Excerpt from *Mathematical Psychics* an Essay on the Application of Mathematics to the Moral Sciences

The application of mathematics to Belief the calculus of Probabilities has been treated by many distinguished writers the calculus of Feeling of Pleasure and Pain is the less familiar but not in reality more paradoxical subject of this essay The subject divides itself into two parts concerned respectively with principle and practice root and fruit the applicability and the application of Mathematics to Sociology Part I In the first part it is attempted to prove an affinity between the moral and the admittedly mathematical sciences from their resemblance as to 1 a certain general complexion 2 a particular salient feature 1 The science of quantity is not alien to the study of man it will be generally admitted in so far as actions and effective desires can be numerically measured by way of statistics that is very far as Professor Jevons anticipates About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      MATHEMATICAL PSYCHICS AN ESSAY Francis Ysidro 1845-1926 Edgeworth, 2016-08-28
