## **Mathematics For Data Processing:**

**Mathematics for Data Processing** Robert N. McCullough, 2001      **Mathematical Problems in Data Science** Li M. Chen, Zhixun Su, Bo Jiang, 2015-12-15 This book describes current problems in data science and Big Data. Key topics are data classification, Graph Cut, the Laplacian Matrix, Google Page Rank, efficient algorithms, hardness of problems, different types of big data, geometric data structures, topological data processing, and various learning methods. For unsolved problems such as incomplete data relation and reconstruction, the book includes possible solutions and both statistical and computational methods for data analysis. Initial chapters focus on exploring the properties of incomplete data sets and partial connectedness among data points or data sets. Discussions also cover the completion problem of Netflix matrix, machine learning method on massive data sets, image segmentation, and video search. This book introduces software tools for data science and Big Data such as MapReduce, Hadoop, and Spark. This book contains three parts. The first part explores the fundamental tools of data science. It includes basic graph theoretical methods, statistical, and AI methods for massive data sets. In the second part, chapters focus on the procedural treatment of data science problems, including machine learning methods, mathematical image and video processing, topological data analysis, and statistical methods. The final section provides case studies on special topics in variational learning, manifold learning, business and financial data recovery, geometric search, and computing models. **Mathematical Problems in Data Science** is a valuable resource for researchers and professionals working in data science, information systems, and networks. Advanced level students studying computer science, electrical engineering, and mathematics will also find the content helpful.      **Mathematics for Data Processing and Computing** Maria Shopay-Kolatis, 1985-06-01      **Mathematics for Data Processing; Seminar Outline** Data Processing Management Association.
