previous studies The fact that this project is a
 result of Greek Turkish academic cooperation is particularly noteworthy as it promotes a more nuanced and comprehensive
 view toward shared histories in order to shed light on complex historical phenomena This work will be of interest to scholars
 of Ottoman and Mediterranean history seeking to explore the nuances of economic and social change from within the
 Ottoman Empire It will also appeal to a wider audience interested in the history of early entrepreneurial activities and the
 complex interplay between cultural and economic dynamics in historical contexts The Academy ,1881 **Catalogue of
