Allyn Jones,1999 All About Maths Dhairyा Bhatt,2020-10-10 Centuries before the question Why mathematics

was so effective in explaining nature Over was even asked Galileo thought he already knew the answer To him mathematics was simply the language of the universe To understand the universe he argued one must speak this language God is indeed a mathematician I was inspired to write this book as I am fascinated by how maths pervades every part of our lives Maths is as ubiquitous as the air we breathe In fact to the best of our knowledge it could be argued that the whole universe is understood only through maths We are truly standing on the shoulders of giants Our technology focused lives are the culmination of the thinking of a multitude of great mathematicians who have preceded us Their thinking and development of this language of the universe leave me in awe In this book I try to show a little bit about how maths really affects every part of our daily lives I am hoping to inspire the reader an interest in the topic and an appreciation of how many interesting facets there are to the subject Finally maths should not be feared It is something that believes everyone can explore at a level appropriate to their interest
